GERMANY HAS NO DESIRE FOR PEACE

Berlin Paper Says Reports are Probably Inspired by British—Position of Germans Favorable

BERLIN, Nov. 24.—The Cologne Gazette declares that the reports of a German desire for peace which it says are probably inspired by the British belong to the region of higher political idiosyncrasy.

The position of the Germans, neither in the east nor the west, it continues, is critical. The German military undertakings on all the battlefields are progressing favorably. Neither the military nor the political situation contains another reason which might make Germany desirous to conclude peace.

GERMANS SURRENDER

Entire Regiment Surrendered to Russians — Petrograd Reports Russian Victories

PARIS, Nov. 24.—The correspondent at Petrograd of the Matin says:

"The Russians after having checked the German offensive on the Plock-Leczen front gained on that side a brilliant decisive victory. The enemy who had heavy losses is flying with all speed toward the German frontier. An entire German regiment surrendered to the victors."

"The Russians are energetically pursuing the enemy."

"The Russians also are vigorously attacking along the Czestochowa-Cracow line. This day seems to mark one of the most important and perhaps decisive phases of the war."

REPORTS OF A RUSSIAN VICTORY OVER GERMANS ARE CONFIRMED

LONDON, Nov. 24.—The Times Petrograd correspondent in a despatch supplementing one declaring that private advices received in the Russian capital had confirmed the reports of a Russian victory over the Germans in Poland, says:

"According to unofficial information reaching here the German army of 600,000 which made an irruption between the Vistula and Warta rivers has been broken up into several parts, one of which was compelled to divert its course southward and another northward."

"Apparently in each case the Russian forces succeeded in getting behind these disjointed corps and inflicted upon them great losses."

"The Germans are believed to have suffered very heavy reverses at Brzeziny and Tuszyn. It is impossible as yet to give even approximate figures."

RUSSAINS CONTINUE TO DRIVE BACK GERMANS NEAR BRZESIN

PETROGRAD, Nov. 24.—An official communication issued by the general staff of the Russian army in Casca under date of Nov. 22 says:

"In the direction of Brzezyn the

advance guard of the Russian army continued to drive back the enemy, after having thrown into disorder a Turkish column during which an ammunition train was captured."

"From Karakilis to Alashgerdvalley some engagements took place with results favorable to us. In the Persian province of Azerbaijan, the Turks were defeated in the region of Khana-sur pass and also in the passes leading from Dilman in the direction of Kufur. In these engagements the Russian troops captured some Turkish artillery."

PETROGRAD ANNOUNCES A GERMAN RETREAT IN POLAND

LONDON, Nov. 24.—An official communication given out in Petrograd, according to an Exchange telegraph despatch announces a German retreat in Poland. The statements follow:

"Between the Vistula and the Warta the Germans have retreated from the line running from Strykow to Zgierz, Szadek, Zdunska, Wala and Wozniki. Fancy costumes, No. Chelms, Wed.

HANALEI DASHED TO PIECES ON REEF

Schooner Broke Apart Amid Cries Which Rose Above Thunder of the Surf—Only 5 of 58 Aboard Rescued—Men on Shore Witnessed Tragedy

SAN FRANCISCO, Nov. 24.—The steam schooner Hanalei, ashore on Duxbury reef, broke in two just before dawn today with 58 souls aboard. Three passengers and two seamen reached the shore. There seemed small hope for any of the others.

The schooner, which had been pounded by the surf since yesterday noon when she ran ashore in a fog, went all to pieces. Her bow, which hung over the reef and had been twisted to a right angle, slid into the water and drifted to within one hundred yards of the beach.

The five persons who first came ashore swam from this wreckage. A few more hours would have saved every soul aboard the Hanalei. An hour would have saved many. After all hope had been given up ashore and on board the wreck of the sixth line fired by the Golden Gate park lifesaving crew under Captain Norman Nelson went over the vessel. A breeches buoy was rigged and then the line parted. Almost immediately thereafter the Hanalei broke apart amid cries which rose above the thunder of the surf.

Efforts to take off the passengers and crew from shore began late yesterday after a dozen vessels had tried to reach her and were prevented by fog and surf.

The Port Point lifesaving crew from the beach fired lines which fell short, until in desperation they double-charged their mortar and it burst. An effort to launch a boat from the Hanalei failed and a passenger was drowned. A sailor tried to swim ashore with a line and men on the shore could see his arm swing over the waves but at the line of breakers he sank and his body drifted out to sea. A passenger, Elwood Schwerin of Berkeley, Cal., took a line and got ashore but the line became unfastened as he swam.

One other man, it is reported, also reached shore. A lifesaving crew which went out toward the wreck was upsed.

The captain reached shore and the remaining five men got aboard the Hanalei. Two later were washed off and drowned and there seemed no hope for any rescue.

At two o'clock in the morning the Golden Gate lifesaving crew with a larger mortar appeared. Through the enterprise of a local newspaper it had been ferried across San Francisco bay loaded on a motor truck and sent ten miles over mountain roads. It began to shoot lines toward the wreck

as the tide rose. After the third shot the water was waist deep on the schooner and the wireless operator, who was sending with an improvised outfit held in one hand, reported that the passengers were desperate.

"We will get ashore as best we can," he flashed through the air. "We cannot stay here."

But they dared not trust the waves. "Try once more. Hurry! Hurry! Hurry!" flashed the operator a little later.

The Hanalei was a wooden vessel of 566 tons, built for the Hawaiian sugar trade on 1901 and later diverted to coastwise trade, running between San Francisco and Eureka. She left Eureka Sunday. She was owned by the Independent S. S. Co.

WANT STATE ROAD

A state road is being advocated from North Chelmsford to Groton, and yesterday a number of residents of Westford, Chelmsford and Groton called at the courthouse in Groton street, where they held a conference with the county commissioners, who had been petitioned to build the road. There was no opposition to the project, and it was decided that the various towns will petition the state highway commission, working jointly with the county commissioners.

SCHOOL FOR OFFICERS

A school for the officers of the Second battalion of the Six Regiment was held at the armory last night in charge of Capt. Ralph McCoy, U. S. A., of the inspector general's department, Massachusetts National Guard. The officers at the school were the captains and lieutenants of Companies C, G and K of this city, and L of Boston. The session lasted until after 10 o'clock and was very successful. At the close of the session the officers held a brief meeting to discuss plans for the coming battalion night to be held at the armory some time in December.

Fine prizes, No. Chelms, Wed. eve.

FUNERAL NOTICE

BUTTERMORE.—The funeral of Mrs. Hannah Buttermore will take place Wednesday morning, Nov. 25, from her late home, 113 Adams street, at 8:15 o'clock. A high mass of requiem will be sung at St. Patrick's church at 2 o'clock. Interment will take place in St. Patrick's cemetery under the direction of Undertaker Peter H. Savage.

GERMANS IN RETREAT AFTER RUSSIAN VICTORY

Gen. Von Hindenburg's Army Experienced Serious Reverses at Hands of Russians

LONDON, Nov. 24.—General Von Hindenburg's army which last week was sweeping toward Warsaw in its second advance through Russian Poland today is reported from Petrograd to be in retreat after having experienced serious reverses at the hands of the Russians who, having been reinforced made a brilliant stand between the Vistula and Warta rivers.

The same despatches that tell of General Von Hindenburg's reverses, however, say that German reinforcements were being brought up so that another great battle is likely to develop on a line nearer to the frontier of Posen, where the Germans will have the same chances of renewing a vigorous offensive as had the Russians in the present instance.

General Von Hindenburg has about 400,000 men but if the Petrograd report can be accepted they have been separated, badly cut up and thousands taken prisoner so that they will require reformation and rest after the severe punishment inflicted upon them following their daring advance into the heart of Russian Poland.

In the western arena of the war the present lines of battle seem to be frozen into position as if in conformity with the wintry weather conditions. Theims, Soissons and Ypres continue to suffer from the commands of the Germans there has been going on for weeks but there has been no renewal of the concerted German attempt to break through to the coast, although all signs seem to indicate that they may undertake this movement again at any moment. Still, more troops are being brought up and it is now said the plan is to reach the French coast by December 10.

The Germans show signs of being staggered by their enormous losses in Flanders and despatches from Berlin assert that the German troops are far better able to stand exposure to the cold than are the allies. The forces of Emperor William, these despatches claim, are trained and clothed for just such emergency while the troops of the allies from the south of France, from Morocco and from India must necessarily suffer greatly.

he belonged. Until last Tuesday nothing could be learned of his identity. He did not know his name, nor could he tell the name of any friends or relatives. He knew the seriousness of his condition, but was powerless to remedy it.

He was identified last Tuesday by his wife and Mr. Cummings. Mayor Ashley visited his nephew the following day.

While the patient was aware of the identity of his relatives and friend, he had no recollection of the past. For a time there appeared no change in his condition, and it seemed as if he might continue in the state in which he came here. Suddenly, however, he brightened up perceptibly, until today he appeared to have a clear knowledge of past events. He said that he has been manager of theatres in New Bedford, Haverhill, Boston and Lynn.

During the time he has been at the Marlboro hospital he has had a fairly good appetite. He says his weight during that time has dropped from 155 pounds to 136.

Attendants at the hospital are of the opinion that identification of the patient was the principal influence that brought about a return of memory.

RECORDED AT HARVARD

CAMBRIDGE, Nov. 24.—Two shocks were recorded on the seismograph at Harvard college today. The first at 7:11 o'clock and the second at 7:17. The distance to the origin of the earthquake was estimated at 2470 miles from Cambridge. The distance curve skirted the coast of southwestern California and passed through the bay of Panama, according to Prof. J. H. Woodworth of the seismograph station.

MIND BLANK TWO WEEKS

ANDREW W. ASHLEY REGAINS HIS MEMORY AT MARLBORO HOSPITAL

MARLBORO, Nov. 24.—His mind a blank for nearly two weeks, Andrew W. Ashley of Boston, nephew of Mayor Ashley of New Bedford, now finds his memory of past events fast returning.

Mr. Ashley, who became a patient at the Marlboro hospital ten days ago, came to himself yesterday afternoon. He recognized all around him, especially John Cummings of Boston, a friend who saw a picture in the paper that resulted in identifying the patient after he was taken to the hospital.

Dr. C. W. Smith, Mr. Ashley's physician, thinks it is only a question of time when he will be as well as ever. The doctor believes Mr. Ashley's business affairs had such an effect on his mind as to cause a lapse of memory. It was in that condition that Mr. Ashley appeared in Marlboro 12 days ago. How he got here, or what caused him to come, he does not know. He told the hospital authorities that he left his lodgings on Beacon street, Boston, to keep an engagement with a man of his acquaintance. He remembers nothing more until he walked into Dr. Smith's office.

He could not tell his name or where

Thanksgiving Day
in Lowell

Every year there is a war on with Turkey that ends satisfactorily with cranberries instead of aeroplanes. Thanksgiving day is a home day to be observed by all in the family—by the sons and daughters honoring their parents—A day that brings scattered families together—A day of reunion in many cases—A day that brings back to our memories bygone days and notes the changes as years roll on.

Dance, the old square dance at Firemen's Hall, tonight, 8 p.m.

EARTHQUAKE SHOCKS

RECORDED ON THE SEISMOGRAPH OF GEORGETOWN UNIVERSITY AT 7:20 THIS MORNING

WASHINGTON, Nov. 24.—Earthquake shocks recorded today on the seismograph of Georgetown University beginning at 7:20 a. m. and continuing an hour and six minutes. The center of the disturbance was calculated to be about 1200 miles from Washington and the observers believed it to be within the United States.

CHRISTIAN ENDEAVOR SOCIETY. The Lowell Christian Endeavor union held its regular monthly meeting last night at the Chelmsford Center church. Proceeding the business session, an excellent supper was served in the town hall. Sixteen societies from Lowell and the surrounding towns were represented by over 150 delegates.

President Walter Chase presided over the business session, and a large amount of routine business was transacted. The speaker of the evening, Rev. J. M. Kyles of this city, gave a most interesting talk on missionary work in South America, especially among the Portuguese of Brazil, where the speaker worked for a number of years as a missionary. The entertainment which followed the address included a highly pleasing duet by Mrs. Frank Dutton and Miss Belle Libby.

Good old music at the Firemen's Hall, state armory, Thanksgiving eve.

SUN FEATURES WEDNESDAY

Interesting Discussions By "The Man in the Moon," French Maid, Sleepy-Tales, and Others

The Man in the Moon in tomorrow's Sun will have many amusing discussions of timely topics. He begins with interesting reminiscences of Thanksgiving and the month of November. He extends his wishes to all for a pleasant Thanksgiving. He comments upon many other topics of local interest in a most delightful way.

"The French Maid" is the topic of the article in "What the French Maid Said" in tomorrow's Sun. She explains the quality of being homelike and makes interesting comparisons.

"Everyday Etiquette" is another interesting feature which will appear in The Sun tomorrow and will answer many important questions of deportment.

The sleepy-tale tomorrow is "How Billy Awoke" and is written in a manner that will delight the little ones. "The Rabbit's Foot" tells of the importance of protecting one's health from the cold of winter and the information will be very helpful.

ARMY AND NAVY GAME. ANNAPOLIS, Nov. 24.—With but four days before their warriors leave Annapolis for Philadelphia for their annual battle with the Army, Navy's hosts are living up things this week.

While the cheering staff devotes its time to putting on the finishing touches, the members of the regiment of midshipmen will gather on the beach to see the members of the Navy vocal encouragement to be given at Franklin field next Saturday to their heroes of gladiator and short-lived.

Although it is admitted by many of the Navy supporters that judged by comparative performances, Army has the right to expect to duplicate its victory of last year, hope is not dead on the Severn shore.

TWO CHIMNEY FIRES. A chimney fire at 31 Cedar street called out the members of Engine 2 at 6:20 o'clock last evening. No damage. At 9:15 o'clock a second chimney fire was discovered at 1 Walker place but this was extinguished with but slight damage. The tenement is occupied by Fred Dickey.

TRENCHES ARE READY

Coburn Herd Infected With Hoof Disease Will be Slaughtered by State Gang

The Coburn herd of cattle in Bristol has not yet been slaughtered but Dr. Edward A. Coburn, of the Bureau of Animal Industry, says that the cows will be killed within a day or two. Dr. Coburn lives in High street, this city. He was called to a farm in Chelmsford Center, last night where it was reported that one of a herd of cattle had contracted the foot and mouth disease. An examination of the animal was made, but no symptoms of the disease were discovered.

Dr. Coburn has nothing to do with the slaughtering of the animals, retained to death because of foot and mouth disease, but deals entirely with the diagnosis of the malady. To The Sun, today, Dr. Coburn stated that in all probability the Coburn herd would be killed within a day or two. It was Dr. Coburn who awarded the contract for the digging of the trenches for the burial of the cattle to the Burton, H. Weston Co. The trenches have been dug, and as the animals are slaughtered, they will be buried under a layer of earth with a solution of lime on top to remove all possibility of further contagion. The cattle, one at a time, will be led to the edge of the trench and shot. The position of the body will be arranged so that the animal will tumble over into the trench.

Infected cattle were slaughtered in Worcester and Grafton yesterday, and a newly organized slaughtering crew is slaughtering herds in Swansea and Westport today.

Charged to the War. That the European war is responsible for the outbreak of the foot and

mouth disease in the United States is the belief of Webster C. Robbins, a prominent cattle raiser of Ayton, yesterday. Mr. Robbins said to Commissioner Fred E. Walker of the department of animal industry:

"Hundreds of thousands flocked to Boston and New York and all parts of the country just before the war broke out. The disease has been raging in Holland and Germany for years and clothing and shoes from these countries could easily carry and spread the disease."

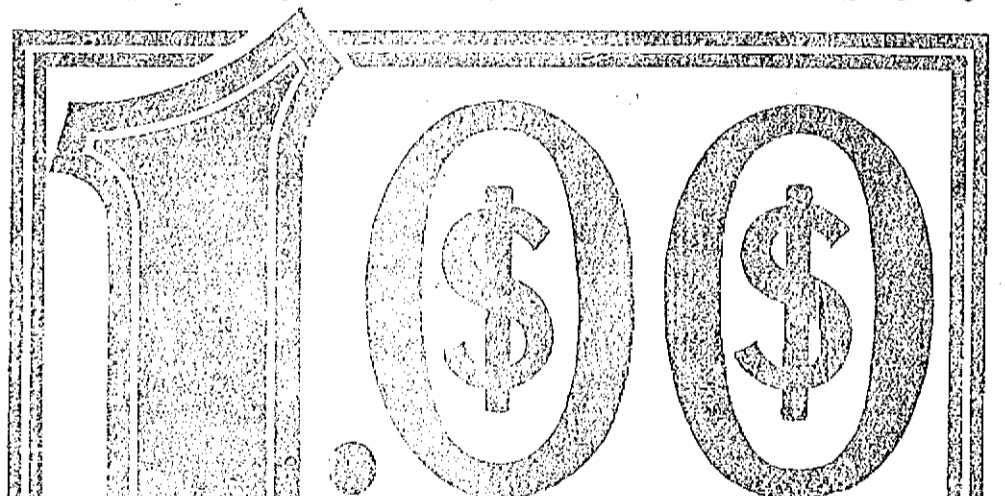

MONTH'S MIND MASS. A month's mind mass for the repose of the soul of Thomas J. McDermott will be celebrated at St. Peter's church on Wednesday morning, November 25, at 8 o'clock.

Dancing from 9 till 2, at Firemen's Hall, Thanksgiving eve.

NO NEED TO FEAR MEAT

NO CATTLE WITH FOOT AND MOUTH DISEASE BEING SLAUGHTERED

WASHINGTON, D. C., Nov. 24.—According to the specialists of the department of agriculture people even in states quarantined for the foot and mouth disease need have no fear of eating meat, provided they cook it thoroughly. The foot and mouth disease is not easily communicated to human beings through food, although milk from a diseased cow might transmit the disease to a human being. In the case of milk, however, pasteurization will render it entirely safe. Human beings who do get the disease commonly get it from direct contact with a sick animal. It is wisest, therefore, for people to keep away from all animals having the disease, unless they are properly protected with rubber gloves, coats and boots, and these are thoroughly disinfected after each visit to the animals.

In the case of meat, as in the case of milk, it must be remembered that all

HERO IN RANKS

Zouave Prisoner Performs Sacrifice to Save Regiment

PARIS, Nov. 23.—There was given out semi-officially in Paris the following recital:

"The other day in Belgium a German column was advancing to attack the Forest of Brié, defended by a detachment of Zouaves. Our men noticed that before them the Germans forced a Zouave prisoner and at the same time they heard cries of 'stop firing.' For an instant our riflemen and the men in charge of our machine guns hesitated. Then from the German ranks they heard the voice of the Zouave prisoner, who called to them: 'Shout! Three times, non de Dieu!'

"There then dashed out from the ranks of the Zouaves a general charge of rifles and machine guns. This led to the assaults of the Zouaves and with them fell the heroic soldier whose devotion made it possible for the countrymen to chokemate the jaws of the enemy.

"If the name of this brave is unknown, at least his regiment will remember the remembrance of his sacrifice, which is equal to any of the most courageous personal incidents recorded in our glorious history."

MAGEE TO JOIN FEDS

ST. LOUIS NATIONAL PLAYER SAID TO BE FIGHTING WITH OUTLAWS—SHAFER ALSO TO JUMP

CHICAGO, Nov. 23.—That Leo Magee of the St. Louis Nationals will sign with the Brooklyn Feds and the latter also expect to get Arthur Shafer of the New York Nationals were announcements made here today by Chas. F. Weeghman, president of the Chicago Feds. Weeghman said that Magee had already given his "days' notice" to the St. Louis management. Shafer is said to be in Los Angeles. Stoval of the Kansas City Feds is also in the California city and a telegram from President Gilmore of the Feds today asked him to get in touch with Shafer.

SCHOONER BADLY DAMAGED

NORFOLK, Va., Nov. 23.—The three-masted schooner William Sumner was badly damaged in a collision Sunday night with a target being towed by the United States battleship North Dakota. It was learned today. The schooner with a crew of eight men was coming into this port and was en route from Charlestown, S. C. The battleship was outboard, towing the target to the drill grounds of the Atlantic fleet. A large hole was made in the side of the Sumner and she is here awaiting repairs.

FUNERALS

GARDNER.—The funeral of John Gardner took place yesterday from his home, 124 W. North street. High mass of requiem was celebrated at St. Joseph's church at 8 o'clock by Rev. Joseph Laidlaw, O. M. I., assisted by Rev. Arthur Bernheide, O. M. I., and Rev. Arthur Bernheide, O. M. I. Burial was in St. Joseph's cemetery, where the committee in charge of Undertaker Joseph Albert.

ROY.—The funeral of David Roy took place yesterday from his home, 439 Moody street. High mass of requiem was celebrated at St. Joseph's church at 9 o'clock by Rev. J. H. Racette, O. M. I., assisted by Rev. Arthur Bernheide, O. M. I., and Rev. Arthur Bernheide, O. M. I. Burial was in St. Joseph's cemetery, where the committee in charge of Undertaker Joseph Albert.

BURKE.—The funeral of the late Mrs. Bridget Burke took place yesterday from her home, 55 E. Street, and was very largely attended. The sacred high mass of requiem was a solemn high mass of requiem was sung by Rev. James McDermott, O. M. I., Rev. Bernard Fletcher, O. M. I., and Rev. Arthur Bernheide, O. M. I. Burial was in St. Joseph's cemetery, where the committee in charge of Undertaker Joseph Albert.

DEATHS

BEDARD.—Maria Bedard, aged 23 years, 11 months and 27 days, died Monday at her home, 7 Dane avenue. She leaves her parents, Mr. and Mrs. Pierre Bedard, 338 Allen avenue. Besides her parents she leaves two brothers, Pierre E. of Sherbrooke, Que., and Joseph E. of Cambridge, Que., and a sister, Marie E. of Cambridge, Que. Burial was in St. Joseph's cemetery, where the committee in charge of Undertaker Joseph Albert.

PAQUIN.—Joseph Paquin, aged 33 years, 10 months and 27 days, died Monday at his home, 7 Dane avenue. He leaves his parents, Mr. and Mrs. Pierre Paquin, 338 Allen avenue. Besides his parents he leaves two brothers, Pierre E. of Sherbrooke, Que., and Joseph E. of Cambridge, Que., and a sister, Marie E. of Cambridge, Que. Burial was in St. Joseph's cemetery, where the committee in charge of Undertaker Joseph Albert.

BOWLING CHALLENGE.—Mr. Russell Stack, a popular member of the Agogo club of the First Baptist church, has been working hard the last few weeks building up a bowling team and has succeeded in getting together a pretty fair quintet of rollers. Now, if there is any church team not affiliated with the Baraca Club (think it is faster than the Agogo) it can challenge through the columns of this paper or by communicating with Mr. Stack, 33 Sutherland street, P. B. C. class and Centerville M. E. Please take notice.

After enjoying a very pleasant summer at the White mountains, Miss Della V. Nestor will visit Florida for the coming winter months.

PARDON TO PATRICK

DISTRICT ATTORNEY WHITMAN BEGINS INVESTIGATION OF ALL CIRCUMSTANCES

NEW YORK, Nov. 23.—District Attorney Whitman began this afternoon an investigation of all the circumstances attendant upon the granting of a pardon on Nov. 27, 1912, by John A. Dix, governor of New York, to Albert T. Patrick, serving a life sentence at Sing Sing for the murder of William Marsh Rice.

The investigation was begun after two affidavits had been filed with the district attorney concerning published statements to the effect that Joseph Walker, Jr., a Wall street banker, had offered to obtain Patrick's pardon if John T. Milliken of St. Louis, Patrick's brother-in-law, would join him in a making deal. The affidavits filed were made by George C. Goodrich and his wife, Mrs. Anna S. Goodrich, and related their version of what transpired at a meeting here among themselves and Mr. Milliken on March 23, 1912.

Inasmuch as the statute of limitations would become operative within three days, Assistant District Attorney Delahanty, who was placed in charge of the investigation, was instructed to use all possible expedition.

Mr. Whitman's appearance at his office today was his first since he was elected governor and it was unexpected by his staff. He conferred with Mr. Delahanty for more than an hour and announced at the conclusion of the conference that if the facts warranted after further investigation, the matter would be placed before the grand jury. Former Governor Dix who is in this city said today that he had pardoned Patrick solely for the sake of Patrick's children.

COL. J. H. CARMICHAEL

MAY BE APPOINTED CHAIRMAN OF CIVIL SERVICE COMMISSION TO SUCCEED COMMISSIONER BOYLE

Report has it that Governor Walsh has appointed Col. James H. Carmichael of this city to the civil service commission to succeed Commissioner Boyle, who was transferred to the public service commission. Commissioner Boyle was chairman of the civil service commission. The report of the appointment has not been officially confirmed. It is true that the appointment has been made there will be some question as to how Mr. Carmichael's present position, that of commissioner for the city of Lowell, will be filled. Some believe that it would be possible for him to fill both positions, but the chances are that the change would call for a reelection. One member of the municipal council stated yesterday that the council would have the authority under the charter to elect a commissioner to take charge of Mr. Carmichael's department, water works and fire department, pending an election by the people.

HOLD-UP MAN ARRESTED

A man who registered at the police station as Pierre Reay was arrested on Monday street this afternoon by Patrolman Tullar after he had taken 60 cents from a foreigner. The police officer saw the man strike the pedestrian and take money from his hand. He was arrested under arrest and brought him to the police station, where a small sum of money, was taken from his clothes.

CIVIL SERVICE EXAMINATIONS

The United States civil service examinations to be held at Lowell as follows: Dec. 15, Epidemiologist (male), salary, \$2,000 per annum. Dec. 22, Baker (male and female) salary, \$150 to \$300 per annum.

MATRIMONIAL

At a nuptial mass celebrated at 7 o'clock at St. Joseph's church Monday morning, Virie Perreault and Miss Virginia Lefebvre were married, the officiating clergyman being Rev. Charles Paquette, O. M. I. The witnesses were Frederick Perreault and Louis Lefebvre. At the close of the ceremony a wedding dinner was served at the home of the bride's parents, 521 Dutton street, where a reception will be held this evening.

BELLEROSE-DEMERS

Joseph Omer Bellerose and Miss Marie Louise Demers were married Sunday at St. Joseph's rectory by Rev. Armand Baron, O. M. I. The witnesses were Israel Demers and Joseph Bellerose. The couple left on a wedding tour to Manchester, N. H. They will make their home at 22 Coullidge street, this city.

BEAUREGARD-ROUX

A double marriage took place Monday morning at Notre Dame de Lourdes church in Branch street, when Edmund Beauregard and Miss Charline Roux, and Zenon Lemire and Miss Florida Roux were united in the bonds of matrimony. The ceremony was performed at a nuptial mass, celebrated at 7 o'clock by the pastor, Rev. Leon Lamotte, O. M. I. The two couples served as witnesses to each other, and at the close of the mass a wedding dinner was served in the parochial school hall adjoining the church.

MADROT-QUELLETTE

Ranice Madrot and Miss Marie Louise Quellette were married Monday morning at a nuptial mass celebrated at Notre Dame de Lourdes church at 7:15 o'clock this morning by Rev. Joseph Magman, O. M. I. The witnesses were Louis Mailhot and J. Quellette.

SOCCER SCHEDULE UPSET

LAWRENCE, Nov. 23.—Weather conditions and the national and state cup soccer series have shot the Lawrence, Lowell and district schedule full of holes, and it is uncertain when the series will be completed. Until last Saturday five teams had kept to their scheduled number of games, 11, but Lawrence had played only seven. All games were postponed last week. The Olympics lead the district series with an advantage of one point over Andover.

EXTRADITION OF CHUN KIN TOW

BOSTON, Nov. 23.—The extradition of Chun Kin Tow, who is wanted in England for the murder of Mock Chong, former president of the Hop Sing Tong, on Feb. 13, 1913, was ordered by the United States circuit court of appeals today. A petition for a writ of habeas corpus for the release of Tow on the ground that he was not the person named in the complaint was dismissed by Judge Morton last spring. This decision was confirmed by the higher court today. An Illinois officer, prepared to take Chow to Chicago with the prisoner tonight.

CITY PLANNING

Meeting of the Board at City Hall After a Long Rest

Lowell's city planning board met Monday afternoon in the public reception room at city hall. It was generally believed that the planning board had gone out of commission but it was not so.

Mayor Murphy presided at the meeting and the other members present included, Secretary Jesse D. Crook, Charles Anderson, John H. Murphy and Walter Dovers. The secretary read the records of the previous meeting and the same were accepted with an efficient alteration suggested by Mr. Anderson.

The secretary was to have brought in a report on the different improvement associations in Lowell, but he said he did not have time to go into the matter as thoroughly as he would like to. There are two improvement associations, the Oakland and South Lowell and Middlesex Village will have one in the very near future.

Mayor Murphy announced that he had taken up the lighting question and that he expected soon to have figures for the lighting, with ornamental lights, of Merrimack street, from city hall to Merrimack square, Prescott street, Central street to Town's corner, Middlesex street to the depot, Gorham street to Union and Back Central to Church street. Secretary Murphy of the board of trade suggested that the lighting system deal as far up Merrimack street as Cabot street, and the mayor said he would be in favor of that proposition, but did not believe it could all be done in one year. He said it would take at least five months to install the lights and that the extra expense to the city would approximate \$12,000. The mayor said he expected the plans would be completed in a short time.

Mr. Murphy said that the highway committee of the board of trade had arranged with Irving D. Kimball, a paving expert, for a street paving plan for the coming summer. He said that the plan would be ready in a few days and would probably go to the board of trade directors at their meeting on Dec. 2.

On motion of Mr. Murphy it was voted that Mayor Murphy and Secretary Crook be included in the delegation to go to Washington in connection with the proposed conference for the development of the Merrimack river. Mr. Murphy argued that the development of waterways was a very essential feature of planning board work.

Mr. Murphy announced that at the next meeting of the board he would submit a comparative statement, showing the departmental expenses in the city as compared with 12 other cities equal in population to Lowell. He allows that the figures will prove very interesting.

THANK AMERICAN PEOPLE

REPRESENTATIVE OF BELGIAN RELIEF COMMITTEE EXPRESSES GRATITUDE

ROTTERDAM, Nov. 23.—The cargo of provisions for the destitute people of Belgium sent by the Rockefeller Foundation on the steamer Massapoco, which was unloaded here today and is now on the way to Belgium. Before the ship had been made fast 600 stavedores swarmed aboard. They unloaded the cargo with speed which perhaps was never before equaled at this port.

If you want help at home or in your business, try The Sun "Want" column.

TWO AUTOS COLLIDED

THE MACHINES DAMAGED AND ONE MAN, MR. CHELSEYS, WAS INJURED

A collision of automobiles occurred at the corner of Gorham and Chambers streets yesterday afternoon in which two machines were badly damaged and one man sustained a probable fractured arm. The autos were owned by Farrell's market at 162 Market street and a man named H. W. Chelseys, address unknown, who sustained an injury to his arm.

According to witnesses of the accident the Chelseys car, a Ford, was being driven down Gorham street at a rapid rate while Farrell's Studebaker truck was proceeding from Chambers street to Gorham street. One of the drivers misjudged the other and the result was that the Ford smashed into the Farrell truck, pushing the car into an electric car which was passing near the corner of Gorham and Livingston streets. Mr. Chelseys was thrown from his machine against the curb while James H. Farrell, who was operating the truck, was not injured. Both machines were damaged to a considerable extent.

Patrolman Coviding happened along at the time of the accident and he assisted in clearing the machines from the street to allow traffic to proceed. Mr. Chelseys left the scene of the accident immediately after it occurred.

RED CROSS WORK

GREAT ACTIVITY AT QUARTERS IN RUNELS BUILDING—FORGE VILLAGE HELPS

The operatives of the Abbott Worsted Mfg. Co. of Forge Village, through the efforts of Misses Christina Lowther and Alice Walsh, have donated \$72 toward the purchase of handkerchiefs for the soldiers fighting in the European conflict. The two young women, who are themselves operatives at the mill, read about the soldiers being short of handkerchiefs and they conceived the idea of raising a little money among the employees of the mill, and Saturday they collected the sum stated and brought it to Mrs. George F. Richardson, who is in charge of the work for the Red Cross, which is being done at the People's club.

Mrs. Richardson in conversation with a Sun reporter Monday said she would go to Boston today to confer with the Red Cross as to the kind of handkerchiefs to purchase and a box of brand new handkerchiefs will soon be shipped to England. Today Mrs. Richardson will also ship a box of knit goods to the quarters of the Red Cross in England.

Two weeks ago the first shipment from Lowell to England was made and a box containing 38 pieces of knit goods was sent. The women at the People's club kept busy from morning till night and their work is progressing. Already a large amount of bandage has been finished and pretty soon the Red Cross will take possession of the manufactured goods and ship them to Europe.

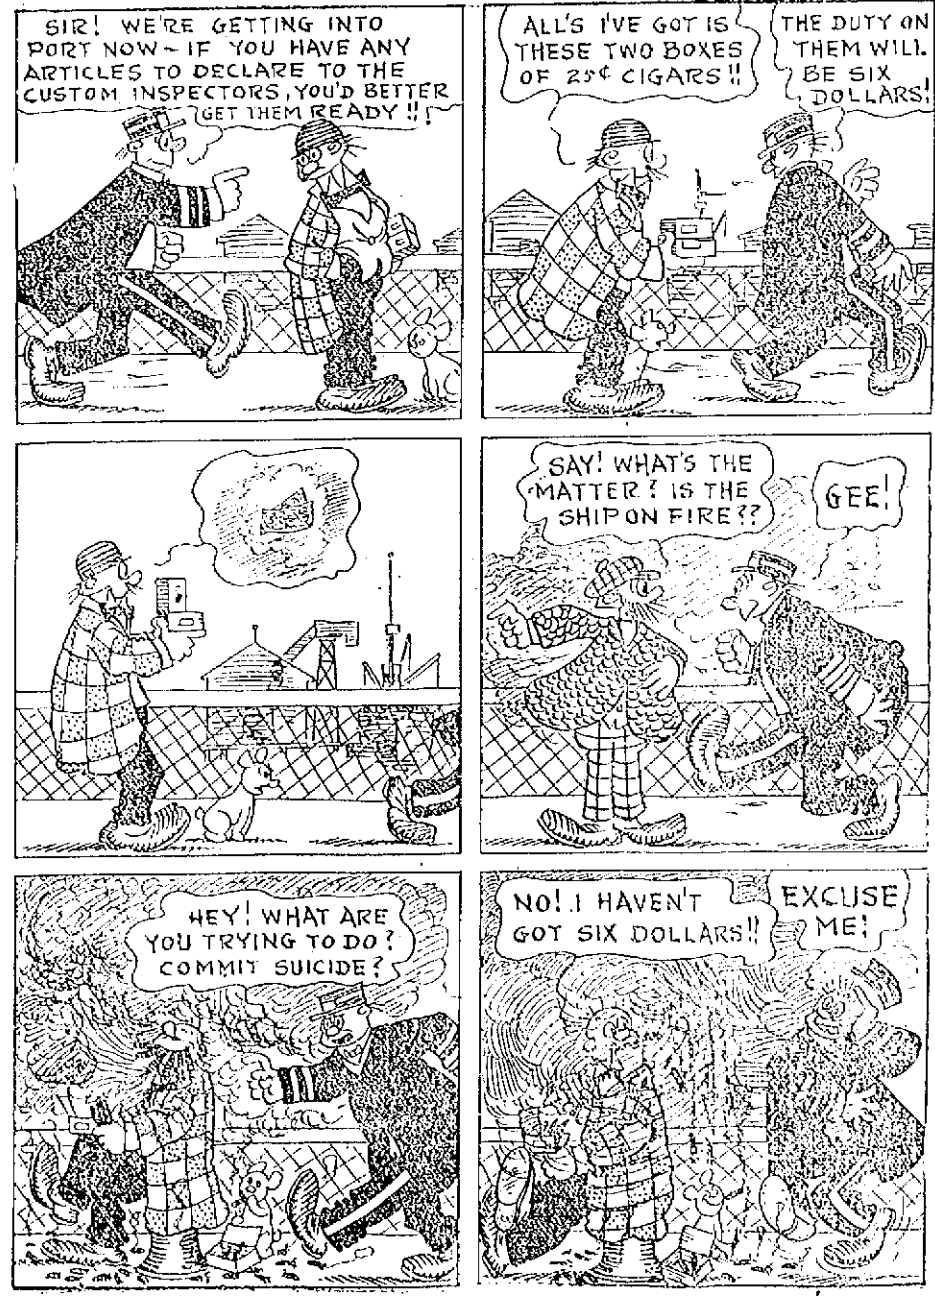

Women are still invited to sew between the hours of 9 a. m. and 4 p. m.

TO INVITE PRESIDENT

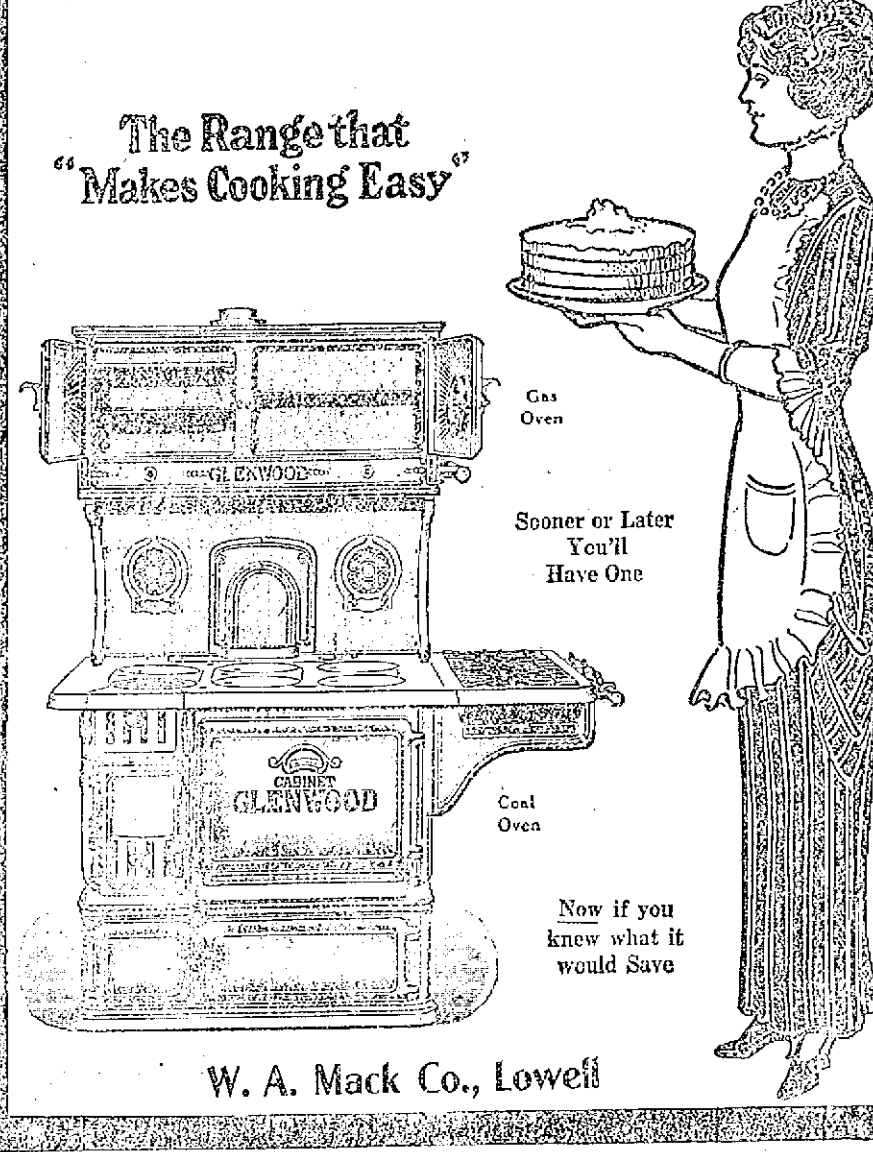

President Woodrow Wilson will be invited to come to this city for the observance of the silver jubilee of the Lowell board of trade, which will take place in February and the members of the board feel assured that the president will accept the invitation to visit the Spindle City.

The executive committee of the

EXCUSE ME

Glenwood

board held its regular meeting yesterday and tentatively laid out plans for the public meetings of the board for the rest of the winter. Recommendations will be made to the directors at their next meeting.

It is proposed to make the big meeting of the year a dinner to be held in February to mark the 25th anniversary of the Lowell Board of Trade and to this affair President Woodrow Wilson will be invited. In the event that the president does not attend, a speaker of national prominence will be secured. A meeting is already planned for December 2 with Hon. Robert Luce and Hon. John F. Fitzgerald of Boston, as well as Andrew H. Sutherland of Lawrence as the speakers. In January a novel meeting is proposed and when proper arrangements are made an announcement will be made. In March and April the regular general monthly meetings will be resumed and it is hoped the April meeting will be devoted to city planning with Dr. Charles W. Eliot, president emeritus of Harvard university, as the speaker and with him an expert city planning engineer. This meeting will be for the purpose of stirring up enthusiasm for the city beautification. The other men who have tentatively agreed themselves at the disposal of the board for future meetings are James H. Hustie, president of the Boston & Maine; Hon. Curtis Guild, Hon. William F. Murray, postmaster of Boston, and Hon. Samuel L. Powers.

GOOD-BYE INDIGESTION!

Rheumasalts Brings Quick Relief

Indigestion is beaten! The misery of poor health due to poor digestion is over—for those who know Rheumasalts, the wonderful effervescent drink. No more sour stomach, griping pains, rumbling of bowels and trembling limbs—nothing but a desire to eat what you want when you want it—without any "kick back." Your health depends largely upon what you eat and how it is digested. Undigested, fermenting, putrifying food is one of the greatest handicaps your body has. And it is all unnecessary, if you let Rheumasalts help you. If you are bothered with indigestion, ask your druggist for about five ounces of Rheumasalts; take two teaspoonsful in a glass of water before breakfast each morning and in a few days you will be able to digest your food in a perfect manner. Rheumasalts is very inexpensive. It does not cause nausea. It is delicious to take and is delightfully effervescent. Rheumasalts is prepared by the famous Rheumabath Company, Minneapolis, Minn.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paragoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

MADE IN U. S. A.

All of the many sectional and local signs scattered throughout the country since the war began have been gathered into one that is growing in importance daily. This is the very short but pithy: "Made in U. S. A." a phrase that embodies everything of a commercial nature which we have been asked to believe in and advance by our president, our political leaders, our business experts and our manufacturers. Supported by the intelligent enthusiasm of an united people, "Made in U. S. A." will symbolize the part of this nation in the trade relationships of all the nations in the world during the present struggle for supremacy between two of the great commercial countries. Without in any way striving to take unjust advantage of any power, the American people have an opportunity to substitute "Made in U. S. A." for the commercial trade mark of many another power, in the markets of the world.

The Boston Chamber of Commerce, one of the many bodies booming American industry, says, through "United Affairs," its official organ: "Twenty billion dollars' worth of goods are manufactured in the United States annually. They represent practically every class of commodity. They represent the utilization of American raw materials in vast quantities. They represent the industry of millions of workers, not only in the factories, but also in the mines and fields where raw materials are produced, and in the transporting and distributing and selling of these goods. They represent the normal operations of American industry, now called upon to supply world needs."

There are one hundred million buyers in the American home market—the biggest market in the world. European accounts have not been slow to see the advantages of cultivating it and have captured large slices of our domestic patronage. The United States is at one and the same time the biggest producer of manufactured goods and the biggest buyer of manufactured goods. To a certain extent (indeed a great extent) our manufacturers have suffered from a peculiar prejudice which held that anything imported is better than what is made here. To many buyers the label "Made in Germany" or "Made in England" or "Made in France" has signified superiority. We have been good customers of Europe. Last year the United States bought \$70,000,000 worth of cotton manufactures from Europe, although more than half the world's supply of cotton is produced here; last year this country bought \$32,000,000 worth of iron and steel manufactures from abroad, though our steel works are the finest on earth; last year this country bought \$12,000,000 worth of hats, \$10,000,000 worth of chinaware, \$8,000,000 worth of glassware, \$7,000,000 worth of toys—all from Europe. In fine, the United States last year spent \$720,000,000 on goods from Europe, all of which could have been produced in this country.

At present it is impossible for our people to purchase most of the goods from abroad such as were purchased in other years. It will become still more difficult as the war progresses. It is therefore good policy as well as good business to make a virtue of necessity and to spend with our own manufacturers what we have been spending with our rivals in trade. Thus, an enormous gain would come directly to our home industries if we cultivated more loyalty and traded at home. Our nation is the only great country with adequate factories and with adequate help, just now. Factories of England, France and Germany are crippled in great part and expert workers are being shot down in hundreds. While regretting the loss to others, this country must be ready to meet the resultant void in trade relationships, especially in our own country.

"Made in U. S. A." can be made "A New Slogan for Prosperity" wherever the ships of commerce sail. Foreign markets look round for their old source of supplies to find most of them closed or partially crippled. Only one great manufacturing nation stands ready to meet all demands—the United States of America. It is for our business boomers here and elsewhere to give "Made in U. S. A." the significance which up to the present it has not enjoyed.

FROM VERA CRUZ

Without any great booming of cannon or blazoning forth of the fact, the American occupation of Vera Cruz has come to an end. The military force under Brigadier-General Fauson have been ordered out of the Mexican seaport, and have obeyed orders, removing any possibility of international friction arising from this source. Warm admirers of the administration join with its enemies in congratulations on the close of an unusual incident, but there is little enthusiasm. The American public hopes for the best, but would not be surprised at the worst. As the popular song has it, the evacuation "may be for years and it may be for ever," and the sincere hopes of the American public is that it will be for ever. Nevertheless there is a very direct possibility of a like occupation by American troops before long.

The great fault of the Vera Cruz occupation—what, by the way, has not been proved a failure as yet—is that it has been negative and has achieved nothing definite except the rout of Huerta for a man certainly no better. If as good. Undoubtedly when President Wilson ordered American warships to take the city he had the public opinion of this country behind him. He was also supported by an unanimous public opinion in his determination to avoid war at any cost, consistent with our national dignity. Yet our troops have left Vera Cruz amid conditions as bad as when they went there, backed by the might of an insulted power. They went, to preserve order, to protect American person and property, to help Mexico to constitutional government. They have left Vera Cruz, and there is neither protection, nor guarantee of stable government, nor indication of permanent peace. Needless to say, the insult to the flag was never officially offered, unless the flight of Huerta is taken as sufficient reparation for his conscious or unconscious offenses against us.

Disorder, anarchy and revolution are liable to blossom out in Vera Cruz any moment, now that our troops have been withdrawn. It is not certain whether the snarling will be occupied by the contending supporters of Villa or Carranza. War is smoldering throughout the land, with Villa as the strong man. After helping Villa to first place we find he has now turned on his chief and exerts what is practically supreme power, backed up by the force of arms, which has been the secret of power in poor Mexico for some years past. All manner of offenses are being committed against person, property, liberty and religion. Anarchy, sacrilege and lawlessness

run riot. In the face of it all our government is splendidly optimistic in withdrawing our troops as though the object of their mission were achieved. Many thought American occupation a blunder. There is grave danger that the withdrawal of the troops at this time is a sorry blunder. To help the brighter view is the statement that though the troops have been withdrawn from the seaport, five American warships will be within call. Not a cheering outlook, surely. Evidently the critical point in the administration's Mexican policy is at hand, and the American public prays that it will pass without necessitating our intervention.

NOVEMBER SKIES

We, of the tenth floor, do not entirely lament the vanished glories of shady tree and summer sunshine. November has its delights, more subtle, perhaps, than those of June, but none the less glorious. Snow and frost may kill flower and shrub but they only add to the wonders of the sky, the sky that in November changes in one day from an unvaried space of dull, cold blue to an Aladdin's garden of depth and mystery.

It is late afternoon and the brilliant atmosphere is putting on a filmy veil of mystery. Far off, the open sky spaces are a delicate turquoise; near they are supple. Over this gradient of blue sail fluffy and fantastic clouds, brightened with silvery lights, veiled in airy masses and shot through with bars of rose gold and amethyst. Far off, Tewksbury hill is a sharply-defined mass of deep purple and above it is a blue and white sky such as one sees in old Italian paintings. Over Brook's farm sails a fleet of little cloudlets like angels' wings. Beyond

Save Money and Travel Comfortably to California

There's a best way to travel, just as there's a best way to do everything. Why go to a strange country without a guide when, for no more money, but at a great saving, you can go on one of our "Personally Conducted" Parties.

In this way you have good company all the way to the parties in the middle of congenial people. We are particular about "showing our guests" and then our own special conductor goes with you all the way.

The courteous service and attention given you by this special guide, enables you to have more of the country than you could do traveling alone, and he believes you of all the other and worry about baggage, and other travel details. This extra service costs you nothing. Why not let us tell you about the "Personally Conducted" low fare parties to California that have helped to make the Burlington Road service famous.

Call or write and let us tell you about the "Personally Conducted" low fare parties to California that have helped to make the Burlington Road service famous.

Alex. Stokes, New England Passenger Agent, C. & N. R. R., 254 Washington street, Boston.

them is a sweep like "perhaps seas in fairly lands forth."

Two hours later the west is aflame with sunset. Until earth's last picture is painted, no artist will catch its glow. Crimson, gold, purple, violet, and jet are arranged in swarms of indescribable grandeur. No Pagan picture or medieval page has painted color used as drolly as the fold on by the artist of the sunset. Underneath it all is Lowell. Here the huge mass of the passenger rises; there the slender and chimneys pierce the gold with an ink finger. The smoke of the factories has been turned into gorgeous arabesques and Oriental gridding is over everything. Sometime soon—the glory fades and night rises down the curtain of November darkness, through which peeps little white stars that are waiting for the star of Bethlehem.

REALISTIC MOVIES

If you should be walking along a railroad track when a train dashes madly around the curve ahead and falls over the embankment, try and keep cool. If you should turn a street corner to be confronted with a squad of police neatly rushing into a tenement from the upper windows of which hangs a limp form, try and keep cool. If you should see the sky glow lurid at midnight and should hear the whole fire department rushing clatter-clatter to the scene, try and keep cool. It may be only the movies, the inescapable movies, the realistic movies, the melodramatic movies. Last Sunday three deep sea actors took an old schooner at Gloucester, hoisted the sails and put out in a tempestuous sea, headed for some picture-sque scene. They were to escape before the shipwreck, to illustrate a thrilling movie story. But black-day! Most of the shipwreck was planned by mariners who had never sailed the seas and the little boat was not loaded with ballast. The schooner was driven on the rocks in short order, the boat could not put off, and the actor-sailors had to cling in the rigging of a real wreck until rescued by the Gloucester life-boat crew. Worst of all, the incident was so dangerous and so exciting that the camera missed most of it. Lucky for the Gloucester actors, they were rescued in the nick of time. Many movie actors have not been so fortunate. Probably there will always be dangers connected with picture making for our public must have thrills. Yet, there is a limit—even for the moving picture artists and managers.

WAKE UP, NEW YORK

Another outrage in New York, due in all probability to Black Hand activity! This time it is a fire in a tenement block which has wiped out eight lives and resulted in injuries to many others. A tenant in the block had received threatening letters for months past, warning him that unless he paid blackmail money, he would suffer. He did not pay, and he has suffered with many others. Not a week passes but New York has like experiences, and, in all probability, all

of them are not recorded. No one can tell how many such blackmail schemes are successful. It would seem that New York is reaping the fruit of crooked politics in its police department and other municipal departments. With things as they ought to be, both makers and bomb throwers should have slight shirt in New York or other American city. The entire country watches New York with amazement.

Usually in war reports as in other press despatches, tragedies are over-exaggerated. In the case of Belgian distress, however, there has been more understatement than overstatement. Recent reports from Ypres prove the night of the German pans and the determination of the Germans to reach the northern coast at any cost. Too bad, though, that the proficiency of German marksmanship and the persistence of German attack has been proved at the expense of Belgium.

Even in the event of irregularities in the recent elections, the possibility of

an investigation by the district attorney does not bring home the significance of former years. Our experience in that direction has been rather disappointing. Possibly things would be different now. However, let's hope so.

The person who shovels the snow shortly after it has fallen is wise. To leave it on the sidewalk for a day or two is to invite trouble and make it very unpleasant for all who pass. In this, business carries prompt punishment.

Both armies claim victory in Belgium and Russia. This cannot go on forever as every victory or claim of victory is the result of some degree of loss for both sides. Victories must be won by arms and soldiers, not by press dispatches.

Lowell goods are "Made in U. S. A." Why not Lowell, U. S. A.?

Don't you feel thankful?

SEEN AND HEARD

It is a good plan to advertise. But that is not why a girl should scream when she is being kissed.

The fellow who leaves his wife very often when he is alive seldom leaves her much when he dies.

More people would be fishing if things were arranged so that the fish would dig the worms for the anglers.

They say the women have no sense of humor. Just take them and see the kind of men they rep out for husbands.

The old-fashioned boy who was taught to respect old age now has a son who believes that there is no tool like an old fool.

The Naturalists have discovered a use for the sparrow. This leaves the bird Bug in a class by himself as a consumer who never produces.

Some people are born with too much push and too little ambition. That's the reason why there are so many wheelbarrow chauffeurs in the world.

When there are three or four children in the family Mother doesn't have to spend too much money on antique furniture.

A dog can wag his tail pretty fast when he is pleased. But he can't wag it as fast as a woman can wag her tongue when she is displeased.

There are a whole lot of 10-cent men in the world who have grown round shoulders from carrying a 10,000 life insurance policy.

The dear girls enjoy a hearty laugh when they see a lot of men in a sack race. But this is because the girls can't see themselves when they are chasing a car and wearing a tight skirt.

The Rabbit doesn't know anything about Human Nature. If he would roar when he hears back on his hind legs, the hunters would run and let him alone.

AWAITING SQUARE MEAL
Two men were surprised to find a couple of tea and a biscuit given them free by an up-to-date Broadway motion picture theatre at 1 o'clock. Half an hour later one of them broke the silence.

"We've seen the pictures now, John," he said. "We may as well go out." After a minute's thought John replied:

"Can you go if you want to. Ah, my style to dinner."—Music Trades.

DODGING THE BEATEN PATH
Congressman Robert L. Doughter of North Carolina smiled when the conversation turned to covering the order of things. He said he was reminded of the case of Bowers. Bowers met a benevolent party on a railroad train

As to Buying
Furniture in Boston

A young couple came into our store a few days ago and wanted to know our terms on about \$80 worth of furniture. We told them. He said he had bought \$71 worth in Boston for less down. We told him that they charge so much more in Boston that they could do so. But that we sold practically on a cash basis, and to prove it that without knowing what he got for his \$71 he would agree in writing to duplicate all he got for \$71.00 in Boston for \$55 and possibly \$50. After looking over goods over and getting our price. He said: Well we simply got robbed and I guess you could agree to duplicate our \$71 worth for less than \$50. Why, that National spring you sell for \$3.50, they charged me \$7.00 for the same thing in Boston. This is the second instance lately of people buying in Boston and then coming in for a few things they had forgotten to buy and finding they had paid about 40 per cent more in Boston. Moral, look around Lowell before you leap to Boston. Buy the few "bait" they offer in their flaring advertisements. Take the bait, but don't get the hook. Buy your furniture in Lowell.

BUY IT AT

ORIGIN OF ELKS
In an attractive souvenir which will be distributed at the Elks' carnival in Lawrence city hall, this week, appears an interesting historical sketch of the Benevolent and Protective Order of Elks and of Lawrence lodge, No. 65, a portion of which follows:

The origin of this popular and influential order occurred on the day of 1887 with the arrival in New York of Charles Abner Vivian, the son of a Scotch-Irish emigrant, who had been a member of the Elks in his native country. In company with others connected with the theatrical profession and several Sunday school teachers, he had been engaged in the early winter of 1887 in the purpose of spending the time in social life. On one of these occasions Vivian suggested that their association be given a more permanent and tangible form, which proposition was enthusiastically received and subsequently an organization was perfected in the early winter of 1887 and the society thus formed was termed the "Elks' Coterie." It seemed necessary to secure a more dignified title than the one first adopted, and the proposition became a matter of grave consideration. It developed that the majority were desirous of a designation purely American in its suggestion. Finally on Sunday, Feb. 16, 1888, the name of Elks was adopted and launched on the sea of popular scrutiny. Clearly, the noblest of all virtues is practiced in our unostentatious method to the extent of \$300,000 annually by the lodge of the order, the largest amount expended by any single organization in the world. One of the most distinguished of this vast sum in Lawrence lodge, No. 65, instituted May 15, 1887, by members of Providence lodge, No. 14. The ceremony, long to be remembered, occurred in Odd Fellows hall. Hon. A. B. Bruce was chosen as the first exalted ruler. Richard J. Shea, secretary. Meetings were held subsequently in Knights of Pythias hall, Knights of Columbus hall, Thurgood hall and finally our present quarters were secured and renovated. Ambition directs us on this occasion to secure a new and imposing structure on Broadway where a site is located and standing in our name. Our membership has steadily increased to the number of about 550, consisting of some of the leaders in the business, professional, political and educational life of our city, whose sole object is to perpetuate for all time peace and good fellowship among our brothers and spread the gospel of love and humanity among our fellow men, so that future historians, writing of the influences that have helped to produce a grander civilization, give our brotherhood an honored place as their reward."

The first hall in 12 years. It will be some affair. The Freeman's Hall.

EDITORIAL COMMENT

NEW PRISON WARDEN

The name of Sing Sing has been synonymous with scandal for years. Wardens have come and gone and investigations have been conducted, but the root of the evil appeared to remain always on the job. Another warden has been removed this month because he permitted a banker-convict to ride about in an automobile and transact private business as though he were an honored citizen and not a convicted rascal. It would appear now, however, that the right man for the place had been selected in the person of Thomas Mott Osborne of Auburn, N. Y.—Fall River Herald.

COMING WINTER

Winter set in with a vengeance and there could be no doubt of its arrival when the wind, sleet, rain and snow began to mix things up this week. It is a foretaste of what awaits us. Trade has almost become a bit more brisk because of the "seasonable" weather and the old-timers are beginning to talk about an "old-fashioned winter."—Newburyport Herald.

FIRST THRONE TO TUMBLE

The beer business has its advantages. Liquor interfering with my armies? Very well, let there be no more liquor. And that puts absolute prohibition all over the map of Europe. No initiative, referendum or recall, no election, no crusade, but just an order and exit every corkscrew in the empire. One day 150,000,000 people may drink enough vodka to float the Black sea fleet. The next day they may not buy enough of that trouble-maker to vet the bill of a hummingbird.

Thus the first throne to tumble as a result of the war was that of King Alcohol. And why did Russia and ruin of a menace to the Russian in uniform than Austrian bullets. So, in order to meet the foe in front, the czar had to meet the foe at home clear out his dominions.

As a temperance crusader Nicholas Rounoff has such orators as John G.

THIN BLOOD AND DYSPEPSIA

Thin-blooded people generally have stomach trouble. They seldom recognize the fact that thin blood is the cause of the indigestion but it is. Thin blood is one of the most common causes of stomach trouble. It affects the digestion at once. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is less of nerve force. In this condition nothing will more quickly restore appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and the enriched, blood strengthens weak nerves, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite and soon the effect of these tonic pills is evident throughout the system. You find that what you eat does not distress you and that you are strong and vigorous instead of irritable and listless. You are now on the road to health and care in the diet is all that you need.

The Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little diet book free on request. Your own druggist sells Dr. Williams' Pink Pills.

A QUARTER CENTURY AGO

Thanksgiving day in Lowell quarter of a century ago, was observed, even as it is at the present time with dances and social gatherings on the night before and with families gathered around the festive board on the holiday itself. In those days, also, rattles and dice-throwing for turkeys etc., were in vogue on the eve of Thanksgiving in the club rooms and the saloons, a custom that has long since passed from sight. For many years prior to 25 years ago, it was an annual custom to hold a Thanksgiving concert in Huntington hall in aid of St. John's hospital which for years was a big annual event and the concert of 25 years ago was in charge of the late Terrence P. Molloy, the noted tenor, and took the form of an "old folks" entertainment. A large audience attended. Mrs. Vincelotte presided at the piano. The performers, attired in quaint costumes, made a tour of the hall before the opening concert. The soloists were Messrs. Boyd, Burns, Molloy and McHugh and Misses McLaughlin, Curry and Cartwright. There was a chorus of voices. There were humorous selections by Mr. Joseph Gray and Mr. L. E. Dammun.

Hibernian Hall

Says the old Sun: "The four divisions of the A. O. H. held a grand Thanksgiving ball in Huntington hall, Tuesday evening for the benefit of the Hibernian Rifles, attached to the order in this city. From 8 o'clock to 9 the American orchestra rendered an excellent concert program, including instrumental solos by Messrs. R. McDaniels and Thomas McCarthy. The grand march took place at 9 o'clock and was led by Charles H. O'Donnell, county delegate and Miss W. Madden, P. S. C. 150 couples while the gallery was crowded with spectators. After the first intermission a competitive drill took place between the Hibernian Rifles of Lowell and Woburn. Eighteen competed on each side. Capt. Corr in charge of the Lowell men and Capt. O'Donnell of the Woburn company. A variety of social movements was executed with precision and at the close, Capt. Pratt of the Mechanics' Platoon who was the judge awarded the prize to the Lowell company. Among the guests were His Honor Mayor Palmer and Mrs. Palmer, Hon. John J. Donovan, Hon. Jeremiah Crowley and the various temperance and other local societies. Charles H. O'Donnell was the floor director, E. F. Slattery, assistant. Thomas Nevens, Thomas Deleahanty, Edward Toague, Thomas Teague, John Murray, M. J. Hogan, J. J. Sullivan, adds. The reception committee consisted of Hon. John J. Donovan, chairman; Jeremiah Crowley, James H. Carmichael, P. C. Plunkett, M. D. D. O'Brien, Daniel J. Donahue, Patrick O'Rourke, T. E. Roche, Peter Davey, James P. O'Donnell, John Donohoe, J. J. McDonough, Mark Rourke, James O'Sullivan, J. Johnson, E. J. McGuire, S. J. Johnson, M. D. James Cahill, Thomas Deane, J. J. McCarthy, M. D. James P. McDonough, Patrick Gucklen, M. E. Connolly, secretary."

Crescent Club Ball

Says the old Sun: "Thanksgiving eve the Crescent club held its fourth annual ball in Huntington hall, a large company attending. The weather was not so good as the company was a gay one and the pleasure was rich until the 'gray streaks of dawn began to fret the sky.' At 8 o'clock the music of the American orchestra announced the grand march and Mr. Joseph P. Donahue and his cousin Miss Cassidy of Watertown, followed by Mr. Charles E. Hogan and Miss Annie Connors led the march. The costumes of the ladies were rich and artistic. Charles E. Hogan was general manager; M. J. Kelly, assistant; Joseph P. Donahue, floor director, and John E. Dillon, assistant. The aids were Messrs. S. S. Carey, John F. Courtney, J. P. Donwright, E. J. Farley, P. C. Farreau.

Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, piles, fevers, and other dependent ills.

Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative- tonic, recommended by physicians and thousands who have used it, is the combination of simple herbs with pepsin sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. For a free trial bottle write to Dr. E. Caldwell, 461 Washington St., Monticello, Ill.

Charles L. Marren, T. J. McLaughlin, Richard J. Welch, R. B. Conway, M. J. McCann, J. J. McNabb, J. W. Barry, S. C. Gallagher, D. A. Donahue and William H. Sheehan.

The Crescent Club was a social organization of popular young men, having rooms in the Wyman's Exchange building. They were great entertainers and many a jolly social time was held at their hospitable quarters. An epidemic of matrimony put the club out of commission.

Phillips Literary Club

Says the old Sun: "Despite the stormy weather, there was a large attendance at the second annual ball of the Phillips Literary club in Mechanics hall, Thanksgiving eve. Music was furnished by Carter's band of Boston. P. A. Mehan was general manager; Charles J. Byrnes, assistant, and William H. Ready and Thomas J. Ryan were floor managers. A supper was served at intermission."

Mechanics hall was located in Dutton street where the Trinitarian church now occupies the building. It was a smaller hall and the scene of some of Lowell's most exclusive and most fashionable social affairs.

All Clean Young Men

In its political column of quarter of a century ago the old Sun said: "The democratic nominees for the school board are all clean young men. Dr. Halpin, Mr. Meade and Dr. Walker. The candidates in the doubtful wards are the superiors of their opponents. Let every democrat see that their names are properly crossed."

Of the three mentioned William V. Meade has since passed away but the other two "young" men are still young. Undoubtedly, every democratic voter, old and young, that their names were properly crossed, but unfortunately there was a greater number of republican voters in each of the three wards in which they were running, for one of them landed on election day.

Highland School Flag

It's just 25 years since the flag was first raised over the Highland grammar school and the original flag was purchased by the pupils themselves. In its report of the November meeting of the school board of quarter of a century ago, the old Sun said: "Mr. Woodley presented a petition from 374 pupils of the Highland school asking that they have a flag raised over their school building. The school board at once agreed to purchase an American flag, which they desired to have flown over the school during all sessions, and the petitioners asked that the school board provide a flag pole. The petition was granted and the school will soon have a flag pole. The Sun, commenting editorially on the petition, had the following: "The American flag, as to flag, from a flag staff on the Highland school. It is a beautiful custom and should become general in Lowell. The more the children see of the stars and stripes, the more they will love the flag and the more they love the star spangled banner, the higher and purer will be their regard for the law and the institutions it represents. Let the flag float free and if any man attempts to pull it down, shoot him on the spot!"

Today the flag floats over every school in Lowell, and in Massachusetts for that matter.

Locating the Postoffice

Before the present postoffice was built, the old postoffice was located in the Hildreth building where Mitchell the Tailor is now located and shortly prior to 25 years ago an agitation was started for a federal building, a new postoffice. Relative to the story of the battle for the site of the new postoffice, it might be well to publish the following which appeared under the heading, "Postoffice Site Settled," that appeared in The Sun last 25 years ago, almost to the day:

"Washington, D. C., November 20.—Secretary Windom has settled the controversy in regard to the public building at Lowell, Mass., by directing that the property selected for that purpose be secured by condemnation. The owners of the property offered to give it to the government but as there are some doubts as to the validity of the title, the secretary decided that the safest and best way to secure it was by regular condemnation proceedings."

THE HEARING IN WASHINGTON

"Wednesday's Boston Post had the following despatch from Washington: "The friends of the new public building site at Lowell turned out in numbers that bewildered General Butler, at the hearing given at the treasury department today. General Hatch, the assistant secretary, and the witnesses, the supervising architect, sat at the secretary's desk, conferring together and listening to the arguments brought forward by the friends of the site selected by the department, and the points in opposition urged by General Butler and E. T. Woods. These two and Thomas Nevens of Lowell were the only ones present to oppose the St. Peter's site although they had a pile of telegrams of sympathy from the people at home."

"Hon. George F. Richardson appeared as the legal spokesman of the majority party, and he was earnestly supported by Mr. James W. Bennett. The friends of the Lowell site, Messrs. B. Sheehy and Edmund B. Conant. Others present on the same side were ex-Mayor Runnels, ex-Alderman George F. Pennington, Charles I. Hood, Charles J. Gilman, E. P. Fletcher, W. H. I. Hayes, the Rev. Michael Roman and E. A. Smith. Congressman Greenhalge was present to listen to the arguments but did not indicate a preference for either side. Mr. Richardson argued that from a legal standpoint the government exposed itself to no risk or objectionable limitation in taking the St. Peter's church site under the conditions imposed by the Locks and Canals company. The proposed postoffice building, he said, would not conflict with any of the conditions, and if the time ever came when the government wished to dispose of the land or use it for purposes prohibited by the conditions, it could acquire absolute control by taking it under the right of eminent domain."

"Mr. Bennett argued forcibly that the proposed site was much more convenient than the present postoffice building, both for the public and the carriers. He pointed out that a circle drawn with the proposed site as a centre would take in or touch a much larger portion of the thickly populated district than one drawn with the old postoffice as a centre. "Twenty-seven carriers, he said, go south of the American house, which is midway between the two sites and north of the proposed site, while only seven go north, and the adoption of the site proposed would save the carriers a long and tiring travel. General Butler attempted to argue that legal objections to taking the site under present conditions were insuperable and that

really there was no need of changing the postoffice from its present location. General Hatchelder did not indicate what his decision would be, but he seemed to understand some of the motives which influenced some of the property holders about the present postoffice to favor the continued use of the leased building. The Lowell people will leave here tomorrow afternoon."

MORE ABOUT THE SITE

Says the old Sun a week later: "It appears that the Associated Press dispatch which stated that Sec. Windom would institute condemnation proceedings on the St. Peter's site was made too early. The secretary has addressed a letter to the representatives of the church property, informing them that if the syndicate controlling the site will bear the expense of condemnation proceedings which will not be more than \$1000, and if in addition they will give a bond to indemnify the government in case of damages being allowed the attorney-general will begin the proceedings. If the government asserts its power it can, of course, acquire the property, but the breaking of the conditions which would cloud the title may be a proper subject for damages. The site has been donated to the treasury department but the government will not accept unless the title is passed without any expense being involved. Secretary Windom and his associates are heartily sick of the whole controversy and hope it now will be settled one way or another."

MASSACHUSETTS SITE FREN

Says the old Sun also: "The restrictions on the Massachusetts site were removed by the Locks and Canals company, Thursday and a quit claim given the Massachusetts company on the last of the month. The company is now in possession of the site for a federal building. This forever frees the land from restrictions. These restrictions are still in force on the St. Peter's church site and application for their removal has been made to the Locks and Canals company, but no answer has been given."

PETITION FOR ST. PETER'S SITE

And the following: "Agent Francis said that at a meeting of the Locks and Canals company a document had been submitted by the Hamilton company, in which the St. Peter's property had been sold before passing into the hands of its present owners, asking for the release of that land from certain restrictions as but as the document was not in a form which the Locks and Canals company would accept, the whole matter was referred to the committee on lands. The members of this committee, Mr. Francis stated, reside in Boston, and are widely known in this city. The Locks and Canals company will deal only with the Hamilton company in regard to the removal of the restrictions from the land in question, and the fact that it has passed out of the hands of the latter company may cause some delay."

How It Came About

But to make a long story short, all restrictions were lifted by the Locks and Canals company, and the St. Peter's site accepted by the government and the postoffice built and one of the biggest real estate "lemons" on record in Lowell, went down into history.

When the subject of a new federal building for post office purposes in Lowell came up, several sites were offered to the government at nominal figures while the Massachusetts company offered a site where the Runnels building is now located, without cost. Then came the surprising announcement that the Rev. Michael Roman had gone to Washington and had offered the government the St. Peter's church property at the corner of Gerhart and Appleton street free of charge. It seems that real estate owners in the vicinity of old St. Peter's church figured that should the postoffice be located there it would be a great corner and vicinity would become the business centre of Lowell and that real estate values would jump immediately and enormously. A committee was appointed with Col. James W. Bennett at its head, to finance and see through the proposition to take the building on the St. Peter's site. They made it possible for Mr. Roman to offer the site to the government without cost and they financed the cost of delivering the title etc. The St. Peter's land site like that of the Massachusetts company had certain restrictions on it, but it is doubtful if the Locks and Canals company would ever let go of anything in its existence, without some kind of restrictions on it. The real estate owners in the vicinity of the Massachusetts site in Merrimack Square were not very enthusiastic over the location of a post office at that point for they couldn't see where it would benefit real estate. General B. F. Butler was the legal representative of the interests who wanted the postoffice retained in the Hildreth building and in his opposition to the proposition, he stated that the site would rather have a good, active, profitable peanut stand located near his property than a postoffice, for he said, postoffice and banks add nothing to the brilliancy or value of real estate for they are closed up tight and in darkness by night.

At that time the late James Marren was senior member of the board of assessors and he caused quite a sensation, just when the controversy was at its height, by making the statement that land in the vicinity of the St. Peter's site would be worth more than it would be in the next 20 years, with a post-office located there. Subsequent real estate history proved that Mr. Marren was right, for if the real estate in the vicinity of the present postoffice, has appreciated at all it has appreciated but little and in some instances not at all. As cheap as it is not cheaper today than it could have been before. The postoffice went to that section of the city. Many real estate owners in the vicinity of Tower's corner paid snugs toward financing the church site, looking up to Mr. Marren to help along the scheme, but experience taught them their mistake and with the exception of the people of St. Peter's parish who got a new and modern church out of it, no one else profited and the whole affair was a gigantic "lemon" for those who gave up their money to help along the proposition. Real estate owners did not like the idea of a postoffice being established in Merrimack Square subsequently had their contention proven, for the erection of a business block was of much more value to surrounding property than a federal building would have been. The excellent carrier delivery afforded (no public and the establishment of several sub-postoffices, the present postoffice would have been condemned long ago.

At present Congressman Rogers is attempting to get an appropriation for a new federal six story building and it is to be hoped that the new building will be located in a more convenient site than that occupied by the present postoffice.

THE OLD TOWER

A jolly good time at the Firemen's Ball, Thanksgiving eve.

Putnam & Son Co., 166 Central St.

WE HAVE SOLD OVERCOATS

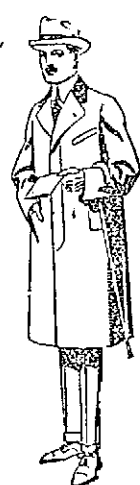

To a "stand still" the past few days, which is the best proof in the world that

OUR OVERCOATS ARE RIGHT STYLES ARE CORRECT

EVERY MODEL that is acceptable is splendidly represented in our great stock.

PRICES are lower when quality and tailoring are considered than you can get elsewhere.

FOUR of our best sellers are illustrated today. There are many others just as good as these. There is surely one here to please you.

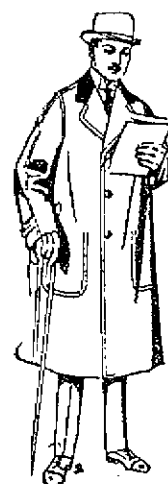

BROADWAY

A standard model, worn year in and year out, always in style. Fly front with velvet or cloth collar—serge, plaid worsted or silk lined or made up without lining, with deep silk shoulder yoke. This overcoat is the very newest garment shown for young men. \$12, \$15, \$20, up to \$28.

WHAT THE FRENCH MAID SAID

CORRECT BREATHING

"Oh, I'm out of breath," panted Marjorie as she stood in the doorway of her aunt's room one November morning holding her chest.

Her aunt looked up in astonishment, and remarked, "One so young should not lose breath so easily. You know all the whys and wherefores of breathing and I wish you would ask her to tell you about it."

Marjorie noted just a slight intonation of disapproval in her aunt's voice, so she did not argue the point but straightway sought out Marie, who was engaged in darning stockings.

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as occasional or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumigations, patent smokes, etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and then begin the method at once. Send no money. Simply mail coupon below. Do It Today.

THE LIPS IN COLD WEATHER

During the cold weather, look about you in the street cars and shops and observe the number of women with cold sores and with chapped, bleeding and broken lips.

You immediately excuse them on the ground that the weather has been the cause of it. Maybe it is, but it was her own fault. These women have neglected to take care of their lips, and the ugly blemishes are their reward.

Before going out into the cold it is

an excellent idea to rub the lips lightly with cold cream or vaseline if you do not use a rouge stick. The rouge stick, which contains a greasy substance, prevents blemishes of this nature, but not all women care to use it. Therefore a light dash of a good cream or a drop of glycerine rubbed into the lips will prevent the biting winds from chapping them. Do not moisten the lips when you are out in the cold.

If a cold sore gathers and you find it is beyond your control, the quickest method of drying it up is to rub it with camphor ice every night before retiring. Dust with powder before coming out into the cold air. Nothing mars the beauty of a woman's face as much as an ugly blemish on the lips. They should be kept as soft and velvety as the inner petals of a rose at all times.

SCHENCK'S MANDRAKE PILLS

They invariably relieve all ailments resulting from liver or stomach trouble—quickly and permanently remove indigestion, constipation, biliousness, indigestion, constipation, etc. Fully vegetable. Made at Bear Creek, 80 YEARS' CONTINUOUS SALE PROVES THEIR MERIT. Dr. J. H. Schenck & Son, Philadelphia

U. S. TROOPS LEFT VERA CRUZ MONDAY

American Forces Evacuate Mexican Port After Occupation of 7 Months—Trouble in Mexico

VERA CRUZ, Nov. 21.—(The Associated Press.)—The American troops of occupation evacuated Vera Cruz this afternoon. They had been in possession of the city for seven months.

The withdrawal of the American troops was without incident. They packed their belongings and by half past one they were practically all on board.

As the Americans withdrew Mexican constitutionalists took possession of the city. There was little enthusiasm, little excitement and no trouble of any kind.

ENTRY OF ALLIANCE TROOPS

WASHINGTON, Nov. 21.—(The Associated Press.)—An eleven-day abandonment of the city to the Allies has been announced by Generalissimo Carranza. According to reports received at the state department from Mexico.

General Carranza ordered the evacuation last Friday so that the Zapata forces could enter the city.

AMERICAN FORCES LEAVE
WASHINGTON, Nov. 21.—American

troops which have held Vera Cruz since last April were evacuating the city and sailing for home today, and while Major-General Funston's latest reports to the war department gave no details officials here expect almost all the Mexican flag flying over the ancient fortress of San Juan and the American troops well on their way home across the gulf.

Occupation of the Mexican port in reprisal for Huerta's insult to the flag at Tampico has ended. The United States more than a score of lives, some in battle and some from disease, and, according to some estimates, as much as \$10,000,000. But Mexico will be asked to pay no indemnity. Administration officials want that fact to stand out as an added evidence of the disinterested friendship of the United States for her southern neighbors.

General Funston has instructions to turn the city over to one of the Mexican factions and thereby avoid what might be construed as a recognition of one of them. His orders simply are to bring his troops away and leave the city to which ever faction takes possession. Carranza's commander, Aguilar, is nearest. But Carranza troops which have swerved in their allegiance to Villa are not far distant. There have been some evidences that Carranza intended to move his capital to Vera Cruz upon the American evacuation.

All those Mexicans who fear to remain when the Americans leave are sailing away with General Funston. The refugees and nuns have been given places on the transports and the Americans remaining depend for their safety upon guarantees given to the United States by all the Mexican factions and those American warships which remain in the harbor.

With the departure of the American troops a critical period in the relations between the United States and Mexico comes to an end, and in view of officials here, the Mexican people are left to work out their own destiny.

The outposts began falling back at nine o'clock in the morning and two hours later the first American soldiers were going over the sides of the waiting transports.

General Funston established his headquarters on board the transport Cristobal early today and all the organizations of his command began at daylight the work of moving out their equipment preparatory to final evacuation. Everything progressed smoothly and in accordance with previous arrangement.

Beyond the American outposts there had been modified during the night a force of constitutionalists. As the Americans withdrew first from the outlying districts and then from the city itself, the constitutionalists followed them along and nominally occupied the territory vacated.

The city is quiet but the inhabitants are nervous and apprehensive concerning the final outcome of this transfer of authority. Art saloons in Vera Cruz remained closed today on orders of General Funston and many commercial establishments decided not to open their doors.

The American army officials are taking with them the money collected for customs and from other sources of revenue.

This ultimately will go to some Mexican government which the United States deems a proper one to receive them.

DEMANDS EXPLANATION

WASHINGTON, Nov. 21.—Major General George Barnett, commander of the marine corps, today called upon Captain Walker N. Hill, now in Boston, to explain whether published reports were accurate which quoted him as saying Mexicans would probably be burning and looting Vera Cruz before nightfall if the American forces left there today. Captain Hill also was requested to explain fully just what he did say, if anything, concerning the situation at Vera Cruz, where he commanded a company of marines during American occupancy.

WATCHED FOR SNIPERS

VERA CRUZ, Nov. 21.—As the Americans left this city today they picked up the provost guard who had been policing the communities and also the men who had been posted on tall buildings to watch for snipers. These men joined the ranks of the retiring soldiers and together the force moved toward the waterfront where the embarkation began at 11 o'clock.

There were no signs of lawlessness, nor were there any reports of any kind on shore. The American forces came down at retreat last night were not raised this morning. As each transport received her allotment of men she slipped her cable and dropped out into the channel. Here they formed in lines, through which later in the day, the Christobal with General Funston and his headquarters staff on board passed in review of the American forces.

PETITION IN BANKRUPTCY

FILED BY HAVERTHILL HERALD CO.
LIABILITIES PLACED AT \$16,300.
ASSETS \$23,100.

BOSTON, Nov. 21.—A voluntary petition in bankruptcy was filed today by the Havertill Herald Co., publishers of a daily newspaper at Havertill. Liabilities were placed at \$16,300 and assets at \$23,100.

The proceedings were instituted by a vote of the stockholders.

ATTACKS THE ALLIES

GERMAN CONSUL URGES GERMAN AMERICANS TO BOYCOTT GOODS FROM HOSTILE COUNTRIES

NEW YORK, Nov. 21.—Baron E. H. Von Schaik, Imperial German consul, urged Germans throughout America to boycott goods manufactured by nations hostile to their country. In an address last night at a benefit for German wounded soldiers, widows and orphans.

"The allies," he declared, "always envious of Germany's commercial prosperity, have utilized the present occasion to slander German industry. With cold blooded contempt of all laws, they are suppressing German commercial houses within their own countries and are now attempting to finally destroy German Austrian patents of inventions."

"Here in the United States the money expended by German-Americans may be helpful. Placing the buying capacity of these at only \$100 per annum, their yearly purchasing power is \$1,000,000. Let me suggest a better system of buying. If you cannot obtain American made wares, you should buy articles of German or Austrian origin."

"Before buying ask where the article was made. Be loyal to America and be loyal to your old fatherland."

2000 RETURN TO WORK

SOUTH CHICAGO PLANT OF ILLINOIS STEEL CO. RE-OPENED TODAY—BUSINESS BOOMING

CHICAGO, Nov. 21.—Two thousand men who were thrown out of employment early last spring, returned to work at the South Chicago plant of the Illinois Steel Co. today when the steel and structural mills were reopened.

Arthur H. Young, superintendent of labor at the mills, was authority for the statement that the mills would be running to capacity within a few weeks.

BROOKLINE OFFERS \$500 REWARD FOR BANDITS

Town to Ask State to Increase Amount — Body of Murdered Druggist Sent to Worcester

LOWELL, Nov. 24.—The Brookline selectmen unanimously voted last evening to offer a reward of \$500 for the apprehension of the bandits who held up the druggist of Charles H. Hitchcock at his Boston street last Friday night and shot to death the manager, Charles J. Merrill. It was voted to ask the aid of the commonwealth through Gov. Walsh toward increasing this reward.

The selectmen voted exceedingly that they could not have voted a larger sum, but they are limited by law to \$500. It is also provided in the statutes of 1911 that the governor may offer a reward of not more than \$1000 in any one case, to be paid by the state, for the arrest or for information leading to the arrest and conviction of any person who has committed a felony.

Brookline hopes to obtain at least \$500 more from the commonwealth to add to the selectmen's reward. In the case of the reward by the selectmen, they would demand to whom it should be paid. The governor would decide to whom the state's portion should be paid.

The body of the murdered druggist manager was yesterday sent to the home of Mr. and Mrs. A. Ireland, 112

Paine street, Worcester, parents of Mrs. Merrill. The funeral services will be held at that address today.

Sergeant Butlerford of Brookline put in another busy day yesterday running down clues and looking over suspects picked by the Boston police. It is understood that nothing of promise was developed during the day.

It was learned yesterday that Sergeant Patrick Duggan of Brookline arrested a man about 3 a. m. Sunday morning who resembled in many respects the descriptions of the bandits. The man was released from custody later in the morning, however, having satisfied the police that he had nothing to do with the case.

William Knudsen and William J. Carney were arrested in the morning on the charge of being "suspicious persons" by the Boston police, but were released in the afternoon from the Court-square station after they had been looked at by George W. Slason and Warren M. Pickett, clerks in the Hitchcock drug store at the time of the holdup. Neither could identify them as the robbers.

Best printing: Tobin's, Asso. Mfg. J. P. Donohue, Donovan bldg., real estate and insurance. Telephone.

LONDON ADMITS BRITISH DEFEATED IN EAST AFRICA

Desperate Assault on German Town Proved Disastrous — Casualties in Operation Were 795, Including 141 British Officers and Men

LONDON, Nov. 24.—The official press bureau makes public the following: "In East Africa it appears from the latest information that as an important German railroad terminus was reported weakly held a force was sent from British East Africa to seize it. On the evening of Nov. 2 one and one-half battalions landed within two miles of the place and became heavily engaged just outside the town. But as the enemy were in much superior strength this force was compelled to fall back and await reinforcements.

"At 11 a. m. on the 4th the attack was renewed. Within 500 yards of the position the troops engaged came under a heavy fire on their left flank. In spite of heavy casualties, while on the whole he is a very good fellow, there are times when he makes such glaring errors that he is positively unforgivable. Thursday evening regiment and the Cashmir Rifles on

the right pushed on in support under a heavy fire and also reached the town. They found themselves opposed by lines of fire from the houses and were eventually compelled to fall back to cover 500 yards from the enemy's position.

"The losses were so heavy and the position so strong that it was considered useless to renew the attack and the force re-embarked to return to its base to prepare for future operations.

"From recent reports just received, the total casualties in this unsuccessful operation were 795, including 141 British officers and men. The wounded are mostly doing well. Many are convalescent."

The official press bureau adds that the above casualties were included in the statement recently made by Lord Crewe in the house of lords.

LADY LOOKABOUT

I often have heard the weather man predict for the winter he makes, and while on the whole he is a very good fellow, there are times when he makes such glaring errors that he is positively unforgivable. Thursday evening I stood at Merrimack square in the

EXPERT SAYS WEATHER FAVORS THE GERMANS

Russians Bring up Reinforcements in Poland—French and Indian Troops Suffer From Cold

BERLIN, Nov. 24.—The newspapers have comparatively little comment on the appearance of reinforcements in the battle of Poland which the Russians as at Warsaw were able to bring up at an opportune moment.

Major Morant, the military critic of the Tagblatt says it was to be expected as large forces had been left behind to garrison the Vistula fortress when the Russians advanced and these are now being hurried up in an endeavor to save the day.

There is no indication in the headquarters bulletin where these fresh Russian troops have been thrown in but it is thought here that it was probably between Kutno and the Vistula, as early reports seem to indicate that the Russian corps defeated at Wloclawek have taken a south-westerly line of retreat away from the river.

Major Morant, in an article evidently drafted under the Impressions he received from yesterday's report doubts whether the Russian retreat north of the Vistula will be checked before Nowa Gorkow. These forces, he says, have ceased to be a danger to the left wing of the principal German army in the region north of Lodz.

The military critics are anxiously awaiting the possible effect of the cold weather on the opposing armies. Major Morant believes the weather

favours the Germans who for years have been trained for winter campaigns and are fully equipped for cold weather, while the Frenchmen from the south, the colonels and the Indian troops will suffer from winter conditions.

LAST NIGHT'S EUROPEAN WAR FEATURES IN BRIEF FORM

Great battle in Poland seems to be turning in favor of Russians. Official statement from Berlin says Russian reinforcements have "postponed a decision" of the battle on the Warta.

German submarine U 5 rammed by British warship and sunk off Scotland.

German destroyer founders after collision with Danish steamers in Ore Sund.

Russian report von Hindenburg's march on Warsaw is checked; 12,000 taken prisoners.

German advance in Turkey rapid, invaders being 60 miles inland from Persian gulf.

German garrison in East Africa repulses attack by three British regiments.

Total failure attended recruiting rallies at Saturday's football games in England and the game has become an object of hatred.

the manufacture and sale of intoxicants in that country, and of the surprising success of the reform thus early. The law is rigorously enforced, and already the peasants are better fed and the savings banks deposits show an increase. It is a great argument in favor of absolutism that such a law can be made and enforced in such a short time, particularly as it is a reform which affects the majority of a nation—something which has always required most radical measures.

MINER'S ORCHESTRA

O'Sullivan Says:

There is one time in the year that the housekeeper is proud of her mince pies, and that is Thanksgiving day. She likes to have you ask her how she makes them and what she puts in them, if it's just plain cider or a dash of something else.

STORE OPEN WEDNESDAY NIGHT

A Display of Ladies' Coats

The like of which you never saw before in Lowell and probably can never be made again by the

Merrimack Clothing Co.

An Entire Window Front

Devoted exclusively to coats and every one different and of such attractive prices and such captivating styles there is nothing left for the eye or the pocketbook to want. You simply can't afford to miss it, and the display isn't half what you can find inside our elegant Ladies' Dept. Prices to fit the honest and the wealthiest pocketbooks in Lowell, and the additional incentive, no one else can have a garment like yours.

PRICES FROM
\$8.75 to \$50
Thanksgiving Specials

FROM OUR LIVE FURNISHING DEPARTMENT

Men's \$5.00 All Wool Shaker Sweaters, only about 5 dozen
Men's \$1.00 Natural Wool Underwear 79c

\$1.15 25 Sox, Men's \$1.50 and 52 Shirts, 3 for \$4.25

MERRIMACK CLOTHING CO.
Across From City Hall.

It's the same with the clothing man as with the housekeeper, since early last summer the Thanksgiving overcoat festival they are going to offer their customers has been uppermost in the mind of the management of the Merrimack Clothing Co. Every housekeeper has mince pies for the day and every clothing store has overcoats, but there is a heap of difference in the pies, and there is a lot of difference in the overcoats.

As your mind runs back you can readily locate some place, some pie, and the maker of it and the distance from the farthest part of Lowell to the Merrimack Clothing Co. wouldn't prevent you from sampling it.

The management of the Merrimack Clothing Co. is as anxious as the matron was. You sample the overcoat stock that has been selected from afar back for this Thanksgiving week. We won't talk prices to you at all this week, we'll just talk coats for boys and men, but your money will be refunded if you can replace any garment bought here at less price. You can talk prices on turkey for Thanksgiving but you couldn't talk prices for that old-fashioned mince pie.

If you have a thought on clothing buying come direct to the Merrimack Clothing Co.; there is where you can spend your money right; that's the home of live, liberal clothing selling.

Daniels Bars Wrong Doors

Despite the feeling of injustice we felt toward Secretary of the Navy Daniels a short time ago when he saw fit to consider foreign bids on hunting for American flags, we cannot but commend him for the stand he has taken in regard to candidates for navy service. For a long time it has been the custom among police court judges to sentence to jail young men guilty of minor offenses. This sentence would then be suspended on condition the guilty party agreed to enlist in the navy. Naturally, going to the navy came to mean that the young man so inclined was a sort of rake—a ne'er do well, and this was true in no many cases that no distinction was made between those who joined voluntarily and those to whom it was "Hobson's choice."

Secretary Daniels has long been opposed to this method of securing recruits, and a few days ago when Judge Ahern of the Roxbury police court ordered a young man found guilty of loitering about street corners to jail, or to the navy, and the culprit chose the latter, his application was promptly refused. In explanation, Secretary Daniels says that the navy is a national organ of defense, and not a reform institution. All fair-minded persons will agree that he is right in his stand, and if he continues in it, he will build up a navy of young men who have a natural inclination to the service, not a body who follow the sea as the lesser of two evils and to enable them to keep out of jail.

Encroaching on the Sidewalks
It seems very strange that on an overcast city street, and a prominent one at that, any abutter should be allowed to so construct a concrete walk that it extends like a shelf halfway across the sidewalk. This condition is to be met with in many of our streets in the city, but perhaps the most glaring instance which comes to mind is in the connection, is on Lincoln street hill. I shall not for-

GERMANS IN RETREAT

MOTHER TORN FROM HER TWO CHILDREN

A most pitiful scene occurred in Gorham street shortly before noon, when a Boston woman, Mrs. Hester Grist, was separated from her children after a decree of the court. The woman fought furiously with those who attempted to take away her two little boys, aged respectively 6 and 9 years. It was only after Patrolman Lane and Agent Gilmore of the Humane society had spoken to the woman that she allowed them to be taken away. In the excitement some one telephoned to the police station for the auto-patrol, but this was not put in use. The husband, Thomas E. Grist, finally got the custody of his children and left for his home in Boston.

Thomas E. Grist was this morning granted a decree nisi by Justice Quinn, now presiding over the jury waived session of the superior court in this city, in his divorce proceedings against his wife, Hester Grist, for gross and confirmed habits of intoxication, and he was also granted the custody of his three minor children. The following agreement was also included in the decree: "That the lump sum of \$100 be paid to the Hester by the Hester as alimony to be first applied to the unpaid bills of the Hester contracted since the date of the decree; that the Hester pay the Hester \$18 per week as alimony; that the custody of the three minor children be given to the Hester; that the Hester be given the privilege of seeing all of the said children at least once a week for a reasonable time, provided she is in fit and proper condition at the time; that all of the furniture, etc., be given to the Hester absolutely; that all wearing apparel of the Hester and the minor children, together with the working tools of the Hester shall be given to the Hester."

At the close of the case the husband, as well as the wife, her attorney, Lester Gooch, also of Boston and some of the woman's relatives, including two of the little children, left the court house. Just as the party left the building Mrs. Grist grabbed the two children and started on a run down Gorham street with the husband and the attorneys close upon her. She ran as far as the corner of Union street, where she was stopped by the husband. The attorneys for both parties as well as the woman's relatives attempted but in vain to take the children away from her. She clung to them for dear life and they clung with equal affection to her.

In a short time a crowd of about 200 people had gathered about the party and someone telephoned for the police patrol. Officer Lane and Agent Gilmore of the Lowell Humane society arrived on the scene and they were quickly informed of the situation. One of the men in the crowd attempted to pull the children away from the frantic mother who was weeping hysterically, and he received a blow from a bystander which sent him rolling in the street. The auto-patrol was soon on the scene and it was the sight of the wagon that made the woman give up. Down-hearted and half crazed with the thought of separating with her children the woman returned to the court house in an endeavor to see the judge, while the husband left for Boston with the children.

MEETING AT TEWKSBURY

Over 100 interested voters attended the special town meeting held in the town hall at Tewksbury Centre last night. The meeting had been called for the purpose of taking action on the offer made by the Bay State Street Railway Co. in reference to the lawsuit now pending at the jury waived session of the superior court. Some time ago the town, through its committee, Melvin G. Rogers, brought suit against the railway company to recover on two \$5,000 bonds and recently the company made an offer of \$5,000 to drop the matter.

Henry M. Billings was elected moderator at last night's meeting and after considerable discussion the meeting voted in favor of Mr. Rogers' offer to settle with the railway company as he saw fit. It is not known just how the counsel will proceed, for he was non-committal on the matter.

Another article was included in the warrant to see if the town will appropriate more money for the maintenance of the police department for the remainder of the year, and the meeting voted to raise \$100 for this purpose. The committee appointed at the last town meeting to confer with the officials of the Lowell Gas Light Co. for the extension of its gas main in Andover street as far as the North Village reported favorably but no action on the report was taken.

Thanksgiving Day in Lowell

Every year there is a war on with Turkey that ends satisfactorily with cranberries instead of aeroplanes. Thanksgiving day is a home day to be observed by all in the family—by the sons and daughters honoring their parents—A day that brings scattered families together—A day of reunion in many cases—A day that brings back to our memories bygone days and notes the changes as years roll on.

HANALEI DASHED TO PIECES ON REEF

Schooner Broke Apart Amid Cries Which Rose Above Thunder of the Surf—Thirteen Survivors Picked up by Revenue Cutter

SAN FRANCISCO, Nov. 24.—The steamer schooner Hanalei, ashore on Ruxbury reef, broke in two just before dawn today with 58 souls aboard. Three passengers and two seamen reached the shore.

The schooner, which had been pounded by the surf since yesterday noon when she ran ashore in a fog, went all to pieces. Her bow, which hung over the reef and had been twisted to a right angle, slid into the water and drifted to within one hundred yards of the beach.

The five persons who first came ashore swam from the wreckage. A few more hours would have saved every soul aboard the Hanalei. An hour would have saved many. After all hope had been given up ashore and on board the wreck of the sixth line fired by the Golden Gate park lifesaving crew under Captain Norman Nelson went over the vessel. A breeches buoy began to shoot lines toward the wreck as the life rose. After the third shot the water was waist deep on the schooner and the wireless operator, who was sending with an improvised outfit held in one hand, reported that the passengers were desperate.

"We will get ashore as best we can," he flashed through the air. "We cannot stay here."

But they dared not trust the waves. "Try once more. Hurry! Hurry! Hurry!" flashed the operator a little later.

The Hanalei was a wooden vessel of 558 tons, built for the Hawaiian sugar trade on 1901 and later diverted to the coastwise trade, running between San Francisco and Eureka. She left Eureka Sunday. She was owned by the Independent S. S. Co.

The ship went to pieces after a night spent in heroic but fruitless effort by persons on shore to fit up a line to the vessel by which the passengers and crew could be removed from danger. Those on board kept up their courage to the last and it was not until the hull parted across the rocks where she had balanced since yesterday morning that they leaped into the water and fought toward the signal fires which burned on the beach.

A large portion of the hull with a spar protruding from it wallowed toward shore on the combers and to it many humans being clung desperately. A searchlight had been rigged up on top of a bluff and by its rays swimmers were aided in avoiding the heavy timbers adrift and in heading toward shore.

When the bulk was within three hundred feet of shore it struck a submerged rock and heeled over. At each time he heeled and finally Tsafaris and placed under arrest. The complainant displayed an ugly gain over his eye which he claimed was sustained during the row.

Patrolman Tsafaris testified that he saw Ray strike Geannamaris and stoop to pick something from the sidewalk. The policeman then rushed to the rescue and placed the man under arrest. Fifty-nine cents were taken from him on the way to the police station.

Deputy Downey read off a long record against the defendant and it was learned that he was on probation at the time of his arrest. He will spend the next four months at the house of correction in Cambridge.

RUSSIANS DEFEAT THE GERMANS AND TURKS

The Russian war office, whose statements were vague and non-committal for several days when the tension was running highest and the Germans by all accounts were pressing swiftly toward Warsaw, made today its first definite announcement concerning the crucial battle. It stated that between the Vistula and the Warta rivers the Germans had retreated. Germany's latest official statement gave partial confirmation, although there was no hint of a retreat. It was to the effect that the arrival of the Russian reinforcements had postponed the decision.

In the war with Turkey, also, Russia claims the advantage. The forces which pushed down through the Caucasus into Turkey which Petrograd admitted a few days had been compelled to retreat are now said to have resumed the offensive and to be pushing on toward Erzerum, a Turkish city, near the eastern end of the Black sea. A Turkish column was there put to rout, the general staff of the army of the Caucasus announces. It states, also, that the Turks were defeated in two engagements in northern Persia.

In the west the opposing armies still held to the positions which they have maintained with few changes for the last two months. Here and there along the 300-mile line notably at Tynes and Soissons and in the Argonne, there was spirited fighting, but apparently with no results other than merely advantages for one side or the other.

Germany scouts the idea that she is desirous of making peace. The semi-official Cologne Gazette characterizes reports of this nature as belonging to the region of "high political idiosyncrasy."

FOUR MONTHS TO PRISON

SENTENCE OF MAN FOR ASSAULT AND ROBBERY—OTHER CASES IN POLICE COURT

For knocking a man down on a public street and the larceny of 53 cents, which he dropped out of his pocket, Powell Reay of this city was sentenced to four months in the house of correction by Judge Enright in the local police court this forenoon. Defendant was also charged with drunkenness, but this was placed on file after a plea of guilty had been entered.

The complainant was Costas Geannamaris, who claimed that he met the defendant in a Moody street liquor store. He said that Reay requested him to buy a drink several times, but each time he refused and finally walked out onto Moody street. When the pair were opposite Monument square, it is alleged, Ray struck Geannamaris several blows, knocking him to the sidewalk. He was then seen to pick up some change from the sidewalk and was in the act of making a getaway when stopped by the policeman and placed under arrest.

Patrolman Tsafaris testified that he saw Ray strike Geannamaris and stoop to pick something from the sidewalk. The policeman then rushed to the rescue and placed the man under arrest. Fifty-nine cents were taken from him on the way to the police station.

Deputy Downey read off a long record against the defendant and it was learned that he was on probation at the time of his arrest. He will spend the next four months at the house of correction in Cambridge.

MARRIED INFELICITY

MARRIED on the second day of October and never lived with her husband since that time was the story told by Mrs. Lena Westwood when her husband, Paul F., was charged with non-support. Paul admitted his guilt but said that he had been unfortunate in securing work so he was given one month to find some means of supporting his better-half.

BRIEF MEETING

The meeting of the municipal council scheduled for 11 o'clock this forenoon was more than an hour late in starting and there were two absentees, Commissioners Brown and Morse.

The first business had to do with pole locations as petitioned for by the Lowell Electric Light corporation in Dalton and Methuen streets. There were no remonstrants to the Dalton street location, but the mayor read a communication from C. H. V. Smith, objecting, very strenuously too, to the proposed location in Methuen street. Both of Charles M. Bixby, Silvia et al., and Abbie Sullivan. Finlay Chisholm was granted both garage and gasoline licenses and Cameron Bros., D. M. Leary and Euclid Marlet were granted gasoline licenses.

Petitions for garage and gasoline licenses were submitted by the following and were properly referred: Albert J. Brooks, W. B. Hatch, Roy F. Lovejoy and Marie L. S. Baron. The following petitioners for gasoline and garage licenses will be given a hearing on December 15. Coburn's Motor company, Henry W. Desrosiers, Joseph Z. Desrosiers and Addie M. Merrill.

The following petitions were read and referred: P. N. Brunelle, to accept a concrete sidewalk at \$35-\$37 Moody street. Edward W. Trull, et al., that Homestead street be accepted, sidewalks and grass plot be built and street macadamized. Adolph P. Demers, that the sidewalk on Gorham st., between Glidden avenue and Stevens street, be accepted.

The order calling a meeting of the voters for the city election and declaring the results of preliminary elections was adopted.

Adjourned to meet next Tuesday at 11 o'clock.

CLOUGH WINS NOMINATION

MANCHESTER, N. H., Nov. 24.—At a caucus held last night, Alphonse Clough won a re-nomination over Frank B. Stevens, 369 to 217.

Andrew E. Fantum, George L. King and Dana A. Barry were nominated for councilmen, and Samuel W. Shepard, James L. Mason and Frank J. Abbott for selectmen.

HENRY SIEGEL FOUND GUILTY

Given Ten Months in Prison and Fined One Thousand Dollars

Jury Follows Judge and Holds Crime a Misdemeanor

HENRY SIEGEL

GENESEO, N. Y., Nov. 24.—Henry Siegel, the bankrupt New York merchant and banker, was last night convicted of a misdemeanor on obtaining credit on false financial statements.

Justice William W. Clarke at once sentenced Siegel to pay a fine of \$1,000 and to serve 10 months in Monroe county penitentiary.

Stay of execution of the prison sentence was granted until the second Monday of June and bail was fixed at \$25,000.

Siegel must appear before Justice Clarke in GENESEO at that time, and if his creditors have been substantially provided for, further action on the prison sentence will be taken.

The offense is a violation of section 1253 of the laws passed in 1902. In finding a verdict on this charge the jury took a course outlined by Justice Clarke in his final instructions. He said he had serious doubts as to the validity of the grand larceny charge, but left it to the jury to decide as to Siegel's guilt or innocence of the less serious offense.

The jury retired at 7:30 and gave its verdict slowly before midnight. At 11 o'clock the jury came into the courtroom to ask a question regarding the misdemeanor statute.

"A misdemeanor," said Justice

Put Iron Into Your Blood

Color into your face, strength into your nerves, relieve your nervous dyspepsia and sleeplessness, build up your run-down system, by taking Pepton Pills

got and Vogel, and for a ruling that the alleged crime of the defendant was a misdemeanor and not a felony.

Justice Clarke heard the first two motions and said he would reach upon the third in his charge to the jury.

Arthur C. Train, assistant district attorney of New York county, summed up for the people, and Mr. Stanchfield spoke for the defendant. Mr. Train made what was declared to be one of the most dramatic presentations ever heard in a Livingston county courtroom.

He declared that many facts established by the people had not been denied by the defense.

"Had it been denied," he asked, "that with the enormous losses of these enterprises Siegel accepted the money of poor depositors no sum too large, none too small, that he knew money from the bank was being sent to Boston; that as a question, he and Vogel wiped out the loss of \$500,000 of the Stanchfield stock with bank funds, that he conspired to keep false books and above all, that he had plans to escape from the jurisdiction of the United States?"

"If Siegel had been an honorable man," said Mr. Train, turning toward the defendant, "he would have gone into bankruptcy long ago. But he didn't. Instead, with his dirty enterprises in mind, he allowed the money of these depositors to be used to keep false books and above all, that he had plans to escape from the jurisdiction of the United States?"

Referring to a statement credited to Siegel that if he had been allowed, he would have paid off the depositors in full, Mr. Train said:

"If there was a sum of money that could have been paid to the depositors, why wasn't it?"

Mr. Stanchfield objected, on the ground that Mr. Train was going outside the scope of his argument.

"On your own statement," said Mr. Train, shaking a finger at Mr. Stanchfield, "you said that if Siegel wasn't prosecuted the money would be put back for the depositors. Why?"

Charge by Judge

Concluding Mr. Train said: "You think that Vogel is dead. He is here. Here is the dead Vogel testifying as to Siegel's misdeeds through the mouth of Pratt. And Pratt's testimony is not denied."

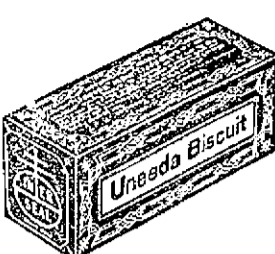

Mr. Stanchfield spoke in a low tone. He referred to Siegel as a victim of circumstances, full of faith in his ventures. He dwelt on Siegel's personal loss and his desire to go to Chicago and there set out in life again and pay back the depositors in his back dollar for dollar.

In his charge Justice Clark said that considerable latitude had been allowed in the taking of testimony, so that every phase of the case might have light, for it was only in this way that a decision fair to the defendant and the people could be reached.

Justice Clark then read the charge covering grand larceny and that defini-

FAIL TO SETTLE STRIKE

MINE WORKERS AND OPERATORS' DEADLOCK AT KANSAS CITY—400 MINERS AFFECTED

KANSAS CITY, Mo., Nov. 24.—No agreement was reached here yesterday in the negotiations between the International executive committee of the United Mine Workers of America and representatives of the Southwestern Coal Operators' association in an attempt to settle the strike of 1000 coal miners in Southeastern Kansas, employees of the Cherokee and Pittsburg Coal Mining company.

Dance the old square dances at Firemen's Ball, Thanksgiving eve.

EARTHQUAKE SHOCKS

RECORDED ON THE SEISMOGRAPH OF GEORGETOWN UNIVERSITY AT 7:20 THIS MORNING

WASHINGTON, Nov. 24.—Earthquake shocks were recorded today on the seismograph of Georgetown university beginning at 7:20 a. m. and continuing an hour and six minutes. The center of the disturbance was calculated to be about 1200 miles from Washington and the observers believed it to be within the United States.

CHRISTIAN ENDEAVOR SOCIETY

The Lowell Christian Endeavor union held its regular monthly meeting last night at the Chelmsford center church. The speaker of the evening session, an excellent supper was served to the town hall. Sixteen societies from Lowell and the surrounding towns were represented by over 150 delegates.

President Walter Chase presided over the business session, and a large amount of routine business was transacted. The speaker of the evening, Rev. J. M. Kyle of this city, gave a most interesting talk on missionary work in South America, especially among the Portuguese of Brazil, where the speaker worked for a number of years as a missionary. The entertainment which followed the address included a highly pleasing duet by Miss Frank Dutton and Miss Belle Libby.

Good old music at the Firemen's Ball, state armory, Thanksgiving eve.

SUN FEATURES WEDNESDAY

Interesting Discussions By "The Man in the Moon," French Maid, Sleepy-Time Tales, and Others

The Man in the Moon in tomorrow's Sun will have many pleasing discussions of timely topics. He begins with interesting reminiscences of Thanksgiving and the month of November. He extends best wishes to all for a pleasant Thanksgiving. He comments upon many other topics of local interest in a most delightful way.

"Why Some Women are not Home-likes" is the topic of the article in "What the French Maid Said" in tomorrow's Sun. She explains the quality of being homelike and makes interesting comparisons.

"Everyday Etiquette" is another interesting feature which will appear in The Sun tomorrow and will answer many important questions of deportment.

The sleep-time tale tomorrow is "How Billy Moved," and is written in a manner that will delight the little ones. The "Rabbit's Foot" tells of the importance of protecting one's throat from the cold of winter and the information will be very helpful.

ARMY AND NAVY GAME

ANNAPOLIS, Nov. 24.—With but four days before their warriors leave Annapolis for Philadelphia for their annual battle with the Army, Navy and Air, the members of the regiment of midshipmen will gather on the bleachers each afternoon to practice the vocal encouragement to be given at Franklin field next Saturday to their heroes of shinguard and shoulderpad. Although it is admitted by many of the Navy supporters that judged by comparative performance, Army has the right to expect to duplicate its victory of last year, hope is not dead on the Severn shore.

TWO CHIMNEY FIRES

A chimney fire at 34 Cedar street called out the members of Engine 1 at 8:20 o'clock last evening. No damage. At 9:18 o'clock a second chimney fire was discovered at a Walker place, but this was extinguished with but slight damage. The tenement is occupied by Fred Dickey.

TRENCHES ARE READY

Coburn Herd Infected With Hoof Disease Will be Slaughtered by State Gang

The Coburn herd of cattle in Dracut has not yet been slaughtered, but Dr. Edward A. Cahill, of the bureau of animal industry, says that the cows will be killed within a day or two. Dr. Cahill lives in High street, this city. He was called to a farm in Chelmsford Centre last night where it was reported that one of a herd of cattle had contracted the foot and mouth disease. An examination of the animal was made, but no symptoms of the disease were discovered.

Dr. Cahill has nothing to do with the slaughtering of the animals, sentenced to death because of foot and mouth disease, but deals entirely with the diagnosis of the malady. To The Sun today, Dr. Cahill stated that in all probability the Coburn herd would be killed within a day or two. It was Dr. Cahill who awarded the contract for the digging of the trenches for the burial of the cattle to the Burton H. Wiggin Co. The trenches have been dug, and as the animals are slaughtered, they will be buried under seven feet of earth, with a solution of lime on top to remove all possibility of further contagion. The cattle, one at a time, will be led to the edge of the trench and shot, the position of the animal being arranged so that the body will topple over into the trench.

Infected cattle were slaughtered in Worcester and Grafton yesterday and a newly organized slaughtering crew is slaughtering herds in Swansea and Westport today.

Charged to the War

That the European war is responsible for the outbreak of the foot and

mouth disease in the United States is the belief of Webster C. Robbins, a prominent cattle raiser of Acton. Yesterday Mr. Robbins said to Commissioner Fred P. Walker of the department of animal industry:

"Hundreds of immigrants flocked to Boston and New York and all parts of the country just before the war broke out. The disease has been raging in Holland and Germany for years and clothing and shoes from these countries could easily carry and spread the disease."

MONTH'S MIND MASS

A month's mind mass for the repose of the soul of Thomas J. McDermott will be celebrated at St. Peter's church on Wednesday morning, November 25, at 8 o'clock.

NO NEED TO FEAR MEAT

NO CATTLE WITH FOOT AND MOUTH DISEASE BEING SLAUGHTERED

WASHINGTON, D. C., Nov. 24.—According to the specialists of the department of agriculture people even in states quarantined for the foot and mouth disease need have no fear of eating meat, provided they cook it thoroughly. The foot and mouth disease is not easily communicated to human beings through food, although milk from a diseased cow might transmit the disease to a human being. In the case of milk, however, pasteurization will render it entirely safe. Human beings who get the disease commonly get it from direct contact with a sick animal. It is wisest, therefore, for people to keep away from all animals having the disease, unless they are properly provided with rubber gloves, coats and boots, and these are thoroughly disinfected after each visit to the animals.

In the case of meat, as in the case of milk, it must be remembered that animals which actually show the disease are quarantined, and neither milk nor meat from the sick animals can be sold. Sixty per cent of the meat used in this country is produced in the nearly 900 federally inspected slaughtering and packing establishments located in 240 cities. In these establishments no animal is slaughtered until it has passed an ante-mortem inspection and also a most rigid post-mortem inspection by a veterinarian at the time of slaughter. After slaughter its meat cannot leave the establishment until it has been carefully examined and stamped "U. S. Inspected and Passed." In all these establishments no animal showing any symptoms whatever of foot and mouth disease is allowed to go to slaughter, and no meat which, on post-mortem inspection, shows any suspicious symptoms of this complaint can be shipped out of the establishment. All meat suspected of coming from an animal suffering with this complaint is sent, under government seal, to the tanks to be rendered into fertilizer. The federal inspection stamp on meat, therefore, means that it is entirely safe.

The federal government, however, has no jurisdiction over local slaughter houses which do not ship meat outside of the state in which it is slaughtered. If, however, meat from such an animal did escape from one of these local slaughter houses, which are purely under state or municipal control, all danger of its communicating the disease to human beings would be removed when it is thoroughly cooked and sterilized. Those who are located near an infected region and wish to be absolutely certain of the safety of their meat should cook it thoroughly.

The disease when contracted by adults is not at all a serious illness. It commonly takes the form of slight fever, sore in the mouth and a slight eruption on the fingers. In the case of small or sickly children, it may take a more serious form, especially if complicated by other illnesses.

FEDERAL QUARANTINES

WASHINGTON, D. C., Nov. 24.—The provisions of the federal quarantines declared on account of the foot and mouth disease have been somewhat modified in so far as they apply to shipments of hay and straw. The new regulations provide that hay and straw cut prior to August 1, 1914, and baled prior to October 1, 1914, may be shipped without disinfection from any of the quarantined areas, provided that it has been stored away from cattle, sheep or swine. Hitherto it was necessary that hay should not only have been cut before August 1st, but that it should also have been baled before that date.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not sleep, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I took my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."

Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For over thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacement, inflammation, cysteritis, tumors, irregularities, etc.

TO AID GEN. CARRANZA

GENERAL OBREGON, EVACUATED MEXICO CITY WHEN VILLA APPROACHED

General Obregon, one of the staunch Carranza followers, evacuated Mexico City with his troops when Villa approached, leaving the defense of the city to General Blanco. Obregon went to Cordoba. He will continue to support Carranza, who has set up an independent government.

YOUR HAIR NEEDS

PARISIAN SAGE

It Quickly Removes Dandruff, Stops Falling Hair and Scalp Itch

If your hair is full of dandruff, thin, streaky, dull and never will do up to look pretty, you can almost immediately remove the cause making it beautiful, thick and fluffy by the use of Parisian Sage, one of the most helpful and invigorating hair and scalp tonics known.

Parisian Sage not only saves your hair but stimulates the hair roots and furnishes the nourishment needed to make it grow long, abundant and radiant with life. Just one application removes every trace of dandruff and stops scalp itching. Your hair becomes soft and fluffy with an incomparable gloss, beauty and charm.

You cannot be disappointed with this hairless and delicately perfumed tonic for there is nothing so good for your hair. It is easily applied at home and costs but a trifle from any drug counter.

Reduce Your Coal Bill

You can save at least 10% on your coal bill by having your windows repainted, sash cords put in and all air leaks tightened. Glass of all kinds furnished and set, windshield and auto lamps a specialty. Leaded glass made, repaired and rebuilt. Telephone 499-M.

WE SPECIALIZE IN STOUT WOMEN'S APPAREL

THE LADY'S WORKBAG

A good workbag can be made from two yards of Dresden ribbon six and one-half inches wide, and one embroidery hoop. Cut two rounds of cardboard the size of the hoop for the bottoms of the "double-decker" bag, pad with sheet-cotton, and cover with the ribbon.

Divide the remaining ribbon in halves and seam up both pieces, then sew one to a cardboard round, and fasten at the top to the outside rim of the embroidery hoop. Make the top part of the bag in the same way, save that the cardboard bottom is to be sewed to the inside of the embroidery-ring, which has been covered by the silk ribbon.

The top is gathered with a heading for drawstrings. Fasten the two bags together by short ribbons. When ready for packing, the upper bag fits snugly into the embroidery-ring, while when in use the bag becomes two.

For an amateur dressmaker to make a skirt or gown hang evenly around the bottom, first cut your skirt by some good pattern (be sure to cut it long enough to allow for a hem), then fit it carefully around the hips, put on the belt, in fact, completely make the skirt all but the hem.

Put the skirt on and fasten all of the hooks. Stand before a mirror and buckle a leather strap (such as are used to strap up packages with) around the hips six inches below the waistline, and adjust evenly all around, then take a piece of chalk and make a line around the skirt just above the strap.

Take a yard-stick and measure from the line to the floor. Take off the skirt and lay it lengthwise on a table and measure from the chalk-line towards the bottom. If you want the bottom of your skirt two inches from the floor, make that allowance. You can measure at intervals from the chalk line making a mark where the hem is to be turned. Crease the skirt along the chalk marks at the bottom and baste the hem. If you are making a one-piece gown, have your dress all together before measuring for the hem. If these directions are carefully followed the skirt will hang perfectly even.

Some of the newest Turkish towels have an initial quite four or five inches long worked in French knots at the left of the towel above the border. Instead of in the center, as is usually done.

For a man's use towels worked with these large letters are very good looking and it is safe to predict that some will find their way into the Christmas packages of the men of the family a little later in the season.

Among the newest designs for small guest towels is one of a fine damask or a very small pattern without a woven border. The latter is hemstitched on and consists of an inch-wide hem of colored linen, pink or blue. The initial may be embroidered in white on the hem or worked on the towel itself in a color to correspond with the hem.

For pot holders old stockings may be sewed the same way as iron holders and used for pot holders. For stove polishing old stockings may be split down the back and used for stove polishing. The stockings are soft and give a fine polish to the stove and also the metal trimmings.

If silk stockings are washed after each wearing their life will be much prolonged. Another good thing to know is that if you rinse silk stockings, or any other kind, before wearing at all, they will last half as long again for the treatment.

I have found a way of keeping my silk stockings free from the ugly "runs" made by garters. I cut off the tops (about two inches deep) of a pair of old silk stockings and sew those under the tops of the silk stockings. This plan has saved me many tedious hours of darning "runs."

When ribbons are removed from lingerie, if one has a medium sized mauling tube ready at hand and rolls them on it, it takes but a minute and keeps them in perfect condition.

LOWELL READY FOR GAME

HIGH SCHOOL ELEVEN EXPECTED TO GIVE LAWRENCE TEAM GOOD BATTLE

All is in readiness, at least as far as the Lowell high school eleven is concerned for the great battle with Lawrence high on Thanksgiving day at Spaulding park. Spurred on by their recent win over Nashua, the local boys feel confident of giving the down-river bunch of athletes a good game, if not a good triumph.

Lawrence high will present a formidable lineup, composed of many veterans, seen on the gridiron last year. Whether they can maintain the same speed shown against other schools, teams thus far this season remains to be seen, but they will make the trip

THEIR GOLDEN WEDDING FLEE FROM FIRE

MR. AND MRS. ALBERT T. GREEN

Mr. and Mrs. Albert T. Green Congratulated by Their Many Friends

Mr. and Mrs. Albert T. Green, of Lowell, the observance of this happy event marked the 50th anniversary of their marriage. The celebration was held at their home, 52 North Main street, yesterday afternoon and evening. When they received the congratulations and well wishes of many friends, Mr. and Mrs. Green presided at an informal reception in the very room in which they were married a half century ago. The house in which they live and in which their married life occupies a niche in Lowell's history, and in the 50 years that have elapsed on the place has not been subjected to many changes. It was built by the town of Dracut in 1836 and was used as a school. Mr. Joseph R. Tinsley bought the place in 1857, when the town of Dracut offered it for sale, and with the exception of necessary interior alterations, the structure remains as it was in the beginning. On his death it was left to his daughter, Mrs. Adelaide C. Tinsley, now Mrs. Green.

Mr. Green was born in Plymouth in 1836, and came to Lowell as a boy, securing employment in the old Press cut mill and remaining with that mill in various capacities until 1895, save for a service of about two years in the Civil war.

Mrs. Green was born in 1845, and met her prospective husband as the Civil war was about to begin. Mr. Green served in Company G, Sixth regiment, under Captain Cady and Taylor, and very shortly after his return from the war, the happy ceremony was performed.

Mr. Green belonged to a family of 14 children, of whom six boys served in the war, all returning except one. One child has blessed the union of Mr. and Mrs. Green, Mrs. O. P. Sandberg of 79 Methuen street, Lowell. Mr. Green has three brothers, living, George of Florence, Neb., and William and Gustavus of Plymouth, and one sister, Mary J. Noyes of Plymouth. Mrs. Green has three sisters, living, Mrs. Helen A. Hastings of Jewett street, Lowell; Mrs. Sarah E. Varney of Cambridge; and Mrs. Ella M. Kirtland of Wells Beach, Me.

Mrs. Green received a pretty bouquet of roses from Mr. Thibault of the Sunday school of which she is a member.

75 Hotel Guests Driven Out in Night Clothes at Portsmouth, N. H.

PORTSMOUTH, N. H., Nov. 24.—A fire which broke out during the night in a Congress street business block adjoining the Hotel Langdon burned until nearly noon today, destroying the block and the hotel. The loss was estimated at \$100,000.

Seventy-five hotel guests who were driven in their nightclothes from the burning building lost all their belongings. Six stores in the business block were swept clean by the flames.

OFFERS FROM 100,000

Americans Seek to Enlist in Canada For Service in Europe—Hundreds Have Already Gone

OTTAWA, Nov. 24.—One hundred thousand men in the United States have offered to enlist in Canada for service in Europe, according to Major General Hughes, Canadian minister of militia. He made the statement in reply to questions regarding the theory that Germans in the United States might attempt a raid across the border.

Major General Hughes said he was in favor of accepting the men who had offered themselves. Hundreds of Americans, he asserted, are with the first and second contingents.

THIN ICE VICTIM

HUBBARDSTON, Nov. 24.—David Erickson, aged 25, was drowned shortly after noon yesterday at Bent's pond, going through thin ice while walking across the pond on his way to the main road to Gardner.

Auto racing carnival, Y. M. C. I.

WAGE LAW ANNULLED

MINNESOTA JUDGE SENDS MINIMUM WAGE LAW TO SUPREME COURT

ST. PAUL, Nov. 24.—Holding the minimum wage law passed by the 1913 Minnesota legislature to be unconstitutional, Judge Catlin yesterday handed down a decision ordering a temporary injunction against State Auditor Iverson and members of the Minimum Wage commission, from expending further money. The ruling also suspends the order of the commission fixing a minimum wage for women and minor workers to become effective today.

Judge Catlin's order makes the minimum wage law ineffective until the case has been tried on its merits. His decision will be appealed to the supreme court.

WILL DRAIN MORSE'S POND

MARLBORO AUTHORITIES MAKING VIGOROUS SEARCH FOR MRS. SPRINGER

MARLBORO, Nov. 24.—In an effort to find a trace of Mrs. Walter C. Springer, who disappeared Tuesday evening from her home at 130 Church street, Morse's pond was dynamited yesterday afternoon, to free it of ice, and work was then begun to drain the water into the Metropolitan basin. The reason for this move is that Mrs. Springer was accustomed to walk in the direction of the pond, which is about a mile and a half from the city.

Auto races, Asso. hall, Wed. eve.

KEEP HALLS LIGHTED

New Rule Put in Force Yesterday in City of Boston by Health Authorities

BOSTON, Nov. 24.—The board of health yesterday voted to enforce the following regulations in regard to lights in hallways of tenement houses: "It is hereby ordered that in every tenement house and in every house occupied by more than two families a proper light shall be kept burning in the public hallways, near the stairs, upon the entrance floor and the floor above the entrance floor every night during the year from sunset to sunrise, and upon all other floors of the building from sunset until 10 o'clock in the evening."

HE COMMITTED SUICIDE

BOSTON, Nov. 24.—"Suicide by shooting" is the report that Associate Justice Edmund Richardson made yesterday afternoon in the case of Geo. A. Hermance, manager of the Kosmos supply company at 282 State street, who was found dead in a chair there by one of his assistants. It was supposed that Mr. Hermance had succumbed to a stroke of apoplexy.

BOSTON FIREMEN CUT OFF

BOSTON, Nov. 24.—Six men had to flee for their lives when fire started shortly after 7 o'clock last evening in the basement of 12 and 14 Lincoln street, sending dense clouds of smoke to the upper part of the building where the men were at work. They found themselves in a room filled with smoke and their escape by the stairway cut off. They escaped by getting to the roof of a neighboring building.

WOMAN COP FOR BOSTON

Mrs. Steinauer is Appointed to Force by Mayor Curley

First Step to Handle Child With Kindness—No Uniform

BOSTON, Nov. 24.—Mrs. Anna T. Steinauer of 31 Fessenden street, Mattapan, announced yesterday as appointed by Mayor Curley a special police officer, has accepted the appointment, and if her name is approved by the civil service commissioners the mayor will send an order to the city council to appropriate money to pay her salary, since there is no fund out of which she could be legally paid.

Mrs. Steinauer is delighted with her appointment. She believes the official authority will arm her with power to make possible the carrying out of many ideas she has regarding the betterment of the condition of children, particularly so since her sex will make it possible to go in and talk with the mothers of young boys and girls where a masculine policeman could not.

"I feel," said Mrs. Steinauer at her home last evening, "that the first step toward good citizenship is to handle the child with kindness. Something ought to be done without arresting them. Arrests discourage them, arouse their conscience and they feel a keen disgrace. The kinder, better way is to bring out the character of the child.

"There will be no show about the office, no uniforms. Possibly a badge will be necessary. If women have this power to act we can clear away the demoralizing conditions.

"It will be possible to help the school authorities. If investigated, it will be often found that the child who was absent from school had no breakfast, perhaps no supper the night before. Necessity has forced the parents to go away early to their work before the day was properly started. If a woman can look into such houses and talk with the mothers, the condition can be greatly helped.

"There will be much street work, on corners and in dance halls. I want to try to save the girls so they won't lose their characters. Our boys are just as important as our girls. If we can save the boys, the girls will be all right.

"The minimum wage commission was correct in plan but it did not get very definite results. Much must be done in connection with the pitifully low wages and general conditions of girls in factories. These things result in improper nourishment and worse evils.

"I want to work so the poor can have something to eat, so they can live in a clean place. In other words, low wages, the high cost of food and poor housing are the foundation of the demoralized condition seen in parts of the city, parts of the state and parts of the whole country. The way to right such

conditions is to get first into the home and find out what the difficulty is. That is particularly the province of a woman, because she is a woman.

"Yes, I am delighted with the possibilities of the office."

Mrs. Steinauer is well known in municipal betterment matters. At sessions of the legislature she is a familiar figure at the state house. She has been a resident of Dorchester for many years and a conspicuous figure in varied activities, especially school affairs and public hearings.

Four years ago she was engaged with others in an aggressive campaign against what she termed "peasantizing" school children by the introduction of industries into the lowest grades, resulting in practically no academic education for the child.

In the agitation connected with the removal of the Lyman school and the Lyman school she was a prominent figure. Also she has delved deep in the questions regarding cold storage eggs and the standardizing of various kinds of coal.

Only 300 orders taken. None delivered after 6 p. m., Wednesday, November 25th.

CONDITIONS IN MEXICO

Pres. Wilson Confident of no Serious Trouble — Evacuation Without Disturbance

WASHINGTON, Nov. 24.—President Wilson said today that he had received reassuring advice of conditions in Mexico and was confident nothing serious would result to American interests in the present controversy among the Mexican generals. The president gave no details but expressed his opinion of the situation after reading a number of despatches from American consular agents.

EVACUATION OF VERA CRUZ
WASHINGTON, Nov. 24.—Administration officials who have been keeping in close touch with events in Mexico were highly gratified today that the evacuation of Vera Cruz by American military forces under Brig. Gen. Funston had been accomplished without any disturbances. They were pleased also over assurances given by General Aguilar, the new military governor of Vera Cruz, for the safety of foreign residents in that city.

In administration circles today the belief was expressed that with the arrival of Gen. Villa's forces in Mexico City all apprehension over the safety of foreign residents there would end.

MAX PUNISH CAPTAIN
WASHINGTON, Nov. 24.—Capt. Walter Hill of the marine corps may have

A Smooth, White Skin That Defies Weather

During the coming months of biting winds and intense cold, you who would keep your skin smooth, white and healthy, should turn your attention to the most effective remedy. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten condition, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. Your skin will be healthy, finely freckled, clear, soft and over-red, why not shed it? One ounce of ordinary marcellized wax, to be had at any drugstore, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly, like cold cream, washing it off mornings.

Whether the age or poor health has marred your face with wrinkles, here's good news. You can quickly remove every line by using a hairless, refreshing face lotion prepared by dissolving 1 oz. powdered salicylic in 12 pint witch hazel. The finer, smoother skin, the more youthful appearance after one application, will astonish you.

SUITS OF FURNISHED ROOMS for light housekeeping, steam heat, gas stove. Inquire at 172 Middlesex st.

to answer for any remarks on the American evacuation of Vera Cruz and the Mexican situation, even though he made them in private and did not intend them for publication.

In a telegram to Secretary Daniels today Captain Hill said he ventured the personal opinion to a friend of his father, that there might be disorders when the troops left Vera Cruz.

Secretary Daniels is disposed to consider private criticism of the administration policies by service officers as improper.

QUIET AT VERA CRUZ

VERA CRUZ, Nov. 24.—The constitutional troops, which came into Vera Cruz yesterday on the departure of the American forces of occupation under General Funston, continued today to maintain order. There have been no disturbances in the city. Mexican flags are flying over all the public buildings and the various government officials named by the constitutionalists have begun their labors. More troops entered the city today but when General Carranza will arrive is not yet known.

The commercial telegraph wires connecting Vera Cruz with Mexico City have not yet been repaired. John R. Sullivan, the personal agent of President Wilson in Mexico City, is making use of the private wires under military control for the transmission of messages from the capital to Vera Cruz. Here his communications are relayed by cable. The company's linemen are at work to repair the break but it does not appear likely that ordinary communication with Mexico City will be reestablished for some time to come.

FUNERAL OF DR. CAROLIN

LARGE CONCOURSE OF PEOPLE ATTEND SERVICES AT IMMACULATE CONCEPTION CHURCH

With every mark of public respect and esteem, the funeral of the late Dr. William T. Carolin took place this morning at 9:30 o'clock from his home, 182 East Merrimack street. It was largely attended and among those who came to pay the last token of regard were men high in the medical profession, and in the social and business life of the community.

A high mass of requiem was sung at the Immaculate church at 9 o'clock by Rev. Dennis Sullivan, O. M. I., assisted by Rev. John O'Brien, O. M. I., as deacon and Rev. James McCarthy, O. M. I., as sub-deacon. Rev. Owen McQuinn, O. M. I., was master of ceremonies. Present within the sanctuary were Rev. Lawrence Tighe, O. M. I., Rev. John P. Flynn, O. M. I., Rev. Philip Lee, Rev. Patrick McKenna, O. M. I., and Rev. David Murphy. The choir, under the direction of Mr. Charles P. Smith rendered Schmidt's mass. At the offertory the "Pie Jesu" was sung by Mr. John J. Dalton and after the elevation "Domine Jesu carissime" was rendered by Prof. P. P. Haggerty. As the casket was borne from the church the choir sang "De Profundis."

Following were the members of a delegation from the Washington club, of which deceased was a charter member: Mayor Murphy, John J. Hogan, John J. Sullivan, Joseph Molloy, Chas. E. Warren, Thomas F. Kelly and William C. Purcell.

The ushers were: Dr. Frank R. Brady and Dr. William M. Collins, and the bearers were: Dr. T. F. Harrington, Dr. Charles E. Branch, Dr. James H. Sparks, Dr. George H. Jones, Dr. Frank Hall, U. S. A., James J. Kerwin, Esq., F. B. Greenhaige, Esq., and William H. Fox.

Rev. Lawrence Tighe, O. M. I., read the committal prayers at the grave, assisted by Rev. Frs. Lee, McKenna, Murphy and Sullivan. Burial was in St. Joseph's cemetery, under the direction of Undertaker James F. O'Donnell & Sons.

Costume party, No. Chelms, Wed. eve.

WRECKED BY A BOMB
GERMAN BOMB FELL IN FRONT OF AMERICAN CONSULATE AT WARSAW—SEVERAL KILLED
WASHINGTON, Nov. 21.—A bomb from a German airship fell in front of the American consulate at Warsaw early today breaking the windows of the consulate but injuring no one within, according to a telegram from Ambassador Marcy at Petrograd.

Several persons in the street in front of the consulate were killed and wounded but none of them were Americans.

It is expected here that if Warsaw becomes a battle ground of the German and Russian armies the American consul and his staff will withdraw to a place of safety.

FOOTBALL IS WAR
LONDON, Nov. 24.—Indignation against the hitherto universally popular game of football is expressed by nearly the entire British press because almost no men enlisted as a result of the recruiting rallies at Saturday's matches.

"It is time to eradicate the football cancer," says the Pall Mall Gazette, in an article which goes on to say that not a single man was recruited at London's football match, which was attended by 15,000 spectators. A colored who lost a son at the front and was himself returning to the firing line, appeared at this game, says the paper, and pleaded with the men to enlist.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

MADE IN U. S. A.

All of the many national and local slogans scattered throughout the country since the war began have been gathered into one that is growing in importance daily. This is the very short but pithy: "Made in U. S. A." a phrase that embodies everything of a commercial nature which we have been asked to believe in and advance by our president, our political leaders, our business experts and our manufacturers. Supported by the intelligent enthusiasm of an united people, "Made in U. S. A." will symbolize the part of this nation in the trade relationships of all the nations in the world during the present struggle for supremacy between two of the great commercial countries. Without in any way striving to take unjust advantage of any power, the American people have an opportunity to substitute "Made in U. S. A." for the commercial trade mark of many another power in the markets of the world.

The Boston Chamber of Commerce, one of the many bodies booming American industry, says through "Current Affairs," its official organ: "Twenty billion dollars' worth of goods are manufactured in the United States annually. They represent practically every class of commodity. They represent the production of American raw materials in vast quantities. They represent the industry of millions of workers, not only in the factories, but also in the mines and fields where raw materials are produced, and in the transporting and distributing and selling of these goods. They represent the normal operations of American industry, now called upon to supply world needs."

There are one hundred million buyers in the American home market—the biggest market in the world. European merchants have not been slow to see the advantages of cultivating it and have captured large slices of our domestic patronage. The United States is at one and the same time the biggest producer of manufactured goods and the biggest buyer of manufactured goods. To a certain extent (indeed a great extent) our manufacturers have suffered from a peculiar prejudice which held that anything imported is better than what is made here. To many buyers the label "Made in Germany" or "Made in England" or "Made in France" has signified superiority. We have been good customers of Europe. Last year the United States bought \$70,000,000 worth of cotton manufactures from Europe, although more than half the world's supply of cotton is produced here; last year this country bought \$32,000,000 worth of iron and steel manufactures from abroad, though our steel works are the finest on earth; last year this country bought \$12,000,000 worth of hats, \$10,000,000 worth of chinaware, \$8,000,000 worth of glassware, \$7,000,000 worth of toys—all from Europe. In fact, the United States last year spent \$720,000,000 on goods from Europe, all of which could have been produced in this country.

At present it is impossible for our people to purchase most of the goods from abroad such as were purchased in other years. It will become still more difficult as the war progresses. It is therefore good policy as well as good business to make a virtue of necessity and to spend with our own manufacturers what we have been spending with our rivals in trade. Thus, an enormous gain would come directly to our home industries if we cultivated more loyalty and traded at home. Our nation is the only great country with adequate factories and with adequate help. Just now, factories of England, France and Germany are crippled in great part and expert workers are being shot down in hundreds. While regretting the loss to others, this country must be ready to meet the resultant void in trade relationships, especially in our own country.

"Made in U. S. A." can be made "A New Slogan for Prosperity" wherever the ships of commerce sail. Foreign markets look round for their old source of supplies to find most of them closed or partially crippled. Only one great manufacturing nation stands ready to meet all demands—the United States of America. It is for our business homes here and elsewhere to give "Made in U. S. A." the significance which up to the present it has not enjoyed.

FROM VERA CRUZ

Without any great booming of cannon or blazing forth of the fact, the American occupation of Vera Cruz has come to an end. The military forces under Brigadier-General Funston have been ordered out of the Mexican seaport, and have obeyed orders, removing any possibility of international friction arising from this source. Warm admirers of the administration join with its enemies in congratulating on the close of an unusual incident, but there is little enthusiasm. The American public hopes for the best, but would not be surprised at the worst. As the popular song has it, the situation "may be for years and it may be for ever," and the sincere hopes of the American public is that it will be for ever. Nevertheless there is a very direct possibility of a like occupation by American troops before long.

The great fault of the Vera Cruz occupation—which, by the way, has not been proved a failure as yet—is that it has been tentative and has achieved nothing definite except the root of Mexico for a year certainly no better, if as good. Undoubtedly when President Wilson ordered American warships to take the city he had the public opinion of this country behind him. The war was supported by an enthusiastic public opinion in his determination to avoid war at any cost, consistent with our national dignity. Yet our troops have left Vera Cruz under conditions as bad as when they went in, backed by the might of an united power. They went to preserve order, to protect American person and property, to help Mexico to get on her feet, to help her to get on her feet, and there is neither protection, nor guarantee of public order, nor indication of permanent peace. Nor does it seem likely that the war was never militarily offset, and the night of Mexico is taken as a sufficient preparation for his long and arduous journey.

Electric, machine and revolution are likely to blossom out in Vera Cruz any day now, now that our troops have been withdrawn. It is not certain whether the report will be accepted by the contending supporters of Villa or Carranza. War is threatening throughout the land, with Villa as the strong man. After helping Villa to fast place we find he has now turned on his chief and exerts what is practically supreme power, backed up by the force of arms, which has been the secret of power in poor Mexico for some years past. All manner of offences are being committed against person, property, liberty and religion. Anarchy, barterage and lawlessness.

There is a sweep like "perilous seas in

Two hours later the west is all over with sunset. Until earth's last glow is faded, no artist will catch its glow. Crimson, gold, purple, vermilion and jet are arranged in sweeps of indescribable grandeur. No Pyramidal picture or medieval page has these colors used as daringly as those held on by the artist of the sunset. Underneath it all is Lowell. Here the huge maw of the gasometer rises; there the slender mill chimneys pierce the gold with an ink finger. The smoke of the factories has been turned into gorgeous arabesques and Oriental grandeur is over everything. Soon—too soon—the glory fades and night rings down the curtain of November darkness, through which peeps little wintry stars that are waiting for the star of Bethlehem.

REALISTIC MOVIES

If you should be walking along a railroad track when a train dashes madly around the curve ahead and falls over the embankment, try and keep cool. If you should turn a street corner to be confronted with a squad of police madly rushing into a tenement from the upper windows of which hangs a limp form, try and keep cool. If you should see the sky grow lurid at midnight and should hear the whole fire department rushing creak-creak to the scene, try and keep cool. It may be only the movies, the inescapable movies, the realistic movies, the melodramatic movies. Last Sunday three deep sea actors took an old schooner at Gloucester, hoisted the sails and put out in a tempestuous sea, headed for some picturesque reefs. They were to escape before the shipwreck, to illustrate a thrilling movie story. But black-a-day! Most of the shipwreck was planned by mariners who had never sailed the seas and the little boat was not loaded with ballast. The schooner was driven on the rocks in short order, the boat could not put off, and the actor-sailors had to cling in the rigging of a real wreck until rescued by the Gloucester life-boat crew. Worst of all, the incident was so dangerous and so exciting that the camera missed most of it. Lucky for the Gloucester actors, they were rescued in the nick of time. Many movie actors have not been so fortunate. Probably there will always be dangers connected with picture making for our public must have thrills. Yet, there is a limit—even for the moving picture artists and managers.

WAKE UP, NEW YORK

Another outrage in New York, due in all probability to Black Hand activity! This time it is a fire in a tenement block which has wiped out eight lives and resulted in injuries to many others. A tenant in the block had received threatening letters for months past, warning him that unless he paid blackmail money, he would suffer. He did not pay, and he was suffered with many others. Not a week passes but New York has like experiences, and, in all probability, all

of them are not recorded. No one can tell how many such blackmail schemes are successful. It would seem that New York is reaping the fruit of crooked politics in its police department and other municipal departments. With things as they ought to be, both makers and bomb throwers should have slight shifts in New York or other American city. The entire country watches New York with amazement.

Usually in war reports as in other press despatches, tragedies are over-exaggerated. In the case of Belgian distress, however, there has been more understatement than overstatement. Recent reports from Ypres prove the might of the German guns and the determination of the Germans to reach the northern coast at any cost. Too bad, though, that the proficiency of German marksmanship and the persistence of German attack has been proved at the expense of Belgium.

Even in the event of irregularities in the recent elections, the possibility of

an investigation by the district attorney does not bring home the significance of former years. Our experience in that direction has been rather disappointing. Possibly things would be different now, however. Let's hope so.

The person who shovels the snow shortly after it has fallen is wise. To leave it on the sidewalk for a day or two is to invite trouble and make it very unpleasant for all who pass. In this, justice carries prompt punishment.

Both sides claim victory in Belgium and Russia. This cannot go on forever as every victory or claim of victory is the result of some degree of loss for both sides. Victories must be won by men and soldiers, not by press dispatches.

Lowell reads are "Made in U. S. A." Why not Lowell, U. S. A.?

Don't you feel thankful?

SEEN AND HEARD

It is a good plan to advertise. But there is no reason why a girl should scream when she is being kissed.

The fellow who leaves his wife very often when he is alive seldom leaves her much when he dies.

More people would go fishing if things were arranged so that the fish would dig the worms for the anglers.

They say the women have no sense of humor. Just take a walk and see the kind of men they cop out for husbands.

The old-fashioned boy who was taught to respect old men now has a son who believes that there is no fool like an old fool.

The Naturalists have discovered a use for the sparrow. This leaves the Red Bug in a class by himself as a consumer who never produces.

Some people are born with too much push and too little ambition. That's the reason why there are so many wheelbarrow chauffeurs in the world.

When there are three or four children in the family mother doesn't have to spend too much money on antique furniture.

A dog can wag his tail pretty fast when he is pleased. But he can't wag it as fast as a woman can wag her tongue when she is displeased.

There are a whole lot of 10-cent men in the world who have grown round shouldered from carrying a \$10,000 life insurance policy.

The dear girls enjoy a hearty laugh when they see a lot of men in a sack. But this is because the girls can't see themselves when they are chasing a car and wearing a tight skirt.

The Rabbit doesn't know anything about human nature. If he would roar when he tears back on his hind legs the hunters would run and let him alone.

AWAITING SQUARE MEAL
Two men were surprised to find a cup of tea and a biscuit given them free by an up-to-date Broadway man. They were both surprised. Half an hour later one of them broke the silence.

"We've seen the pictures now, John," he said. "We may as well get on with it. After a minute's thought, John replied:

"You can go if you want to. Ah, stay in to dinner."—Music Trades.

DODGING THE BEATEN PATH
Congressman Robert L. Doughtery of North Carolina smiled when the conversation turned to reversing the order of things. He said he was reminded of the case of Bowers. Bowers met a benevolent party on a railroad train.

As to Buying
Furniture in Boston

A young couple came into our store a few days ago and wanted to know our terms on about \$60 worth of furniture. We told them. He said he had bought \$71 worth in Boston for less down. We told him that they charge so much more in Boston that they could do so. But that we sold practically on a cash basis, and to prove it that without knowing what he got for his \$71 we would agree in writing to duplicate all he got for \$71.00 in Boston for \$35 and possibly \$50. After looking our goods over and getting our price. He said: Well, we simply got robbed and I guess you could agree to duplicate our \$71 worth for less than \$50. Why, that National spring you sell for \$3.50, they charged me \$7.00 for the same thing in Boston. Moral, look around Lowell before you leap to Boston. Buy the few "bait" they offer in their flaring advertisements. Take the bait but don't get the hook. Buy your furniture in Lowell.

BUY IT AT
A. E. O'Heir & Co.

ON HURD ST.
Where there is no bait or hook. Where you get used fair and square the year round.

EDITORIAL COMMENT

NEW PRISON WARDEN

The name of Sing Sing has been synonymous with scandal for years. Wardens have come and gone and investigations have been conducted, but the root of the evil appeared to remain always on the job. Another warden has been removed this month because he permitted a banker-convict to ride about in an automobile and because he allowed a private business as though he were an honored citizen and not a convicted rascal. It would appear now, however, that the right man for the place had been selected in the person of Thomas Mott Osborne of Auburn, N. Y.—Fall River Herald.

COMING WINTER

Winter set in with a vengeance and there could be no doubt of its arrival when the wind, sleet, rain and snow began to mix things up this week. It is a foretaste of what awaits us. Trade has already become a bit more brisk because the "seasonable" weather and the old-timers are beginning to talk about an "old-fashioned winter."—Newburyport Herald.

FIRST THRONE TO TUMBLE

The czar business has its advantages. Liquor interfering with my argument. Very well, let there be no more liquor. And that puts absolute prohibition all over the map of Europe. No initiative, referendum or recall, no election, no crusade, but just an order and exit every corner store in the empire. One day \$50,000,000 of people may drink enough vodka to float the Black Sea fleet. The next day they may not have enough of that double-mahar to wet the bill of a hummingbird.

Thus the first throne to tumble as a result of the war is that of King Alcohol. And why did Russia and turn party company? Because rum was more of a menace to the Russian in uniform than Austrian bullets. So, in order to meet the foe in front, the czar kicked the fee at home clear out of his dominions.

As a temperance crusader Nicholas Romanoff has such orators as John G.

THIN BLOOD AND DYSPEPSIA
Thin-blooded people generally have stomach trouble. They seldom recognize the fact that thin blood is the cause of the indigestion but it is.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion at once. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this condition nothing will more quickly restore appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and the enriched blood strengthens weak nerves, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite and soon the effect of these tonic pills is evident throughout the system. You find that what you eat does not distress you and that you are strong and vigorous instead of irritable and listless. You are now on the road to health and care in the diet is all that you need.

The Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little diet book free on request. Your own druggist sells Dr. Williams' Pink Pills.

On account of the prevalence of the foot and mouth disease and for the safety of the public, the board of health recommends that for the present all supplies of raw milk be boiled before used as food.

A QUARTER CENTURY AGO

Thanksgiving day in Lowell quarter of a century ago, was observed, even as it is at the present time with dances and social gatherings on the night before and with families gathering around the festive board on the holiday itself. In those days, also, rattles and dice-throwing for turkeys etc., were in vogue on the eve of Thanksgiving in the club rooms and the saloons, a custom that has long since passed from sight. For many years prior to 25 years ago, it was an annual custom to hold a Thanksgiving concert in Huntington hall in aid of St. John's hospital which for years was a big annual event and the concert of 25 years ago was in charge of the late Terrence F. Molloy, the noted tenor, and took the form of an "old folks" entertainment. A large audience attended. Mrs. Vincelli presided at the piano. The performers attracted in guests. The evening was a tour of the hall before the opening concert. The soloists were Messrs. Boyd, Burns, Molloy and McHugh and Misses McLaughlin, Curry and Cartwright. There was a chorus of 40 voices. There were humorous selections by Mr. Joseph Gray and Mr. L. E. Daddum.

Hibernian Hall

Says the old Sun: "The four divisions of the A. O. H. held a grand Thanksgiving ball in Huntington hall, Tuesday evening for the benefit of the Hibernian Rifles, attached to the order in this city. From 8 o'clock to 9 the American orchestra rendered an excellent concert program, including instrumental solos by Messrs. R. McDaniels and Thomas McCarthy. The grand march took place at 9 o'clock and was led by Charles H. O'Donnell, county delegate and Miss W. Madden, P. S. Cusly, general manager and lady, and about 150 couples, while the gallery was crowded with spectators. After the first intermission a competitive drill took place between the Hibernian Rifles of Lowell and Woburn. Fifteen competed on each side. Capt. Corr in charge of the Lowell men and Capt. O'Donnell of the Woburn company. A variety of intricate movements was executed with precision and at the close, Capt. Pratt of the Mechanics' Phalanx who was the judge awarded the prize to the Lowell company. Among the guests were His Honor Mayor Palmer and Mrs. Palmer, Hon. John J. Donovan, Hon. Jeremiah Crowley and the others of the various temperance and other local societies. Charles H. O'Donnell was the floor director, E. F. Slattery, assistant. Thomas Nevins, Thomas Delehanty, John Murray, M. J. Moran, John J. Sullivan, aids. The reception committee consisted of Hon. John J. Donovan, Jeremiah Crowley, John J. Slattery, James H. Carmichael, E. C. Plunkett, M. D. Denis O'Brien, Daniel J. Donahue, Patrick O'Rourke, T. F. Roche, Peter Davey, James F. O'Donnell, John Donohoe, L. J. McDonough, Michael Bourke, James O'Sullivan, W. J. Johnson, E. L. McQuade, S. J. Brennan, M. D. James Collins, Thomas Delehanty, J. J. McCarthy, M. D. James F. McDonough, Patrick Guckien, M. F. Connelly, secretary."

Crescent Club Ball

Says the old Sun: "Thanksgiving eve the Crescent club held its fourth annual ball in Huntington hall, a large company attending. The weather was bad, but the company was a gay and the pleasure was rich until the "gray streaks of dawn began to fret the sky." At 8 o'clock the music of the American orchestra announced the grand march and Mr. Joseph F. Donohoe and his cousin, Miss Cassidy of Watertown, followed. Mr. J. J. Moran and Miss Annie Connors led the march. The costumes of the ladies were rich and artistic. Charles B. Hogan was general manager; M. J. Kelly, assistant; Joseph F. Donohoe, floor director, and John F. Dillon, assistant. The aids were Messrs. L. S. Carey, John J. Courtney, J. D. Wright, J. J. Parley, P. C. Faveau.

Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, piles, fevers, and other dependent ills.

Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective, non-habit-forming remedy, recommended by physicians and thousands who have used it, is the combination of simple herbs with pepsin sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. For a free trial bottle write to Dr. B. Caldwell, 461 Washington St., Monticello, Ill.

Charles L. Warren, T. J. McLaughlin, Richard J. Welch, R. B. Conway, M. J. McNam, J. J. McNabb, J. W. Barry, S. C. Gallagher, D. A. Donahoe and William H. Sheehan.

The Crescent club was a social organization of popular young men, having their rooms in the Wyman's Exchange building. They were great entertainers and many a jolly social time was held at their hospitable quarters. An epidemic of matrimony put the club out of commission.

Phillips Literary Club

Says the old Sun: "Despite the stormy weather, there was a large attendance at the second annual ball of the Phillips Literary club in Mechanics hall, Thanksgiving eve. Music was furnished by Carter's band of Boston. P. A. Mehan was general manager; Charles J. Byrnes, assistant, and William B. Ready and Thomas J. Ryan were door managers. A supper was served at intermission. Mechanics hall was located in Dutton street where the Trinitarian church now occupies the building. It was a smaller hall and the scene of some of Lowell's most exclusive and most fashionable social affairs.

All Clean Young Men

In its political column of quarter of a century ago the old Sun said: "The democratic nominees for the school board are all clean young men, Dr. Halpin, Mr. Meade and Dr. Walker. The candidates in the doubtful wards are the superiors of their opponents. Let every democrat see that their names are properly crossed."

Of the three mentioned, William V. Meade has since passed away but the other two "young" men are still young. Undoubtedly, every democratic voter did see to it that their names were properly crossed, but unfortunately there was a greater number of republican voters in each of the three wards in which they were running, for not one of them landed on election day.

Highland School Flag

It's just 25 years since the flag was first raised over the Highland grammar school, and the original flag was purchased by the pupils themselves. In its report of the November meeting of the school board of quarter of a century ago, the old Sun said: "Mr. Woodies presented a petition from 376 pupils of the Highland school saying that they wished to purchase a flag by popular subscription to purchase an American flag, which they desired to have flown over the school during all sessions, and the petitioners asked that the school board provide a flag pole. The petition was granted and was referred to the subcommittee of the school with full powers. The subcommittee, after consulting editorially on the petition, had the following: "The American flag is to float from a flag staff on the Highland school. It is a beautiful custom and should be a general in Lowell. The more the children see of the stars and stripes, the more they will love the flag and the more they love the star spangled banner, the higher and purer will be their regard for the law and the institutions it represents. Let the flag float free and if any man attempts to null it down, shoot him on the spot!"

Today the flag floats over every school in Lowell, and in Massachusetts for that matter.

Locating the Postoffice

Before the present postoffice was built the old postoffice was located in the old building where Mitchell the tailor is now located and shortly prior to 25 years ago an agitation was started for a federal building, a new postoffice. Relative to the story of the battle for the site of the new postoffice, it might be well to publish the following which appeared under the heading "The Postoffice Site Battle" that appeared in The Sun just 25 years ago, almost to the day:

"Washington, D. C. November 20.—Secretary Windom has settled the controversy in regard to the public building at Lowell, Mass., by directing that the property selected for that purpose be acquired by condemnation. The owners of the property offered to give it to the government but as there are some doubts as to the validity of the title, the secretary decided that the safest and best way to secure it was by regular condemnation proceedings.

THE HEARING IN WASHINGTON

"Wednesday's Boston Post had the following despatch from Washington: "The friends of the new public building site at Lowell turned out in numbers that bewildered General Butler, at the hearing given at the treasury department today. General Batchelder, the assistant secretary, and Col. Windom, the supervising architect, sat on the dais, the latter conferring together and listening to the arguments brought forward by the friends of the site selected by the department, and the points in opposition urged by General Butler and E. P. Woods. These two and Thomas Nesmith of Lowell were the only ones present to oppose the site. Although they had a pile of telegrams of sympathy from the people at home.

"Hon. George F. Richardson appeared as the legal spokesman of the majority party, and he was earnestly supported by Mr. James W. Bennett, the Hon. Francis Jewett, Mr. E. Conant, H. Shedd and Mr. Edmund B. Conant. Others present on the same side were ex-Mayor Runkles, ex-Alderman George F. Pennington, Charles I. Hood, Charles J. Glendon, B. P. Fletcher, W. H. I. Hayes, the Rev. Michael Reenan and B. A. Smith. Congressman Greenhalgo was present to listen to the arguments but did not indicate a preference for either side. Mr. Richardson argued that from a legal standpoint the government exposed itself to no risk or objectionable limitation in taking the St. Peter's church site under the conditions imposed by the Locks and Canals company. The proposed postoffice building, he said, would not be a detriment to the church, and if the time ever came when the government wished to dispose of the land or use it for purposes prohibited by the conditions, it could acquire absolute control by taking it under the right of eminent domain.

"Mr. Bennett argued forcibly that the proposed site was much more convenient than the present postoffice building, both for the public and the carriers. He pointed out that a circle drawn with the proposed site as a center would take in or touch a much larger portion of the thickly populated districts than one drawn with the old postoffice as a center. "The proposed site, he said, was south of the American house, which is midway between the two sites and north of the proposed site, while only seven or eight miles of travel. General Butler attempted to argue that legal objections to taking the site under present conditions were insuperable and that

really there was no need of changing the postoffice from its present location. General Batchelder did not indicate what his decision would be, but he seemed to understand some of the motives which influenced some of the property holders about the present postoffice to favor the continued use of the leased building. The Lowell people will leave here tomorrow afternoon."

MORE ABOUT THE SITE

Says the old Sun a week later: "It appears that the Associated Press dispatch which stated that Sec. Windom would institute condemnation proceedings on the St. Peter's site was made too early. The secretary has addressed a letter to the representatives of the church property, informing them that if the syndicate controlling the site will bear the expense of condemnation proceedings which will not be more than \$1000, and if in addition they will give a bond to indemnify the government in case of damages being allowed the attorney-general will begin the proceedings. If the government asserts its power it can, of course, acquire the property, but the breaking of the conditions which would cloud the title may be a proper subject for damages. The site has been donated to the treasury department but the government will not accept unless the title is passed without any expense being involved. Secretary Windom and his associates are heartily sick of the whole controversy and hope it now will be settled one way or another.

MASSACHUSETTS SITE FREED

Says the old Sun also: "The restrictions on the Massachusetts site were removed by the Locks and Canals company, Thursday and a quit-claim given the Massachusetts company on the land offered the government for a federal building. This forever frees this land from restrictions. These restrictions are still in force on the St. Peter's church site and application for their removal has been made to the Locks and Canals company, but no answer has been given."

PETITION FOR ST. PETER'S SITE

And the following: "Agent Francis said that at a meeting of the Locks and Canals company a document had been submitted by the Hamilton company, to which the St. Peter's property had been sold before passing into the hands of its present owners, asking for the release of that land from certain restrictions but as the document was not in a form which the Locks and Canals company would accept, the whole matter was referred to the committee on lands, the members of this committee, Mr. Francis stated, reside in Boston, and are widely known in this city. The Locks and Canals company will deal only with the Hamilton company in regard to the removal of the restrictions from the land in question and the fact that it has passed out of the hands of the latter company may cause some delay."

How It Came About

But to make a long story short, all restrictions were finally removed and the St. Peter's site accepted by the government and the postoffice built and one of the biggest real estate "lemons" on record in Lowell, went down into history.

When the subject of a new federal building for post office purposes in Lowell came up, several sites were offered to the government at nominal figures while the Massachusetts company offered a site where the Runkles building is now located, without cost. Then came the surprising announcement that Rev. Michael Reenan had gone to Washington and had offered the government the St. Peter's church property at the corner of Gorham and Appleton street free of charge. It seems that real estate owners in the vicinity of old St. Peter's church figured that should the postoffice be located there, it would be a detriment to the corner and vicinity would become the business center of Lowell and that real estate values would jump immediately and enormously. A committee was appointed with Col. James W. Bennett at its head, to finance and see through the proposition to get the building on the St. Peter's site. They made it possible for Mr. Reenan to offer the site to the government without cost and they financed the cost of delivering the title etc. The St. Peter's land site like that of the Massachusetts company had certain restrictions on it, for it is deeded to the Locks and Canals company and would never let go of anything in its existence, without some kind of restrictions on it. The real estate owners in the vicinity of the Massachusetts site in Merrimack Square were not very enthusiastic over the location of a post office at that point, for they couldn't see where it would benefit real estate. General B. F. Butler was the legal representative of the interests what wanted the postoffice retained in the Hildreth building and in his opposition to the proposed new site, he argued that the old site was a stand located near his property than a postoffice, for he said, postoffice and banks add nothing to the brilliancy or value of real estate for they are closed up tight and in darkness by night o'clock.

At that time the late James Warren was senior member of the board of assessors and he caused quite a sensation, just when the controversy was at its height, by making the statement that had in the vicinity of the St. Peter's site would be worth more money than the existing site. And it would be worth more next 20 years with a post-office located there. Subsequent real estate history proved that Mr. Warren was right, for if the real estate in the vicinity of the present postoffice has appreciated at all it has appreciated but little and it is not cheaper today than it could have been before the postoffice went to that section of the city. Many real estate owners in the vicinity of Tower's estate paid snug sums toward financing the church site, but little and it is not cheaper today than it could have been before the postoffice went to that section of the city. Many real estate owners in the vicinity of Tower's estate paid snug sums toward financing the church site, but little and it is not cheaper today than it could have been before the postoffice went to that section of the city.

"At present Congressman Rogers is attempting to get an appropriation for a new federal building in this city, and it is hoped that the new building will be handed in a more convenient site than that occupied by the present postoffice.

THE OLD TIMER

A jolly good time at the Firemen's Ball, Thanksgiving eve.

Putnam & Son Co., 166 Central St.

WE HAVE SOLD OVERCOATS
To a "stand still" the past few days, which is the best proof in the world that
**OUR OVERCOATS ARE RIGHT
STYLES ARE CORRECT**

EVERY MODEL that is acceptable is splendidly represented in our great stock.

PRICES are lower when quality and tailoring are considered than you can get elsewhere.

FOUR of our best sellers are illustrated today. There are many others just as good as these. There is surely one here to please you.

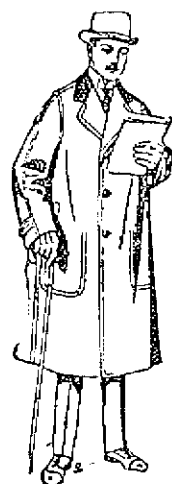

BROADWAY

A standard model, worn year in and year out, always in style. Fly front with velvet or cloth collar—serge, plaid worsted or silk lined or made up without lining, with deep silk shoulder yoke. From Rogers-Peet or from our special manufacturers of kerseys, meltons, friezes, chinchillas, Whitney beavers and fine coatings, every desirable color, for \$10, \$12, \$15, \$20, \$25 up to \$38

COLCHESTER

An exceedingly stylish, full skirted, box back overcoat, with narrow shoulders, either regular or raglan, split sleeves, cloth collar, patch pockets, the really swagger overcoat of the year. Made from double faced novelty cloths with fancy backs, Scotch and English fabrics, fancy tweeds and chevrons in entirely new color combinations. Many are water-proofed. \$15, \$18, \$20 to \$40

BALMACAN

One of the most popular models of the season, a great, roomy single breast, button through overcoat, with kimono sleeves and convertible collar, with patch or slash pockets. Made up unlined with deep safine or silk shoulder yokes, of chevrons, rough-faced tweeds, novelty cloths and chinchillas. Many of them water-proofed. \$10, \$12, \$13.50, \$15 up to \$38.

KILDARE

An extremely smart form fitting, double breast, high waist young men's overcoat. Made with a deep center vent, with velvet or inlaid velvet collar of novelty cloths, and fine knot chinchillas in blue, bottle green, heather and oxford colors. This overcoat is the very newest garment shown for young men. \$12, \$15, \$20, up to \$28.

WHAT THE FRENCH MAID SAID

CORRECT BREATHING

"Oh, I'm out of breath," panted Marjorie as she stood in the doorway of her aunt's room one November morning holding her chest.

Her aunt looked up in astonishment, and remarked, "One so young should not look so easily so tired. I know all the ways and where-fores of breathing and I wish you would ask her to tell you about it."

Marjorie noted just a slight intonation of disapproval in her aunt's voice, so she did not argue the point but straightway sought out Marie, who was engaged in darning stockings.

"Marie, do tell me how to breathe like a human. Auntie seems to think that I do not know how, just because I greeted her while I was out of breath."

"Well," laughed Marie, "madame is very rigid in her opinion of people and their habits, and maybe she does not wish to see her little niece develop unhealthful ones."

"Upon rising," she continued, "you should stand before an open window and indulge in the following breathing exercises, which should be practiced before much wearing apparel has been put on, or at least before the corset has been adjusted."

"Begin by inhaling deeply—the length of time consumed for each breath should last from five to 15 seconds and increase it as one enlarges the air cells and becomes accustomed to inhaling. Hold the air in the lungs as long as one will can, and then exhale—consuming the same amount of time in discharging the air as you did in inhaling."

"Both inhaling and exhaling should be done slowly. The inhaling should be done through the nostrils while the exhaling should be done between the lips which should be puckered as though you were about to whistle; however, the cheeks are not to be distended."

"This breathing process should be repeated for about five minutes. There is no better method for thoroughly cleansing the lungs."

"Outdoor sports are excellent for deep breathing exercises if you remember what I have told you, to breathe through your nose, and not through your mouth. And the same, when you sleep."

"What sports?" asked Marjorie, beginning to show interest.

"Why running games, like tennis or ball catching, or tag. Don't you like those?"

"Yes, I do, and I think I will go out now and have a game," Marjorie laughed.

Here Tabor's famous 6th Regt. band at the Armory, Thanksgiving eve.

THE RABBIT'S FOOT
BY GWEN SEARS

THE LIPS IN COLD WEATHER
During the cold weather, look about you in the street cars and shops and observe the number of women with cold sores and with chapped, bleeding and broken lips.

You immediately excuse them on the ground that the weather has been the cause of it. Maybe it is, but it was her own fault. These women have neglected to take care of their lips, and the ugly blemishes are their reward.

Before going out into the cold it is an excellent idea to rub the lips lightly with cold cream or vaseline if you do not use a rouge stick. The rouge stick, which contains a greasy substance, prevents blemishes of this nature, but not all women care to use it. Therefore a light dash of a good cream or a drop of glycerine rubbed into the lips will prevent the biting winds from chapping them. Do not moisten the lips when you are out in the cold.

A cold sore gathers and you find it is beyond your control, the quickest method of drying it up is to rub it with camphor ice every night before retiring. Dust with powder before going out into the cold air.

Nothing mars the beauty of a woman's face as much as an ugly blemish on the lips. They should be kept as soft and velvety as the inner petals of a rose at all times.

HEADACHE
Sick or nervous headaches always result from a torpid liver or a disordered stomach—cure the liver, or sweeten the stomach, and the head is cured. The surest way is to take

SCHENCK'S MANDRAKE PILLS
They invariably relieve all ailments resulting from liver or stomach trouble—quickly and permanently remove giddiness, palpitation, nervous indigestion, constipation, etc. Purely vegetable. Plain or Sweet Coated. 30 YEARS' CONTINUOUS SALE PROVES THEIR MERIT. Dr. J. H. Schenck & Son, Philadelphia

Store Reopened
All persons having clothing at this store are requested to call for same. All persons having claims against the store will please call in order that immediate adjustment may be made.

STRANGE DISAPPEARANCE

Marlboro Case Veiled in Mystery
—Case of Man Who Lived 56
Days Without Food Recalled

(Special Dispatch to The Sun)
MARLBORO, Nov. 24.—The sudden disappearance of Mrs. Walter C. Springer, wife of a prominent business man here, from her home last Tuesday and the absolute veil of mystery which surrounds her leaving which has baffled solution for a week, despite the efforts of the entire police and fire departments and more than a thousand citizens of this city and nearby towns, who have searched the countryside in vain, recalls one of the strangest cases of a disappearance ever known in this country. Marlboro in the last dozen years has known a number of similar cases and in every instance in the past the missing party has eventually been discovered.

The central figure in one of these incidents of the past is now a well known business man here, enjoying normal health, notwithstanding that he went through an experience, in two

months of wandering, so extraordinary as to be almost unbelievable. The man is William D. Hanley, 28 years old, who is employed in the hardware store of his brother, John J. Hanley, at 131 Main street.

On April 20, 1911, with a year after his marriage, William D. Hanley, one of the most popular young men of Marlboro, dropped from sight as if swallowed up by the earth, leaving behind him no intimation of the reason for his disappearance, or no clue on which his friends and relatives could base a theory for his going. The whole city and eastern part of the state were aroused as they are now over the disappearance of Mrs. Springer. Searching parties were organized, lakes and ponds were dragged and the whole countryside searched without a single trace of the missing man being found.

Finally the search was given up and the case evolved a theory of family troubles to explain Hanley's dis-

HOW PARIS STYLES MAKE MUCH HAIR FROM LITTLE

You have noticed the prevailing hair styles, which are Parisian in make it impossible to use the hair because of the simple lines which conform to the natural shape of the head. It therefore becomes necessary to make your own hair look as heavy as possible. This is not a difficult task if you are careful to keep it perfectly clean. In washing the hair it is not advisable to use a make-shift, but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be as fluffy as it will look much heavier than it is. Its lustre and softness will also gain the health which insures hair growth. Adv't.

appearance and soon apparently authentic reports of his being seen in several cities in the west were received and Marlboro finally became convinced that Hanley had run away to escape scandal or trouble.

66 Days Without Food

The incident was nearly forgotten, when on June 15, 1911, two employees of the Metropolitan water system while walking through the woods about five miles south of Marlboro, discovered something that resembled a man's body lying on a couch of pine needles beneath a tree in a secluded part of the woods. Assuming that the man was dead the two men bent over him to make an examination and were astounded to see that the supposed corpse was breathing. And was quickly summoned and some of those present were able to identify the disheveled and emaciated form beneath the tree as William D. Hanley. He was taken to the Marlboro hospital and after four months of treatment and rest fully recovered his faculties and health although at the time he was found he was dazed, apparently blind, and weighed only 55 pounds.

There is no question but that Hanley's mind was a complete blank during all of the 66 days that he was missing and since he recovered his health he has never mentioned the experience as far as is known.

The most remarkable part of the whole affair is the fact that there is every reason to believe that Hanley never tasted food during the entire 66 days he spent in the woods. The place where he was found lying was absolutely free from any evidence that would show that the man had eaten while there, although it was apparent from the condition of the couch on which he was lying that he had been in that spot during practically all the time he had been missing. The line of the man's form, when it had pressed into the pine needles and earth could be plainly seen and the roof of a tree on which his head rested was worn off as if smoothed with sand paper.

Lived in One Spot
From the couch beneath the tree to a small brook twenty feet away a path had been worn down through the

leaves and moss to the earth where Hanley had travelled back and forth for a drink of water. His clothing was moss-grown and falling from his body when found.

The spot where he was found was visited by hundreds who are ready to vouch for all the facts as told above. Many physicians examined the man while he was in the hospital and practically all agreed that Hanley had absolutely nothing to eat during his 66 days of exile. Many theories to account for the man being found alive have been advanced, but the most tenable is that he was stricken with fever and wandered into the woods while in a sort of delirium. The excess temperature created by the fever, it is thought, supplied a sort of nourishment and stimulation to his body and prevented him from dying from cold and exposure.

No definite explanation of how he managed to exist for such a long period in the open will ever be attained as there is no similar case on record in medical annals.

There have been many other mysterious disappearances in Marlboro, but the Hanley case is considered by those familiar with it as being the most unusual case of its kind ever known.

BARRETT AHEAD IN RECOUNT

His Lead Increased by
Three Votes Over
Donnelly

Inaccuracies Shown and
Evidence of Tampering
With Ballots

The recount of the aldermanic vote as petitioned for by Commissioner James E. Donnelly was concluded last night, shortly after nine o'clock, and the result showed that Mr. Barrett had increased his lead over Mr. Donnelly by three votes. The original count gave Mr. Barrett a lead of 9 over Mr. Donnelly and the recount increased Mr. Barrett's lead to twelve. The final standing was as follows: Barrett, 2193; Donnelly, 2181. Both candidates lost votes by the recount. Donnelly losing 8 and Barrett 5, the original figures given out on the night of the preliminary election being, Barrett 2198, Donnelly 2186.

The recount, of course, was general and included all of the ballots cast for aldermen at the primaries. There were many minor changes in the lineup of the candidates but the recount did not change their positions at all. The comparative figures of the first eight candidates, the first four of whom are nominated, are as follows:

	Orig.	Recount	Gain or Loss
Putnam	2098	2094	L 4
Duncan	2503	2523	G 20
Miskella	2424	2409	L 15
Barrett	2198	2193	L 5
Donnelly	2186	2181	L 5
Campbell	1856	1834	L 22
Ricard	1854	1868	G 14
Brown	1728	1721	L 7

The counting seemed to be quite reliable and accurate as will be seen from the changes indicated above showing that Duncan gained 20. Miskella lost 15 and Ricard gained 14. The recount revealed what appeared to be a very palpable attempt to change votes from one candidate to another, the crosses opposite the name of a certain candidate being marked in the same hand marked opposite the name of another candidate. It was a matter that should not be allowed to pass unnoticed if there is actual evidence of fraud.

A RARE MUSICAL TREAT
GERMAINE SCHNITZER, VIENNESE ARTIST, GIVES CONCERT AT MIDDLESEX WOMEN'S CLUB

The piano recital given yesterday afternoon before the Middlesex Women's club, by Germaine Schnitzer, the young Viennese artist, was one of the most delightful musical treats ever given in this city. Charming sentiment and subtle sensibility were blended with technical perfection to such a degree that one did not know whether to admire most the skill of the interpretation or the soul of the music. Possessed of youth and abundant temperament, Miss Schnitzer proved herself an accomplished musician in the real meaning of the abused phrase. Under her vigorous treatment the full tones of the sonorous passages were given forcibly and again the delicate undercurrent of a trickling melody ran on like a little woodland stream in June. Those who heard the fine artist yesterday will look forward to a repetition of the concert, or one akin, as to an anticipated delight.

2 DAYS OF

An Extraordinary Selling of

White Muslin Underwear

At **69c** Each

Today and tomorrow we offer these most unusual bargains in ladies' muslin underwear; rare money savings even for our underprice basement, where at all times we offer attractive values. There are several hundred dozen included in the following, all of which we expect will go before the sale ends tomorrow night.

Every garment in this lot is clean and fresh from the manufacturer—bought to help him out, at a most attractive discount.

\$1.00 and \$1.25 NIGHT GOWNS, 89c and \$1 PRINCESS SLIPS, 89c TO \$1.25 COMBINATIONS, AT 69c

Made from fine nainsooks and crepes, trimmed with new laces and embroideries, high or low neck with short sleeves.

Made of fine quality nainsook, trimmed with beading, ribbon embroidery or lace.

Drawers and skirt combination, made in a fine grade of nainsook and seersucker, trimmed most attractively.

39c to \$1.25 SKIRTS, AT 69c
A most unusual collection of long white skirts, extra fine quality—long cloth, trimmed with

hamburg embroidery and beautiful shadow laces.

These undermuslins go on sale today and you ought to be one of the first to receive your share of these exceptional values.

BASEMENT BARGAIN DEPARTMENT

b—Carnaval Op. 9.....Schumann

a—Ballade A minor.....Chopin

c—Three Etudes.....Saint-Saens

c—Toccata.....Saint-Saens

b—Sous Bois.....Saint-Saens

b—Venezia e Napoli.....Liszt

The Bach number was capably interpreted, fine feeling for contrasted values being blended with splendid technique. Full of life, color and romance was the rendering of the carnival, with its dancing rhythm in which are introduced all the whimsical puppets of ancient pantomime. Grace and subtlety ran through this number, the jewel-like notes sparkling in their crystal lucidity. The Pachelbel proved a very quaint piece, carrying an aroma of staccato and more romantic days. The Chopin numbers were equally well rendered, the Ballade in

particular revealing delicacy of treatment and fantastic tracery. The Toc-

cata of Saint-Saens was given with a

dash and abandon that spoke of al-

most absolute mastery of the instru-

ment. In a little piece of Staub and

in the Liszt number at the close Miss

Schnitzer gave a graceful and artistic

interpretation, working her audience

up to a rare degree of enthusiasm.

Being recalled, she added another

splendid number to the program. It

was an afternoon of music calculated

to please and elevate the most fasti-

dious and the Middlesex Women's club

may well strive to bring the charming

interpreter here again.

the president, Alice E. Goodwin in

the chair. The nomination of officers

was held, one new member was in-

stituted and the president announced

that the winner of the endless chain

contest was Mrs. Elizabeth Dexter.

The meeting closed with the salute to

the flag and the singing of "Ameri-

ca." The officers nominated for the

coming election were as follows:

President, Alice Goodwin; senior vice

president, Caroline Burr; junior vice

president, Isabel Ellis; chaplain,

Felix Chandler; historian, George

McCoy; patriotic instructor, Rose

Coleman; conductor, Jennie Jones; as-

sistant conductor, Adalberto Richard-

son; guard, May Lincoln; assistant

guard, Della Cunniff.

GOT RID OF TOBACCO HABIT

See the photo of H. B. McCulloch. He's a happy man since becoming freed from the slavery of tobacco that was making him miserable and shortening his life—the same as it is doing to others. Now he writes: "I was a tobacco user for many years, wanted to quit, but couldn't find anything to help me. I smoked continually until nervous, sleepless and almost dead-and-out. Now I am completely rid of the habit, sleep well and am telling these facts for the good of humanity." Whoever wants to get rid of the habit of smoking or chewing should write to Edward J. Woods, 1841 A. Station E. New York City, and get the valuable book that will be mailed free.

AUTOMOBILE NEWS

IMPROVEMENT OF ROADS

Federal Co-operation to Assist Several States in Construction of Main Highways Favored

That exactly the same reason does not exist in the several states for the improvement of their roads was set forth in the unanimously adopted report of the resolutions committee of the American Road congress just held in Atlanta, Ga., with the largest attendance ever attracted to a highway meeting.

With delegates from all over the country it was fully followed that Federal aid in good roads called for much attention in the deliberations of the congress, accentuated by the fact that the American Automobile Association cooperated with the American Highway Association in the conduct of the notable gathering.

Chairman W. Tom Winn of the resolutions committee presented this reference to "Federal Co-operation": RESOLVED, that the American Road congress emphatically endorses the principle of federal cooperation toward the construction of main highways, and thus assist the several states to build the main market roads in the one half of the country which is devoted to agriculture and to build through main roads in the one half of the country which is not predominantly agricultural, but whose prosperity depends upon mining, the raising of live stock, and the presence of the health seeker and tourist.

Congressman W. P. Borland made the principle address at the "Federal Aid" session, presided over by Chairman C. C. Bland of the A. A. A. He said that the American Road congress representative thus summed up the situation: "It is easy enough to shout 'good roads' and to convey the adroit impression on the minds of every hill farmer that he will have the road pass his place; but when we get down to practical business we find that only a very limited percentage can ever be improved to a high condition and that these roads must be the ones which will serve the greatest number of people. It is very easy to defeat the whole plan by appeals to the prejudices of these voters who would be led to believe that they will get no direct benefit from the roads. It is possible even to inflame them to high indignation against the people whom they think will be benefited.

In today's issue the Hub Garage, 610 Middlesex street, announces that they are able to take all orders on any kind of auto repairing; also that they sell a full line of auto supplies. This garage, recently opened employs only skilled workmen who have had much experience in automobile repairing. They specialize on Maxwell cars.

The Donovan Harness Co. make a timely announcement today when they advertise chain shoes which are so indispensable during the winter months when the roads make the horse slip. The feature never slip chain shoes prevent such a catastrophe and make the horse sure-footed. They can be obtained in all sizes at the Donovan Harness Company.

Joe McGarry reports an excellent sale during the past three days, of Wood, and Red-o-Spud chains and Pyro. Joe says that he has had to telephone to Boston twice during the last week for

wheelers offering a reliable means of so doing as this over the ground in a matter of hours there is the minimum railway service.

PLAN WINTER ENTERTAINMENTS
With the arrival of winter months of the motorcycle clubs of the northern states are planning indoor amusements to keep up club interest during the season when it is too cold to make outside excursions. The first of a series of such events planned by the Day City Motorcycle Club was a Halloween party in connection with which they staged a miniature county fair. The club is also arranging parties for Thanksgiving and Christmas.

CLIMBS MT. TOM
On a three-speed motorcycle, M. R. Griswold, of Holyoke, Mass., recently climbed to the top of Mount Tom, 1290 feet above the sea level. This is said to be the first time that the summit of this mountain has ever been reached by a motor propelled vehicle.

NEW MEMBERS
During October, there were 318 motorcycleists joined the Federation of American Motorcyclists. Of these, 145 were added to local F. A. M. C. clubs. There were 250 renewals during the month, Ohio leading the other states with 32. New York state brought in the greatest number of new members, 51.

MORE WAR MOTORCYCLES
A motorcycle corps is to be added to the United States troops now stationed at Fort Sam Houston, Texas. Motorcycles have already proved their worth in carrying dispatches along the Mexican border, and officers believe that a motorcycle squad should be made a permanent part of the army.

MOTORCYCLE NOTES
January 2 to 9 is the date set for the automobile and motorcycle show in New York city. The exhibit will be held at the Grand Central Palace. Inquiries are being made concerning the price on 100 motorcycle sidecars, which are said to be for use in the European war. A motorcycle trip to the Ozark Mountains is the way Jesse M. Arnold, of Little Rock, spent his vacation this summer. Up to the first of November, 20,000 motorcycles have been registered in Ohio since the first of the year.

Vermont Turkeys,
8 to 10 lbs. 22c

Owing to their size, and as they come from a farm other than the one we receive our "special order" from, we have marked them a little lower than the others. Nevertheless, they are plump, good eating and meaty birds.

Vermont Geese
22 Cts

If your liking is towards geese, don't neglect looking over our stock. These are beauties and their wholesomeness predicts an enjoyable dinner for the purchaser.

Cranberries, qt. 5c
Others, smaller than the above, 3 quarts for 10c
Florida Oranges, large and juicy, doz. 20c
Sweet Potatoes 13 lbs. 25c

SPECIAL—FLYNN'S THANKSGIVING BASKETS \$2.00
Believing that we can better serve the people who cannot afford to spend the money that is involved in the selecting of Thanksgiving Day's dinner, we have made up several baskets which we will sell for \$2.00 each. These contain every article of food necessary for a dinner for 12 persons. The baskets have everything that will be needed. We invite you to inspect them before purchasing. They are easily worth much more than we are asking for them.

FLYNN'S MARKET

137 Gorham St. Tels. 4693-4694

BEST VERMONT TURKEYS

These "Vermonters" will be the highest priced as well as the choicest and meatiest turkeys that we will have in our market for Thanksgiving. Of a special order, placed sometime ago, and knowing the attention and care given to the "birds" on the farm from which they came, we can guarantee them to be solid and sweet clear through to the bony framework of the body. We recommend the purchase of one or more of these to the women who have the purchasing of the dinner for exacting people. These turkeys will be all priced 25 cents; none in this lot will be sold for a lower price. They are of all sizes.

25c

Turkeys, Our Cheapest 18c

While these are our lowest priced turkeys, the difference in price doesn't signify the same difference in the quality of the meat carried on them over our other turkeys. If you want a good turkey at a low price, look these over.

Chickens from Nearby Farms 25c

These "broilers" average from 5 to 7 lbs. in weight, and certainly compose one of the best stocks of chickens that we have ever handled, and at that, we have always specialized in active chickens. Come and examine these. You can not do any better in either the quality of the bird or the price elsewhere. They are of the fancy roasting variety.

Vermont Ducks
22 Cts

"Just go the limit on these ducks," said the man we purchased them from. They are all first quality birds and we know that they will be good eating. Roast Duck is New England's own Thanksgiving dinner; you know.

FOWLS, Good in Quality But Cheap in Price
15c to 20c

For the people who cannot afford to pay the fancy prices that Vermont Turkeys, of necessity, must bring, we have purchased an excellent lot of fowl that will make a dinner fully as enjoyable as a much higher priced turkey. The lot is quite large and contains some good specimens of fowl.

Large Spring Lamb, lb. 12 1-2c
Roast Pork, lb. 14c
Sugar, lb. 5 1-2c
Pascal Celery, big bunch. 15c
Boston Market Celery 10c

New Mixed Nuts 2 lbs. 25c
Fancy Apples, pk. 20c
Fresh Pig Hams, lb. 15c
Potatoes, pk. 16c
Onions, pk. 15c

MATRIMONIAL

With the Rev. Dr. Daniel J. Kehrer, pastor of the parish, as the officiating clergyman, Mr. Thomas J. Durkin of Lincoln street and Miss Katherine L. Morris, daughter of Mr. John Morris of Whipple street, were united in marriage at St. Peter's church this morning.

Attired in white crepe de chine and carrying a fragrant cluster of white roses, the bride looked loveliness itself; while the bridesmaid, her sister, Miss Ida Morris, also with a beautiful bouquet of white roses, was most attractive in her gown of blue crepe de chine. Mr. John Durkin, brother of the groom, was best man.

After the marriage ceremony, the wedding party returned to the home of the bride, where a wedding breakfast was served. This enjoyed, Mr. and Mrs. Durkin left on their wedding tour after having received innumerable congratulations and good wishes, which were laughingly augmented with showers of confetti. They will be at home after Jan. 1.

Many handsome and costly were the gifts showered upon the happy couple by their relatives and friends, for Mr. and Mrs. Durkin have an ever-enlarging circle of friendships among the young people of Lowell and surrounding cities. Not the least of these is that felt toward them by the newspaper staffs of the two dailies, where their marriage has created unbounded interest. After her graduation from the Lowell high school, Mrs. Durkin became a proofreader on the Courier-Citizen and several years ago came to the Sun office to take charge of its proof-reading department. In the performance of this duty, her pleasant disposition has won her many friends. Since his graduation, also, Mr. Durkin has been continuously employed upon The Sun, where he learned the printing business and became a valued member of the composing room staff.

DEATHS

JEFFROY—Died yesterday at his home in West Chelmsford, Robert B. Jeffrey, aged 61 years. He leaves his wife, Emma L., four brothers, John, Henry of West Chelmsford, Charles of Bristol, N. H., Frank H., of Worcester, George L. of Lowell, and three sisters, Mrs. A. C. Morrison of Lowell, Mrs. E. E. Mansur of Lowell and Mrs. David L. Greig of Westford.

GOOD-BYE INDIGESTION!

Rheumal salts Brings Quick Relief

Indigestion is beaten! The misery of poor health due to poor digestion is over—for those who know Rheumal salts, the wonderful effervescent drink.

No more sour stomach, griping pains, rumbling of bowels and trembling limbs—nothing but a desire to eat what you want when you want it—without any "kick back."

Your health depends largely upon what you eat and how it is digested. Undigested, fermenting, putrifying food is one of the greatest handicaps your body has. And it is all unnecessary, if you let Rheumal salts help you.

If you are bothered with indigestion, ask your druggist for about five ounces of Rheumal salts; take two teaspoonfuls in a glass of water before breakfast each morning and in a few days you will be able to digest your food in a perfect manner.

Rheumal salts is very inexpensive. It does not cause nausea. It is delicious to take and is delightfully effervescent. Rheumal salts is prepared by the famous Rheumal salt Company, Minneapolis, Minn.

FUNERALS

KINGSBURY—The funeral services of John Miller Kingsbury were held at his home, 1087 Bridge street, yesterday afternoon. Rev. Caleb E. Fisher, D. D., conducted the services. A delegation was present from Centralville lodge, No. 10, and the D. R. M. was represented by Norman W. White, George Houle and Edmund Crompton. The Lowell Retail Grocers and Butchers Association was officially represented by President Edwin S. Fitzpatrick and Treasurer Edward M. Bowers. Two many beautiful flowers testified to the esteem in which deceased was held. The bearers were: Frank R. Stone, Freeman M. Hill, Alben Severt, George R. Palmer, Daniel P. Knowlton and William M. Sherwell. Burial was in the Edison cemetery, in charge of Undertaker John A. Weinbeck.

Fine prizes, No. Chelms, Wed. eve.

FUNERAL NOTICE

BUTTERFORD—The funeral of Mrs. Hannah Butterford will take place Wednesday morning, (Nov. 25), from her late home, 175 Adams st., at 8:15 o'clock. High mass of requiem at St. Patrick's church at 9 o'clock. Interment will be in St. Patrick's cemetery. Undertaker Peter H. Savage.

BUTTERFORD—The funeral of Mrs. Hannah Butterford will take place Wednesday morning, Nov. 25, from her late home, 175 Adams street, at 8:15 o'clock. A high mass of requiem will be sung at St. Patrick's church at 9 o'clock. Interment will take place in St. Patrick's cemetery under the direction of Undertaker Peter H. Savage.

Fancy costumes, No. Chelms, Wed.

SALVATION ARMY DINNER

A Thanksgiving dinner, consisting of roast chicken and all its fixings, will be served to about 30 men at the Salvation Army Industrial home on Fletcher street, Thursday noon. No special collections are being made for this and it will be paid for out of the regular treasury of the organization. The bulk of the Salvation Army work comes at Christmas time when baskets of food and other useful things are distributed to the homes of the poor. However, Thanksgiving will not be passed by unnoticed and over 20 men who are unable to work or who have been unfortunate and have no homes to go to will receive a good meal at the Industrial home on that day.

GERMANS IN RETREAT AFTER RUSSIAN VICTORY

Gen. Von Hindenburg's Army Experienced Serious Reverses at Hands of Russians

LONDON, Nov. 24.—General Von Hindenburg's army which last week was sweeping toward Warsaw in its second advance through Russian Poland today is reported from Petrograd to be in retreat after having experienced serious reverses at the hands of the Russians who, having been reinforced, made a brilliant stand between the Vistula and Warta rivers.

The same despatches that tell of General Von Hindenburg's reverses, however, say that German reinforcements were being brought up so that another great battle is likely to develop on a line nearer to the frontier of Russia, where the Germans will have the same chance of receiving a vigorous offensive as had the Russians in the present instance.

General Von Hindenburg has about 400,000 men but if the Petrograd report is accepted they have been separated, badly cut up and thousands taken prisoner so that they will require reformation and rest after the severe punishment inflicted upon them following their daring advance into the heart of Russian Poland.

In the western arena of the war the present lines of battle seem to be frozen into position as if in conformity with the wintry weather conditions. Rheims, Soissons and Ypres continue to

suffer from the cannonade of the Germans that has been going on for weeks but there has been no renewal of the concerted German attempt to break through to the coast, although all signs seem to indicate that they may undertake this movement again at any moment. Still more troops are being brought up and it is now said the plan is to reach the French coast by December 15.

The Germans show signs of being staggered by their enormous losses in fliers and despatches from Berlin assert that the German troops are far better able to stand exposure to the cold than are the allies. The forces of Emperor William, these despatches claim, are trained and clothed for just such emergency while the troops of the allies from the south of France, from Morocco and from India must necessarily suffer greatly.

WANT STATE ROAD

A state road is being advocated from North Chelmsford to Groton, and yesterday a number of residents of Westford, Chelmsford and Groton called at the courthouse in Groton street, where they held a conference with the county commissioners, who had been petitioned to build the road. There was no opposition to the project, and it was decided that the various towns will petition the state highway commission, working jointly with the county commissioners.

LONDON ADMITS BRITISH DEFEATED IN EAST AFRICA

Desperate Assault on German Town Proved Disastrous — Casualties in Operation Were 795, Including 141 British Officers and Men

LONDON, Nov. 24.—The official press bureau makes public the following: "In East Africa it appears from the latest information that as an important German railroad terminus was reported weakly held a force was sent from British East Africa to seize it. On the evening of Nov. 2 one and one-half battalions landed within two miles of the place and became heavily engaged just outside the town. But as the enemy were in much superior strength this force was compelled to fall back and await reinforcements.

"At 11 a. m. on the 4th the attack was renewed. Within 500 yards of the position the troops engaged came under a heavy fire on their left flank. In spite of heavy casualties the 101st Grenadiers actually entered the town and crossed bayonets with the enemy. The North Lancashire regiment and the Cashmere Rifles on the right pushed on in support under a heavy fire and also reached the town. They found themselves opposed by tiers of fire from the houses and were eventually compelled to fall back to cover 500 yards from the enemy's position.

"The losses were so heavy and the position so strong that it was considered useless to renew the attack and the force re-embarked to return to its base to prepare for future operations.

"From recent reports just received, the total casualties in this unsuccessful operation were 795, including 141 British officers and men. The wounded are mostly doing well. Many are convalescent."

"The official press bureau adds that the above casualties were included in the statement recently made by Lord Greve in the house of lords.

GERMANY HAS NO DESIRE FOR PEACE

Berlin Paper Says Reports are Probably Inspired by British—Position of Germans Favorable

BERLIN, Nov. 24.—The Cologne Gazette declares that the reports of a German desire for peace which it says are probably inspired by the British belong to the region of higher political idiosyncrasy.

might make Germany desirous to conclude peace.

The position of the Germans, neither in the east nor the west, it continues, is critical. The German military undertakings on all the battlefields are progressing favorably. Neither the military nor the political situation contain another reason which

GERMANS PLACING ARMED MOTORCYCLES FOR USE ON BELGIAN CANAL

LONDON, Nov. 24.—The Times correspondent in Flanders says the Germans are placing in shape a large number of armed motorboats for use on the Belgian canal. They are, he says, high in engine power and are armed with quick firers.

GERMANS SURRENDER KILLED HIMSELF

Entire Regiment Surrendered to Russians — Petrograd Reports Russian Victories

PARIS, Nov. 24.—The correspondent at Petrograd of the Matin says: "The Russians after having checked the German offensive on the Ploetz-Jaczen front gained on that side a brilliant decisive victory. The enemy who had heavy losses is flying with all speed toward the German frontier. An entire German regiment surrendered to the victors.

"The Russians are energetically pursuing the enemy.

"The Russians also are vigorously attacking along the Genshchowa-Cracow line. This day means to mark one of the most important and perhaps decisive phases of the war."

P. H. Nolan Was to Have Testified in Court Today

ST. LOUIS, Nov. 24.—P. H. Nolan, promoter of New York, Pittsburg, Philadelphia, Milwaukee and St. Louis, shot and killed himself in the offices of the Mutual Brewing Co. here last night.

This afternoon he was to have testified in an involuntary bankruptcy proceeding against the brewery company of which he was chief organizer, vice-president and general manager.

Nolan had organized mutual brewing companies in New York and Pittsburg. He was editor of the "Lancet" Trades Gazette, published at New York. The recent partial loss of his eyesight, friends say, caused a decline in his business ability and thereby led to the financial troubles on account of which, they believe, he ended his life.

Good old music at the Tremont Ball, Armory, Thanksgiving eve.

MIND BLANK TWO WEEKS

ANDREW W. ASHLEY REGAINS HIS MEMORY AT MARLBORO HOSPITAL

MARLBORO, Nov. 24.—His mind blank for nearly two weeks, Andrew W. Ashley of New Bedford, now finds his memory of past events fast returning.

Mr. Ashley, who became a patient at the Marlboro hospital ten days ago, came to himself yesterday afternoon. He recognized all around him, especially John Cummings of Boston, a friend who saw a picture in the paper that resulted in identifying the patient after he was taken to the hospital.

Dr. C. W. Smith, Mr. Ashley's physician, thinks it is only a question of time when he will be as well as ever. The doctor believes Mr. Ashley's mind was so blank as to cause a lapse of memory.

It was in that condition that Mr. Ashley appeared in Marlboro 12 days ago. How he got here, or what caused him to come, he does not know. He told the hospital authorities that he left his lodgings on Beacon street, Boston, to keep an engagement with a man of his acquaintance. He remembers nothing more until he walked into Dr. Smith's office.

He could not tell his name or where he belonged. Until last Tuesday nothing could be learned of his identity. He did not know his name, nor could he tell the name of any friends or relatives. He knew the seriousness of his condition, but was powerless to remedy it.

At 10 o'clock last Tuesday by his wife and Mr. Cummings, Mayor Ashley visited his nephew the following day.

While the patient was aware of the identity of his relatives and friends, he had no recollection of the past. For a time there appeared no change in his condition, and it seemed as if he might continue in the state in which he came here. Suddenly, however, he brightened up perceptibly, and today he appeared to have clear knowledge of past events. He said that he has been manager of theatres in New Bedford, Haverhill, Boston and Lynn.

During the time he has been at the Marlboro hospital he has had a fairly good appetite. He says his weight during that time has dropped from 135 pounds to 136.

At 10 o'clock at the hospital are of the opinion that identification of the patient was the principal influence that brought about a return of memory.

RECORDED AT HARVARD

CAMBRIDGE, Nov. 24.—Two shocks were recorded on the seismograph at Harvard college today, the first at 7:11 o'clock and the second at 7:17. The distance to the origin of the earthquake was estimated at 2170 miles from Cambridge. The distance curve skirted the coast of southwestern California and passed through the bay of Panama, according to Prof. J. B. Woodworth of the seismograph station.

MERRIMACK CLOTHING CO. Across From City Hall.

It's the same with the clothing man as with the housekeeper, since early last summer the Thanksgiving overcoat feast they are going to offer their customers has been uppermost in the mind of the management of the Merrimack Clothing Co. Every housekeeper has mince pies for the day and every clothing store has overcoats, but there is a heap of difference in the pies, and there is a lot of difference in the overcoats.

As your mind runs back you can readily locate some place, some pie, and the maker of it and the distance from the farthest part of Lowell to the Merrimack Clothing Co. wouldn't prevent you from sampling it.

The management of the Merrimack Clothing Co. is as anxious as the nation was. You sample the overcoat stock that has been selected from afar back for this Thanksgiving week. We won't talk prices to you at all this week, we'll just talk coats for boys and men, but your money will be refunded if you can replace any garment bought here at less price. You can talk prices on turkey for Thanksgiving but you couldn't talk prices for that old-fashioned mince pie.

If you have a thought on clothing buying come direct to the Merrimack Clothing Co.; there is where you can spend your money right; that's the home of live, liberal clothing selling.

HUMPHREY O'SULLIVAN FOR THE MERRIMACK CLOTHING CO. Across from City Hall.

\$75,000 FOR SAVING GIRL

FORMER BOATMAN REWARDED AFTER 25 YEARS BY GIRL'S FATHER

MONTVILLE, Conn., Nov. 24.—A bounty of \$75,000 is the reward given Henry A. Bolles of this place for saving a little girl from drowning in the Thames river 25 years ago. The girl was the daughter of a Mr. Trumbull of New York city and had fallen overboard from her father's yacht.

Mr. Bolles, who was a boatman at that time, said yesterday he remembered the father asking him his name, but he had heard nothing more from him.

Mr. Trumbull died within the past two weeks and Mr. Bolles has just been notified of the bounty by the executors of the Trumbull estate.

President Daniel P. Kelly presided at the regular meeting of Division S. A. O. H. held last evening in its hall in the Howe building. His applications for membership were received and two new members were initiated into the order. Arrangements are being made for the annual dinner of the division which will be held in the near future.

If your teeth trouble you, see Dr. Gagnon, 489 Merrimack street.

THANKSGIVING DINNER

Where to Find the Bird and the "Fixin's"—Leading Markets are Well Supplied

Nearly everybody is busy buying the various essentials of the Thanksgiving feast, the turkey, cranberries, fruit, vegetables, nuts and many other good things. No doubt a word about the offerings of the markets at this time will be interesting to many.

All of the markets are doing a very brisk business. There is, however, a noticeable scarcity of turkeys and the local buyers have found difficulty in securing large quantities. It is therefore, advisable for those who are going to adorn their Thanksgiving tables with one of the birds to get in touch with the market very soon.

Most of the dealers feel that they have a sufficient supply and the scarcity need cause no alarm on the part of the head of the house. It is best to be on the safe side nevertheless.

The prices, according to the quotations of the market men, are quite reasonable. The turkeys come from many sources. Some are from the suburbs of this city, while the far-famed "Vermont turkeys" make up a large portion of the local supply. As there are many turkeys and chickens shipped from the west. The buyers will have a good line to select from and a range of prices.

Saunders' market in Gorham street has a large stock and more are coming. The prices at this market are as usual as low as it is possible to have them and the trade has been exceptionally large. The delivery teams have been kept busy continually supplying families with good things for the Thursday dinner.

Mr. Curley of the John street public market quoted turkeys at from 23 to 25 cents per pound and has a good stock. Chicken, the best, fresh killed native kind, will be bought for 25 cents per pound, fowls from 15 to 22 cents. Mr. Curley reported business as very good and his entire force is kept on the jump.

Mr. Flynn of Flynn's market, Gorham street was also one of the first to secure his stock of turkeys and chickens and he says that his prices on the former range from 15 to 25 cents per pound. He has fresh killed chicken from nearby sources, including Dracut, and Chelmsford, at 22c. They range in weight from 5 to 7 pounds.

Mr. Walsh, proprietor of the Liberty Square market, states that he is prepared to meet the demands of his many customers and has all the usual good things at his store. He has found the demand very large.

Turkey 25 to 35 cents per pound and chicken 20 to 25 cents per pound is the quotation of Fairbairn's market and without any great sacrifice, many homes are assured of a turkey by answering the timely appeal of the Middlesex Women's club. It would be a pity if unused clothing should be permitted to hang in old closets or be hidden away in attics in this city when the need of the suffering Belgians is so urgent. The response will undoubtedly be as it should be—prompt and generous.

SCHOOL FOR OFFICERS

A school for the officers of the Second battalion of the Six Regiment was held at the armory last night in charge of Capt. Ralph McCoy, U. S. A., of the inspector general's department, Massachusetts National Guard. The officers of the school were the captain and lieutenants of Companies C, G and K of this city and of Boston. The session lasted until after 10 o'clock and was very successful. At the close of the session the officers held a brief meeting to discuss plans for the coming battalion night to be held at the armory some time in December.

Advertisements of the market and provision men will be found in The Sun today and these should be read by all. These advertisements appear each week on The Sun's Market Day, which has been a successful feature. Market day has added both retailer and consumer.

Best printing: Tobin's, Asso. bldg.

CLOTHING FOR BELGIANS

MIDDLESEX WOMEN'S CLUB OPENS ITS HEADQUARTERS TO AID WORTHY CAUSE

During the first three days of next week, the Middlesex Women's club has offered the use of its rooms and headquarters for the collection of clothing for the suffering Belgians. All kinds of underclothing for men, women and children are desired, and shawls and sweaters will be especially acceptable. If any donors prefer to have their gifts used by the needy, all contributions should be marked with the distributed to some of the worthy charities here. If not convenient to bring clothing to the club rooms, send them by mail to Colonial hall, Palmer street, or telephone 291 and the goods will be called for.

Undoubtedly in hundreds of Lowell homes are discarded garments which are useless to their owners but which would prove a veritable Godsend to some poor afflicted Belgian driven out of home and rendered penniless. Millions of men, women and children in that devastated country are absolutely dependent on charity, and without any great sacrifice, many Lowell people could aid them by answering the timely appeal of the Middlesex Women's club. It would be a pity if unused clothing should be permitted to hang in old closets or be hidden away in attics in this city when the need of the suffering Belgians is so urgent. The response will undoubtedly be as it should be—prompt and generous.

SCHOOL FOR OFFICERS

A school for the officers of the Second battalion of the Six Regiment was held at the armory last night in charge of Capt. Ralph McCoy, U. S. BOMB WRECKS AMERICAN CONSULATE AT WARSAW

MOTHER TORN FROM HER TWO CHILDREN

Sad Scene on Gorham St. Today After Husband Got Divorced From Wife

A most pitiful scene occurred in Gorham street shortly before noon, when a Boston woman, Mrs. Hester Grist, was separated from her children after a decree of the court. The woman fought furiously with those who attempted to take away her two little boys, aged respectively 6 and 9 years. It was only after Patrolman Lane and Agent Gilmore of the Humane society had spoken to the woman that she allowed them to be taken away. In the excitement some one telephoned to the police station for the auto-patrol, but this was not put in use. The husband, Thomas E. Grist, finally got the custody of his children and left for his home in Boston.

Thomas E. Grist was this morning granted a decree nisi by Justice Quinn, now presiding over the jury waived session of the superior court in this city, in his divorce proceedings against his wife, Hester Grist, for gross and confirmed habits of intoxication, and he was also granted the custody of his three minor children. The following agreement was also included in the decree: "That the lump sum of \$100 be paid to the libellee by the libellant as alimony to be first applied to the unpaid bills of the libellee contracted since the date of the decree; that the libellant pay the libellee \$18 per week as alimony; that the custody of the three minor children be given to the libellant; that the libellee be given the privilege of seeing all of the said children at least once a week for a reasonable time, provided she is in it and proper condition at the time; that all of the furniture, etc., be given to the libellant; that all wearing apparel of the libellant and the minor children, together with the working tools of the libellant shall be given to the libellant."

At the close of the case the husband, his attorney, S. S. Donahue of Boston, as well as the wife, her attorney, Lester O'Leary, also of Boston and some of the woman's relatives, including two of the little children, left the court house. Just as the party left the building Mrs. Grist grabbed the two children and started on a run down Gorham street with the husband and the attorneys close upon her. She ran as far as the corner of Union street, where she was stopped by the husband. The attorneys for both parties as well as the woman's rela-

43 SURVIVORS AND 15 DEAD ACCOUNTED FOR

Steamer Hanalei With 58 Aboard Broke up After Pounding on Reef for 24 Hours

DOLINAS, Cal., Nov. 24.—Forty-three survivors and 15 dead from the coasting steamer Hanalei, which went ashore on Duxbury Reef, near here, had been accounted for up to ten o'clock this morning. Of these, 30 were towed ashore by means of lifelines or struggled through the smother of surf by their own strength and 13 were carried aboard the revenue cutter McCulloch. The 15 dead also were on the McCulloch. As the vessel had 52 persons, all told, the list of dead and living left but four unaccounted for. These figures did not include, however, five men from the Port Point lifesaving crew San Francisco, who were swamped last night. Two of these were known to have come safe ashore, but the remaining three were variously reported as aboard the McCulloch and among those cast adrift when the Hanalei broke up. They could not be counted with any certainty among either the dead or the living.

The Hanalei broke up early today after pounding on the reef nearly 24 hours.

Oil from the full tanks of the smashed ship coated the sea and made slimy the rocks of the beach, adding to the difficulties of the rescuers.

Orchestra Afternoon and Evening

reef, broke in two just before dawn today with 58 souls aboard.

The schooner, which had been pounded by the surf since yesterday noon when she ran ashore in a fog, went all to pieces. Her bow, which hung over the reef and had been twisted to a right angle, slid into the water and drifted to within one hundred yards of the beach. A few more hours would have saved every soul aboard the Hanalei. An hour would have saved many. After all hope had been given up ashore and on board the wreck of the sixth line fired by the Golden Gate park lifesaving crew under Captain Norman Nelson went over the vessel. A breeches buoy was rigged and then the line parted. Almost immediately thereafter the Hanalei broke apart amid cries which rose above the thunder of the surf.

Efforts to take off the passengers and crew from shore began late yesterday after a dozen vessels had tried to reach her and were prevented by fog and surf.

The Port Point lifesaving crew from the beach fired lines which fell short until in desperation they doubled-charged their mortar and it burst.

An effort to launch a boat from the Hanalei failed and a passenger was drowned. A sailor tried to swim ashore with a line and men on the shore could see his arm waving over the waves but at the line of breakers he sank and his body drifted out to sea.

A passenger, Elwood Scherwin of Berkeley, Cal., took a line and got ashore but the line became unfathomed as he swam.

At two o'clock in the morning the Golden Gate lifesaving crew with a larger mortar appeared. Through the enterprise of a local newspaper it had been ferried across San Francisco bay loaded on a motor truck and sent ten miles over mountain roads. It began to shoot lines toward the wreck as the tide rose. After the third shot the water was waist deep on the schooner and the wireless operator, who was sending with an improvised outfit held in one hand, reported that the passengers were desperate.

"We will get ashore as best we can," he flashed through the air. "We cannot stay here."

But they dared not trust the waves. "Try once more. Hurry! Hurry! Hurry!" dashed the operator a little later.

The Hanalei was a wooden vessel of 660 tons, built for the Hawaiian sugar trade in 1901 and later diverted to coastwise trade, running between San Francisco and Eureka. She left Eureka Sunday. She was owned by the Independent S. S. Co.

The ship went to pieces after a night spent in heroic but fruitless effort by persons on shore to fit up a line to the vessel by which the passengers and crew could be removed from danger. Those on board kept up their courage to the last and it was not until the hull parted across the rocks where she had balanced since yesterday morning that they leaped into the water and fought toward the signal fires which burned on the beach.

A large portion of the hull with a spar protruding from it wallowed toward shore on the combers and to it many human beings clung desperately. A searchlight had been rigged up on top of a bluff and by its rays swimmers were aided in avoiding the heavy timbers adrift and in heading toward shore.

When the hull was within three hundred feet of shore it struck a submerged rock and heeled over. All those who had been hanging to the spar or the bits of rigging were washed off. A few still clinging to the hull, however, as it was wreckage free from the rocks and continued to drift shoreward. Finally a wave threw it so high upon the sand that lifesavers were able to assist the few half-drowned men up the beach.

YOUNG WOMAN HELD UP ASSAULTED AND ROBBED

Bold Holdup on Thorndike Street—Victim in Weak Condition—Suspect Arrested but Released

One of the boldest holdups to take place in this city in many moons was perpetrated in Thorndike street, opposite Hood's laboratory, Friday night, when a young woman on her way home from a friend's house was assaulted and robbed in the glare of an arc light. The young woman's assailant struck her several blows in the face after gagging her mouth, cut her lip and escaped with her handbag containing \$1.25 in cash. The matter has been reported to the police, who arrested a suspect, but the young woman failed to identify him as her assailant.

The young woman is 20 years of age and resides in South Highland street and the shock was so much that she has been confined to her bed since the occurrence, and her mother informed a Sun reporter this morning that the family physician will be called in today if her daughter shows no signs of improving. The reporter called at the home of the young woman this morning, but the latter could not be seen, and the mother spoke freely of the dangerous condition around the South common for lack of police protection.

She said her daughter visited a friend on Friday evening and while returning to her home shortly after nine o'clock, she was assaulted by a young man who was hiding behind a tree on Thorndike street. The man grabbed the girl around the neck right under the rays of an arc light opposite Hood's laboratory and attempted to drag her from the street. The young woman screamed and put up a pretty stiff battle with her aggressor. The thug, however, threw her to the ground and gagged her by pushing a handkerchief into her mouth. Unfortunately for him, how-

ever, he slipped one of his fingers in with the handkerchief and the young woman bit his finger with all her might. It was at this point he struck her in the face, cutting her lip.

The man and woman rolled on the ground and in the struggle, the young woman's purse rolled out of her muff. Another young man who was coming along with his wife saw the pair struggling on the ground and he rushed to the rescue of the woman and attempted to catch the assailant, but his efforts were fruitless, for the ruffian grabbed the purse and made his escape through the freight yard. The young woman, who was then in a semi-conscious condition was taken to her home and the matter was reported to the police, who have a good clew to work on for the thief left his handkerchief on the sidewalk for some time past, but in each case the matter was kept a total secret. The young woman's mother in conversation with the writer today said she failed to see where there has been any reform in this city. She said matters are worse than ever for it is not safe for a young woman to be out after dark. She said she hopes more police protection will be given around the South common, which seems to be the rendezvous for rascals because of lacking police protection.

RUSSIANS DEFEAT THE GERMANS AND TURKS

Statements today of the war office at Berlin, Paris and Petrograd, the conventional centers of official information, concerning the war, left generally in doubt the outcome of the fighting in the east, which unofficial reports say has resulted in a Russian victory. The Russian war office makes an indefinite statement that the Germans have retreated and gives no indication of the extent of the movement. The German version is that the fighting is still in progress and that the decision is yet to be reached. It is said semi-officially in Berlin that no doubt is entertained there as to the eventual German victory but that the arrival of Russian reinforcements has postponed it.

HENRY SIEGEL FOUND GUILTY

Given Ten Months in Prison and Fined One Thousand Dollars

Jury Follows Judge and Holds Crime a Misdemeanor

HENRY SIEGEL
© 1914 BY AMERICAN PRESS & PUBLISHING CO.

LOWELL, N. H., Nov. 23.—Henry Siegel, the bookman, New York merchant and banker, was last night convicted of a misdemeanor on obtaining credit on false financial statements. Justice William W. Clarke at once sentenced Siegel to pay a fine of \$1,000 and to serve ten months in Meigs county penitentiary.

Prayer of exemption of the prison sentence was granted until the second Monday of June and bail was fixed at \$25,000.

Siegel must appear before Justice Clarke in court at that time, and if his obligations have been substantially provided for, further action on the prison sentence will be taken.

The offense is a violation of section 125 of the laws passed in 1901, in finding a verdict on this charge, the jury took a course outlined by Justice Clarke in his final instruction. He said he had serious doubts as to the validity of the grand jury charges, but left it to the jury to decide as to Siegel's guilt or innocence or the less serious offense.

The jury returned at 7:30 and gave its verdict shortly before midnight. At 11 o'clock the jury came into the courtroom to ask a question regarding the misdemeanor statute.

"A misdemeanor," said Justice

Defense Closed Abruptly

The abrupt closing of the defense came as a surprise yesterday afternoon when John B. Stanchfield, chief counsel for Siegel, announced that as two witnesses from Pittsburgh and Kansas City had failed to come, his client would stand on the testimony of the eight character witnesses already sworn.

Mr. Stanchfield renewed motions made at the opening of court for dismissal of the indictments, to strike out all testimony as to joint acts of Sie-

gel and Vogel, and for a ruling that the alleged crimes of the defendant were a misdemeanor and not a felony.

Justice Clarke denied the first two motions and said he would touch upon the third in his charge to the jury. Arthur C. Train, assistant district attorney of New York county, stepped up for the people, and Mr. Stanchfield spoke for the defendant. Mr. Train made what was declared to be one of the most dramatic presentations ever heard in a Livingston county courtroom. He declared that many facts established by the people had not been denied by the defense.

"Had it been denied," he asked, "that with the enormous losses of these enterprises Siegel accepted the money of poor depositors and ran two banks, none too small; that he knew money from the bank was being sent to Boston; that as a quorum, he and Vogel wiped out the loss of \$65,000 of the Simpson-Crawford store with bank funds; that he conspired to keep false books and, above all, that he laid plans to escape from the jurisdiction of the United States?"

"If Siegel had been an honorable man," said Mr. Train, turning toward the defendant, "he would have gone into bankruptcy long ago. But he didn't. Instead, with his dirty enterprises in mind, he allowed 'the intelligent people' as Mr. Stanchfield called them, to put their money into his hands that he might flood it into his stores. Within eight days of the failure there wasn't a penny of a shop left too insubstantial to be placed in his hands."

"Did you ever hear of a bank that didn't have a penny in the till, absolutely gutted?"

"There was \$15,000 left," said Mr. Stanchfield.

Referring to a statement credited to Siegel that if he had been let alone he would have paid off the depositors in full, Mr. Train said:

"If there was a sum of money that could have been paid to the depositors, why wasn't it?"

Mr. Stanchfield objected, on the ground that Mr. Train was going outside the evidence for his arguments.

"On your own statement," said Mr. Train, shaking a finger at Mr. Stanchfield, "you said that if Siegel wasn't prosecuted the money would be put back to the depositors. Why?"

Charge By Judge

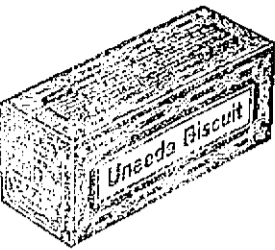

Concluding Mr. Train said: "You think that Vogel is dead. How is Lee? Here is the dead Vogel testifying as to Siegel's misdeeds through the mouth of Prall. And Prall's testimony is not denied."

Mr. Stanchfield spoke in a low tone. He referred to Siegel as a victim of circumstances, full of faith in his ventures. He dwelt on Siegel's personal loss and his desire to go to Chicago and there set out in life again and pay back the depositors in his bank dollar for dollar.

In his charge Justice Clarke said that considerable latitude had been allowed in the taking of testimony, so that every phase of the case might have light, for it was only in this way that a decision fair to the defendant and the people could be reached. Justice Clarke then read the statute covering grand larceny and that delin-

EARTHQUAKE SHOCKS

RECORDED ON THE SEISMOGRAPH OF GEORGETOWN UNIVERSITY AT 7:20 THIS MORNING

WASHINGTON, Nov. 24.—Earthquake shocks were recorded today on the seismograph of Georgetown university beginning at 7:20 a. m. and continuing an hour and six minutes. The center of the disturbance was calculated to be about 1200 miles from Washington and the observers believed it to be within the United States.

CHRISTIAN ENDEAVOR SOCIETY

The Lowell Christian Endeavor union held its regular monthly meeting last night at the Chelmsford Center church. Preceding the business session, an excellent supper was served in the town hall. Sixteen ladies from Lowell and the surrounding towns were represented by over 150 delegates.

President Walter Chase presided over the business session, and a large amount of routine business was transacted. The speaker of the evening, Rev. J. M. Ryan of the city, gave a most interesting talk on missionary work in South America, especially among the Portuguese of Brazil, where the speaker worked for a number of years as a missionary. The entertainment which followed the address included a highly pleasing duet by Mrs. Frank Dutton and Miss Belle Libby.

Good old music at the Firemen's Ball, state armory, Thanksgiving eve.

SUN FEATURES WEDNESDAY

Interesting Discussions By "The Man in the Moon," French Maid, Sleepy-time Tales, and Others

The Man in the Moon in tomorrow's Sun will have many pleasing discussions of timely topics. Its begins with interesting reminiscences of Thanksgiving and the month of November. He extends best wishes to all for a pleasant Thanksgiving. He comments upon many other topics of local interest in a most delightful way.

"Why Some Women are not Home-likes" is the topic of the article in "What the French Maid Said" in tomorrow's Sun. She explains the quality of being homelike and makes interesting comparisons.

"Everyday Etiquette" is another interesting feature which will appear in The Sun tomorrow and will answer many important questions of deportment.

The sleep-time tale tomorrow is "The Bally Movie," and is written in a manner that will delight the little ones. The "Habbit's Foot" tells of the importance of protecting one's throat from the cold of winter and the information will be very helpful.

ARMY AND NAVY GAME

ANNAPOLIS, Nov. 24.—With but four days before their warriors leave Annapolis for Philadelphia for their annual battle with the Army, Navy's hosts are living up things this week. While the coaching staff devotes its time to putting on the finishing touches, the members of the regiment of midshipmen will gather on the beach for each afternoon to practice the vocal encouragement to be given at Franklin field next Saturday to their heroes of shingard and shoulderpad. Although it is admitted by many of the Navy supporters that judged by comparative performances, Army has the right to expect to duplicate its victory of last year, hope is not dead on the Severn shore.

A chimney fire at 31 Cedar street called out the members of Engine 1 at 8:30 o'clock last evening. No damage. At 9:15 o'clock a second chimney fire was discovered at 1 Walker place, but this was extinguished with but slight damage. The tenement is occupied by Fred Dickey.

TRENCHES ARE READY

Coburn Herd Infected With Hoof Disease Will be Slaughtered by State Gang

The Coburn herd of cattle in Braintree has not yet been slaughtered, but Dr. Edward A. Cahill, of the bureau of animal industry, says that the cows will be killed within a day or two. Dr. Cahill lives in High street, this city. He was called to a farm in Chelmsford Centre last night where it was reported that one of a herd of cattle had contracted the foot and mouth disease. An examination of the animal was made, but no symptoms of the disease were discovered.

Dr. Cahill has nothing to do with the slaughtering of the animals, sentenced to death because of foot and mouth disease, but deals entirely with the diagnosis of the malady. To The Sun today, Dr. Cahill stated that in all probability the Coburn herd would be killed within a day or two. It was Dr. Cahill who awarded the contract for the digging of the trenches for the burial of the cattle to the Burton J. Wixson Co. The trenches have been dug, and as the animals are slaughtered, they will be buried under seven feet of earth with a solution of lime on top to remove all possibility of further contagion. The cattle, one at a time, will be led to the edge of the trench and shot. The position of the animal being arranged so that the body will fall over into the trench.

Infected cattle were slaughtered in Worcester and Grafton yesterday and are being slaughtered here in Swanton and Westport today.

Charged to the War That the European war is responsible for the outbreak of the foot and mouth disease in the United States is the belief of Webster C. Robbins, a prominent cattle raiser of Acton. Yesterday Mr. Robbins said to Commissioner Fred F. Walker of the department of animal industry: "Hundreds of immigrants flocked to Boston and New York and all parts of the country just before the war broke out. The disease has been raging in Holland and Germany for years and clothing and shoes from these countries could easily carry and spread the disease."

MONTH'S MIND MASS

A month's mind mass for the repose of the soul of Thomas J. McDermott will be celebrated at St. Peter's church on Wednesday morning, November 25, at 8 o'clock.

NO NEED TO FEAR MEAT

NO CATTLE WITH FOOT AND MOUTH DISEASE BEING SLAUGHTERED

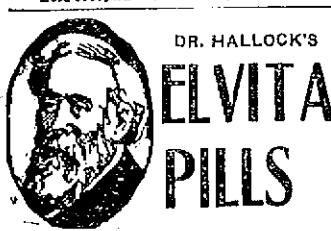

WASHINGTON, D. C., Nov. 24.—According to the specialists of the department of agriculture people even in states quarantined for the foot and mouth disease need have no fear of eating meat, provided they cook it thoroughly. The foot and mouth disease is not easily communicated to human beings through food, although milk from a diseased cow might transmit the disease to a human being. In the case of milk, however, pasteurization will render it entirely safe. Human beings who do get the disease commonly get it from direct contact with a sick animal. It is wise, therefore, for people to keep away from all animals having the disease, unless they are properly provided with rubber gloves, coats and boots, and these are thoroughly disinfected after each visit to the animals.

Real Relief

from suffering means true happiness. The trouble due to indigestion and biliousness, is removed quickly, certainly and safely by

DR. HALLOCK CO. 3 Tremont Row

herds which actually show the disease are quarantined, and neither milk nor meat from the sick animals can be sold. Sixty per cent of the meat used in this country is produced in the nearly 900 federally inspected slaughtering and packing establishments located in 240 cities. In these establishments no animal is slaughtered until it has passed an ante-mortem inspection and also a most rigid post-mortem inspection by a veterinarian at the time of slaughter. After slaughter its meat cannot leave the establishment until it has been carefully examined and stamped "U. S. Inspected and Passed." In all these establishments no animal showing any symptoms whatever of foot and mouth disease is allowed to go to slaughter, and no meat which on post-mortem inspection shows any suspicious symptoms of this complaint can be shipped out of the establishment. All meat suspected of coming from an animal suffering with this complaint is sent, under government seal, to the tanks to be rendered into fertilizer. The federal inspection stamp on meat, therefore, means that it is entirely safe.

The federal government, however, has no jurisdiction over local slaughter houses which do not ship meat outside of the state in which it is slaughtered. If, however, meat from such an animal did escape from one of these local slaughter houses, which are purely under state or municipal control, all danger of its communicating the disease to human beings would be removed when it is thoroughly cooked and sterilized. Those who are located near an infected region and wish to be absolutely certain of the safety of their meat should cook it thoroughly.

The disease when contracted by adults is not at all a serious illness. It commonly takes the form of slight fever, sore in the mouth and a slight eruption on the fingers. In the case of small or sickly children, it may take a more serious form, especially if complicated by other illnesses.

FEDERAL QUARANTINES

WASHINGTON, D. C., Nov. 24.—The provisions of the federal quarantines declared on account of the foot and mouth disease have been somewhat modified in so far as they apply to shipments of hay and straw. The new regulations provide that hay and straw cut prior to August 1, 1914, and baled prior to October 1, 1914, may be shipped without disinfection from any of the quarantined areas, provided that it has been stored away from cattle, sheep or swine. Hitherto it was necessary that hay should not only have been cut before August 1st, but that it should also have been baled before that date.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

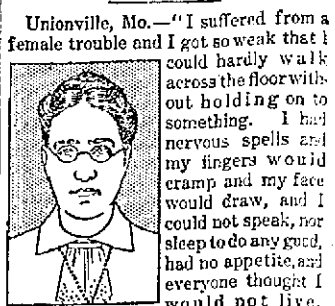

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dull" or "heavy" feeling in the stomach, a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep "right." Try them. The Olive Tablet Co., Columbus, O.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not sleep, nor sleep to do any good, had no appetite, and everyone thought I would not live."

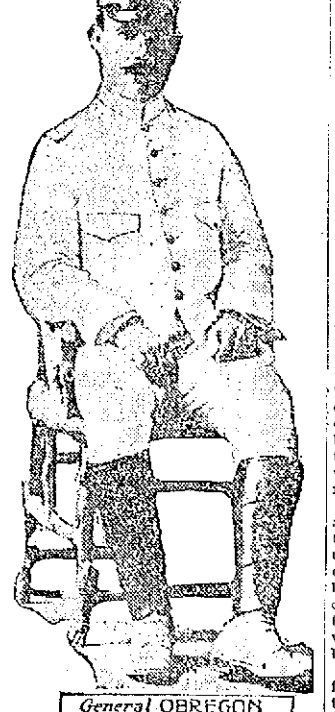

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."

Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

TO AID GEN. CARRANZA

GENERAL OBREGON, EVACUATED MEXICO CITY WHEN VILLA APPROACHED.

General Obregon, one of the staunch Carranza followers, evacuated Mexico City with his troops when Villa approached, leaving the defense of the city to General Blanco. Obregon went to Cordoba. He will continue to support Carranza, who has set up an independent government.

YOUR HAIR NEEDS PARISIAN SAGE

It Quickly Removes Dandruff, Stops Falling Hair and Scalp Itch

If your hair is full of dandruff, thin, straggly, dull and never will do up to look pretty, you can almost immediately remove the cause making it beautiful, thick and fluffy by the use of Parisian Sage, one of the most helpful and invigorating hair and scalp tonics known.

Parisian Sage not only saves your hair but stimulates the hair roots and furnishes the nourishment needed to make it grow long, abundant and radiant with life. Just one application removes every trace of dandruff and stops scalp itch—your hair becomes soft and fluffy with an incomparable gloss, beauty and charm.

You may be disappointed with this hairless and delicately perfumed tonic for there is nothing so good for your hair. It is easily applied at home and costs but a trifle from any drug counter.

Reduce Your Coal Bill

You can save at least 10% on your coal bill by having your windows repainted, sash cords put in and all air leaks tightened. Glass windows furnished and set in windshield and auto lamps a specialty. Lensed glass made, repaired and rebuilt. Telephone 4025-31.

WE SPECIALIZE IN STOUT WOMEN'S APPAREL

THE LADY'S WORKBAG

A good workbag can be made from two yards of Dresden ribbon six and one-half inches wide, and one embroidery hoop. Cut two rounds of cardboard the size of the hoop for the bottoms of the "double-decker" bag, pad with sheet-cotton, and cover with the ribbon.

Divide the remaining ribbon in halves and sew up both pieces; then sew one to a cardboard round, and fasten at the top to the outside rim of the embroidery hoop. Make the top part of the bag in the same way, save that the cardboard bottom is to be sewed to the inside of the embroidery-ring, which has been covered by the silk ribbon.

The top is gathered with a heading for drawstrings. Fasten the two bags together by short ribbons. When ready for packing, the upper bag fits snugly into the embroidery-ring, while when in use the bag becomes two.

For an amateur dressmaker to make a skirt or gown hang evenly around the bottom, first cut your skirt by some good pattern (be sure to cut it long enough to allow for a hem), then fit it carefully around the hips; put on the belt, in fact, completely make the skirt all but the hem.

Put the skirt on and fasten all of the hooks. Stand before a mirror and buckle a leather strap (such as are used to strap up packages with) around the hips six inches below the waistline, and adjust evenly all around, then take a piece of chalk and make a line around the skirt just above the strap.

Take a yard-stick and measure from the line to the floor. Take off the skirt and lay it lengthwise on a table and measure from the chalk-line towards the bottom. If you want the bottom of your skirt two inches from the floor, make that allowance. You can measure at intervals from the chalk line making a mark where the hem is to be turned. Crease the skirt along the chalk marks at the bottom and baste the hem. If you are making a one-piece gown, have your dress all together before measuring for the hem. If these directions are carefully followed the skirt will hang perfectly even.

Some of the newest Turkish towels have an initial quite four or five inches long worked in French knots at the left of the towel above the border. Instead of in the center, as is usually done.

For a man's use towels worked with these large letters are very good looking and it is safe to predict that some will find their way into the Christmas packages of the men of the family a little later in the season.

Among the newest designs for small guest towels is one of a fine damask of a very small pattern without a women border. The border is hemstitched on and consists of an inch-wide hem of colored linen, pink or blue. The initial may be embroidered in white on the hem or worked on the towel itself in a color to correspond with the hem.

For the luncheon or breakfast table make a set of doilies or runners embroidered with a willow-china pattern. Of course, a table spread with these doilies or runners should be set with willow ware.

The pattern is stamped on very heavy

linen and is to be worked in blue. A big centerpiece, a yard square costs \$15.00, and scarfs twenty inches wide and 1 1/2 yards long cost the same. There are smaller doilies, of course, at smaller prices. The centerpiece can be buttonholed in scallops or finished with an edge of chunk lace.

When drawn work in linen doilies of any other fancy work is worn out and the centers still remain good, stitch a row of insertion over the drawn work.

To make silk stockings last from three to four months longer than usual darn the heel and toe before wearing. When the stockings begin to wear it will be the darning cotton that will be worn off; pull out and redarn.

I darn mine with a thick thread, four strands. By watching them carefully I can redarn a pair of stockings twelve or fourteen times without having the stockings show signs of wear. I also darn them at the top where the garter clasps. It keeps the stockings from the running drop-stitch.

Old stockings when split up the side and sewed into a square make excellent iron holders. They are neither heavy nor bulky, but just thick enough so it will not scorch the hands.

THE YELLOW PERIL

Japanese Warnings.

The Japanese early sought for the truth, and their earliest knowledge was the principle that their strength depended on a healthy stomach. They eat very little and practice "Jiu-Jitsu"—muscular exercise from youth up.

The stomach is the center of the body from which radiates our vitality, strenuousness, our fighting strength. A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. Dr. Pierce's Golden Medical Discovery refines and tones up the stomach walls. Releases the poisonous gases from the system.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the Liver, Bowels and Kidneys.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache and constipation.

Get Dr. Pierce's Golden Medical Discovery today at any medicine dealer; it is a powerful blood purifier, so penetrating that it even gets at the impure deposits in the joints and carries them out of the system.

It is not a secret remedy for its ingredients are printed on wrapper. For free advice or free booklet on blood, write Dr. V. M. Pierce, Buffalo, N. Y.

FREE—Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of 31 one-cent stamps to pay expense of wrapping and mailing only.

For pet holders old stockings may be sewed the same way as iron holders and used for pet holders. For stove polishing old stockings may be split down the back and used for stove polishing. The stockings are soft and give a fine polish to the stove and also the metal trimmings.

If silk stockings are washed after each wearing their life will be much prolonged. Another good thing to know is that if you rinse silk stockings, or any other kind, before wearing at all, they will last half as long again for the treatment.

I have found a way of keeping my silk stockings free from the ugly "runs" made by garters. I cut off the tops (about two inches deep) of a pair of old silk stockings and sew these under the tops of the silk stockings. This plan has saved me many tedious hours of darning "runs."

When ribbons are removed from imperie, if one has a medium sized unailing tube ready at hand and pulls them on it, it takes but a minute and keeps them in perfect condition.

LOWELL READY FOR GAME

HIGH SCHOOL ELEVEN EXPECTED TO GIVE LAWRENCE TEAM GOOD BATTLE

All is in readiness, at least as far as the Lowell high school eleven is concerned for the great battle with Lawrence's team on the gridiron last year. Spurred on by their recent win over Nashua, the local boys feel confident of giving the down-river bunch of athletes, a good game, if not a good trimming.

Lawrence will present a formidable lineup, composed of many veterans seen on the gridiron last year. Whether they can maintain the same speed shown against other school teams thus far this season remains to be seen, but they will make the trip

THEIR GOLDEN WEDDING FLEE FROM FIRE

MR. AND MRS. ALBERT T. GREEN

Mr. and Mrs. Albert T. Green Congratulated by Their Many Friends

Mr. and Mrs. Albert T. Green observed the 50th anniversary of their marriage at their home, 722 North street, yesterday afternoon and evening, when they received the congratulations and well wishes of many friends. Mr. and Mrs. Green presided at an informal reception in the very room in which they were married a half century ago. The house in which they live and in which they were married occupies a place in Lowell's history, and in the 50 years that have rolled on the place has not been subjected to many changes. It was built by the town of Dracut in 1866 and was used as a school. Mr. Joseph R. Tebbets bought the place in 1877, when the town of Dracut offered it for sale, and with the exception of necessary interior alterations, the structure remains as it was in the beginning. On his death it was left to his daughter, Miss Adelaide C. Tebbets, now Mrs. Green.

The observance of this happy event has been marked somewhat by sickness in both families.

75 Hotel Guests Driven Out in Night Clothes at Portsmouth, N. H.

PORTSMOUTH, N. H., Nov. 24.—A fire which broke out during the night in a Congress street business block adjoining the Hotel Langdon burned until nearly noon today, destroying the block and the hotel. The loss was estimated at \$40,000.

Seventy-five hotel guests who were driven in their nightclothes from the burning building lost all their belongings. Six stores in the business block were swept clean by the flames.

OFFERS FROM 100,000

Americans Seek to Enlist in Canada For Service in Europe—Hundreds Have Already Gone

OTTAWA, Nov. 24.—One hundred thousand men in the United States have offered to enlist in Canada for service in Europe, according to Major General Hughes, Canadian minister of militia. He made the statement in reply to questions regarding the theory that Germans in the United States might attempt a raid across the border.

Major General Hughes said he was in favor of accepting the men who had offered themselves. Hundreds of Americans, he asserted, are with the first and second contingents.

THIN ICE VICTIM

HUBBARDSTON, Nov. 24.—David Erickson, aged 26, was drowned shortly after noon yesterday at Bent's pond, going through thin ice while walking across the pond on his way to the main road to Gardiner.

Auto racing carnival, Y. M. C. I.

WAGE LAW ANNULLED

MINNESOTA JUDGE SENDS MINIMUM WAGE LAW TO SUPREME COURT

ST. PAUL, Nov. 24.—Holding the minimum wage law passed by the 1913 Minnesota legislature to be unconstitutional, Judge Cullen yesterday handed down a decision ordering a temporary injunction against State Auditor Iverson and members of the Minimum Wage commission from expending public money. The ruling also suspended the order of the commission fixing minimum wages for women and minor workers to become effective tomorrow.

Judge Cullen's order makes the minimum wage law ineffective until the case is tried on its merits. His decision will be appealed to the supreme court.

WILL DRAIN MORSE'S POND

MARLBORO AUTHORITIES MAKING VIGOROUS SEARCH FOR MRS. SPRINGER

MARLBORO, Nov. 24.—In an effort to find a trace of Mrs. Walter C. Springer, who disappeared Tuesday evening from her home at 126 Church street, Morse's pond was dynamited yesterday afternoon, to free it of ice, and work was then begun to drain the water into the Metropolitan basin. The reason for this move is that Mrs. Springer was accustomed to walk in the direction of the pond, which is about a mile and a half from the city.

Auto races, Arco hall, Wed. eve.

KEEP HALLS LIGHTED

New Rule Put in Force Yesterday in City of Boston By Health Authorities

BOSTON, Nov. 24.—The board of health yesterday voted to enforce the following regulations in regard to lights in hallways of tenement houses: "It is hereby ordered that in every tenement house and in every house occupied by more than two families a proper light shall be kept burning in the public hallways, near the stairs, upon the entrance floor and the floor above the entrance floor every night during the year from sunset to sunrise and upon all other floors of the building from sunset until 10 o'clock in the evening."

HE COMMITTED SUICIDE

BOSTON, Nov. 24.—Suicide by shooting is the report that Associate Medical Examiner Richardson made yesterday afternoon in the case of Geo. A. Hernandez, manager of the Kosmos candy company at 231 State street, who was found dead in a chair there by one of his assistants. It was supposed that Mr. Hernandez had succumbed to a stroke of apoplexy.

BOSTON FIREMEN CUT OFF

BOSTON, Nov. 24.—Six men had to flee for their lives when fire started shortly after 7 o'clock last evening in the basement of 12 and 14 Lincoln street, sending dense clouds of smoke to the upper part of the building where the men were at work. They found themselves in a room filled with smoke and their escape by the stairway cut off. They escaped by getting to the roof of a neighboring building.

WOMAN COP FOR BOSTON

Mrs. Steinauer is Appointed to Force by Mayor Curley

First Step to Handle Child With Kindness—No Uniform

BOSTON, Nov. 24.—Mrs. Anna T. Steinauer of 34 Fessenden street, Mattapan, announced yesterday as appointed by Mayor Curley a special police officer, has accepted the appointment, and if her name is approved by the civil service commissioners the mayor will send an order to the city council to appropriate money to pay her salary, since there is no fund out of which she could be legally paid.

Mrs. Steinauer is delighted with her appointment. She believes the official authority will arm her with power to make possible the carrying out of many ideas she has regarding the betterment of the condition of children—particularly so since her sex will make it possible to go in and talk with the mothers of young boys and girls where a masculine policeman could not.

"I feel," said Mrs. Steinauer at her home last evening, "that the first step toward good citizenship is to handle the child with kindness. Something ought to be done without arresting them. Arrests discourage them, arouse their conscience and they feel a keen disgrace. The kinder, better way is to bring out the character of the child."

There will be no show about the office, no uniforms. Possibly a badge will be necessary. If women have this power to act we can clear away the demoralizing conditions.

"It will be possible to help the school authorities. If investigated, it will so often be found that the child who was absent from school had no breakfast, perhaps no supper the night before. Necessity has forced the parents to go away early to their work before the day was properly started. If a woman can look into such houses and talk with the mothers, the condition can be greatly helped."

"There will be much street work, on corners and in dance halls. I want to try to save the girls so they won't lose their characters. Our boys are just as important as our girls. If we can save the boys, the girls will be all right."

"The minimum wage commission was correct in plan but it did not get very definite results. Much must be done in connection with the pitifully low wages and general conditions of girls in factories. These things result in improper nourishment and worse evils."

"I want to work so the poor can have something to eat, so they can live in a clean place. In other words, low wages, the high cost of food and poor housing are the foundation of the demoralized condition seen in parts of the city, parts of the state and parts of the whole country. The way to right such

conditions is to get first into the home and find out what the difficulty is. That is particularly the province of a woman because she is a woman.

"Yes, I am delighted with the possibilities of the office."

Mrs. Steinauer is well known in municipal betterment matters. At sessions of the legislature she is a familiar figure at the state house. She has been a resident of Dorchester for many years and a conspicuous figure in varied activities, especially school affairs and public hearings.

Four years ago she was engaged with others in an aggressive campaign against what she termed "peasantizing" school children by the introduction of industries into the lowest grades, resulting in practically no academic education for the child.

In the agitation connected with the conduct of the Lyman school and the Parental school she was a prominent figure. Also she has delved deep in the questions regarding mold storage eggs and the standardizing of various kinds of coal.

FRESH CUTS OF MEATS
Our meats will be sold at very low prices for Thanksgiving trade.

Only 300 orders taken. None delivered after 6 p. m., Wednesday, November 25th.

CONDITIONS IN MEXICO

Pres. Wilson Confident of no Serious Trouble — Evacuation Without Disturbance

WASHINGTON, Nov. 24.—President Wilson said today that he had received reassuring advices of conditions in Mexico and was confident nothing serious would result to American interests in the present controversy among the Mexican generals. The president gave no details but expressed his opinion of the situation after reading a number of despatches from American consular agents.

EVACUATION OF VERA CRUZ

WASHINGTON, Nov. 24.—Administration officials who have been keeping in close touch with events in Mexico were highly gratified today that the evacuation of Vera Cruz by American military forces under Brig. Gen. Foust had been accomplished without any disturbances. They were pleased also over assurances given by General Aguilar, the new military governor of Vera Cruz, for the safety of foreign residents in that city.

In administration circles today the belief was expressed that with the arrival of Gen. Villa's forces in Mexico City all apprehension over the safety of foreign residents there would end.

MAY PUNISH CAPTAIN
WASHINGTON, Nov. 24.—Capt. Walter Hill of the marine corps may have

A Smooth, White Skin That Defies Weather

During the coming months of biting winds and intense cold, you who would keep your skin smooth, white and velvety, should turn your attention to mercerized skin. Nothing else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather-beaten cuticle, the complexion is kept in perfect condition, and even the most expressionless face is more pronounced. If your skin be blotchy, pimply, freckled, coarse, sallow or over-red, why not shed it? One ounce of ordinary mercerized skin, used as directed, will completely transform the most unsightly complexion in less than a fortnight. Use the sunbathing skin cream, washing it off morning.

If weather, age or poor health has marred your face with wrinkles, here's good news. You can quickly remove every line by using a harmless, refreshing face lotion prepared by dissolving 1 oz. powdered sassafras in 2 pint water. The more youthful appearance, even after one application, will astonish you.

SUITE OF FURNISHED ROOMS to let for light housekeeping; steam heat; gas stove. Inquire at 179 Third Street.

O. M. I. CADETS' MEETING

FINAL ARRANGEMENTS FOR 10TH ANNIVERSARY WILL BE MADE TONIGHT

The O. M. I. Cadets will meet in the Immaculate Conception school hall tonight at 7:30 o'clock to complete arrangements for the celebration of the tenth anniversary of the organization

which will be observed on Tuesday evening, Dec. 1. As final plans will be made tonight, Rev. D. A. Sullivan, O. M. I. spiritual director, desires that all members be present.

COMMUTATION OF SENTENCE

WORCESTER, Nov. 24.—The state board of pardons gave a hearing at the court house yesterday on the petition of Daniel J. Cooper of Upton, who is under sentence of death for the murder of Alfred G. Rendish in Upton, for commutation of the sentence to life imprisonment.

WRECKED BY A BOMB

GERMAN BOMB FELL IN FRONT OF AMERICAN CONSULATE AT WARSAW—SEVERAL KILLED

WASHINGTON, Nov. 24.—A bomb from a German airship fell in front of the American consulate at Warsaw early today breaking the windows of the consulate but injuring no one

within, according to a telegram from Ambassador Marne at Petrograd. Several persons in the street in front of the consulate were killed and wounded but none of them were Americans.

It is expected here that if Warsaw becomes a battle ground of the German and Russian armies the American consul and his staff will withdraw to a place of safety.

FOOTBALL IS WAR

LONDON, Nov. 21.—Indignation against the hitherto universally popu-

lar game of football is expressed by nearly the entire British press because almost no men enlisted as a result of the recruiting rallies at Saturday's matches.

"It is time to eradicate the football cancer," says the Ball Mail Gazette, in an article which goes on to say that not a single man was recruited at London's football match, which was attended by 15,000 spectators. A colonel who lost a son at the front and was himself returning to the fighting line, appeared at this game, says the paper, and pleaded with the men to enlist.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

MADE IN U. S. A.

All of the many sectional and local papers agitated throughout the country since the war began have endeavored to one that is growing in importance daily. This is the very short but pithy: "Made in U. S. A." a phrase that embodies everything of a commercial nature which we have been asked to believe in and believe by our president, our political leaders, our business experts and our manufacturers. Supported by the intelligent enthusiasm of an entire people, "Made in U. S. A." will symbolize the part of this nation in the trade relationships of all the nations in the world during the present struggle for supremacy between two of the great commercial empires. Without in any way striving to take unjust advantage of any power, the American people have an opportunity to substitute "Made in U. S. A." for the commercial trade mark of many another power, in the markets of the world.

The Boston Chamber of Commerce, one of the many bodies bounding American industry, says, through "Current Affairs," its official organ: "Twenty billion dollars' worth of goods are manufactured in the United States annually. They represent practically every class of commodity. They represent the utilization of American raw materials in vast quantities. They represent the industry of millions of workers, not only in the factories, but also in the mines and fields where raw materials are produced, and in the transporting and distributing and selling of these goods. They represent the normal operations of American industry, now called upon to supply world needs."

There are one hundred million buyers in the American home market—the largest market in the world. European merchants have not been slow to see the advantages of utilizing it and have captured large shares of our domestic patronage. The United States is at one and the same time the biggest producer of manufactured goods and the biggest buyer of manufactured goods. To a certain extent (indeed a great extent) our manufacturers have suffered from a peculiar prejudice which held that anything imported is better than what is made here. To many buyers the label "Made in Germany" or "Made in England" or "Made in France" has signified superiority. We have been good customers of Europe. Last year the United States bought \$70,000,000 worth of cotton manufactures from Europe, although more than half the world's supply of cotton is produced here; last year this country bought \$32,000,000 worth of iron and steel manufactures from abroad, though our steel works are the finest on earth; last year this country bought \$12,000,000 worth of hats, \$10,000,000 worth of chinaware, \$8,000,000 worth of glassware, \$7,000,000 worth of toys—all from Europe. In fine, the United States last year spent \$720,000,000 on goods from Europe, all of which could have been produced in this country.

At present it is impossible for our people to purchase most of the goods from abroad such as were purchased in other years. It will become still more difficult as the war progresses. It is therefore good policy as well as good business to make a virtue of necessity and to spend with our own manufacturers what we have been spending with our rivals in trade. Thus, an enormous gain would come directly to our home industries if we cultivated more loyalty and traded at home. Our nation is the only great country with adequate factories and with adequate help, just now. Factories of England, France and Germany are crippled in great part and expert workers are being shot down in hundreds. While regretting the loss to others, this country must be ready to meet the resultant void in trade relationships, especially in our own country.

"Made in U. S. A." can be made "A New Slogan for Prosperity" wherever the ships of commerce sail. Foreign markets look round for their old source of supplies to find most of them closed or partially crippled. Only one great manufacturing nation stands ready to meet all demands—the United States of America. It is for our business boomers here and elsewhere to give "Made in U. S. A." the significance which up to the present it has not enjoyed.

FROM VERA CRUZ

Without any great booming of cannon or blazing forth of the fact, the American occupation of Vera Cruz has come to an end. The military forces under Brigadier-General Pennington have been ordered out of the Mexican capital, and have obeyed orders, retaining only possibility of international friction arising from this point. Many admirers of the administration join with its enemies in congratulating on the close of an unusual incident, but there is little enthusiasm. The American public hopes for the best, but would not be surprised at the worst. As the popular song has it, the evacuation "may be for years and it may be for ever," and the sincere hopes of the American public is that it will be for ever. Nevertheless there is a very direct possibility of a new occupation by American troops before long.

The great fault of the Vera Cruz occupation which, by the way, has not been proved a failure as yet is that it has been negative and has achieved nothing definite except the point of honor for a man certainly no better, than evil. Undoubtedly when President Wilson ordered American troops to take the city he had the public opinion of this country before him. He was also supported by an unanimous public opinion in his determination to avoid war at any cost, consistent with our national dignity. Yet our troops have left Vera Cruz under conditions as left as when they went there, backed by the might of an imperial power. They were, to preserve order, to protect American person and property, to help Mexico to constitutional government. They have left Vera Cruz, and there is neither protection, nor guarantee of stable government, nor indication of permanent peace. Needless to say, the insult to the flag was never officially offered, unless the flight of them be taken as sufficient reparation for his enemies or unwarlike offences against us.

Disorder, anarchy and revolution are liable to blossom out in Vera Cruz any moment, now that our troops have been withdrawn. It is not certain whether the support will be occupied by the contending supporters of Villa or Carranza. War is smoldering throughout the land, with Villa as the strong man. After helping Villa to first place we find he has now turned on his chief and exerts what is practically supreme power, backed up by the force of arms, which has been the secret of power in poor Mexico for some years past. All members of Carranza are being courted, all persons, property, liberty and religion, anarchy, sacrifice and lawlessness.

Save Money and Travel Comfortably to California

There's a best way to travel, just as there's a best way to do everything. Why go to a strange country without a guide when, for no more money, but at a great saving, you can go on one of our "Personally Conducted" parties.

In this way you have good company all the way as the parties are made up of congenial people. We are particularly about "California" our guests. And then for new, special conductor, look with you, all the way.

The courteous service and attention given you by this special guide, on this way to the best of the country, gives you the best of traveling alone, and be believe you of all the other and weary about business, and other details. This extra service costs you nothing. Why not have it? Call or write and let me tell you about the "Personally Conducted" party to California, that have helped to make the "Hurlington" party so famous.

Alex. Stock, New England Passenger Agent, C. & N. R. Co., 254 Washington Street, Boston.

them is a sweep like "perilous seas in" "Two hours later the west is a scene" "with sunset. Until earth's last place" "is painted, no artist will catch its" "glow. Crimson, gold, purple, vermilion" "and jet are arranged in swags of" "indefatigable grandeur. No Lyonesse" "picture or medieval page has pre-

ceded in color used as daringly as these" "laid on by the artist of the sunsets," "underneath it all is Lowell. Here the" "huge mass of the gasometer rises;" "there the slender mill chimneys pierce" "the gold with an ivory finger. The" "smoke of the factories has been turned" "into gorgeous arabesques and Oriental" "grandeur is over everything. Some" "times from the glory fades and night" "falls down the curtain of No- vember" "darkness, through which peeps little" "wintry stars that are waiting for" "the sun of Bethlehem."

REALISTIC MOVIES

If you should be walking along a railroad track when a train dashes madly around the curve ahead and falls over the embankment, try and keep cool. If you should turn a street corner to be confronted with a crowd of police madly rushing into a tenement from the upper windows of which hangs a limp form, try and keep cool. If you should see the sky grow lurid at midnight and should hear the whole fire department rushing clatter-clatter to the scene, try and keep cool. It may be only the movies, the inescapable movies, the realistic movies, the melodramatic movies. Last Sunday three deep sea actors took an old schooner at Gloucester, hoisted the sails and put out in a tempestuous sea, headed for some picturesque wreck. To illustrate a thrilling movie story. But black-a-day! Most of the shipwreck was planned by mariners who had never sailed the seas and the little boat was not loaded with ballast. The schooner was driven on the rocks in short order, the boat could not put off, and the actor-sailors had to cling in the rigging of a real wreck until rescued by the Gloucester life-boat crew. Worst of all, the incident was so dangerous and so exciting that the camera missed most of it. Lucky for the Gloucester actors, they were rescued in the nick of time. Many movie actors have not been so fortunate. Probably there will always be dangers connected with pictures making for our public must have thrills. Yet, there is a limit—even for the moving picture artists and managers.

WAKE UP, NEW YORK

Another outrage in New York, due in all probability to Black Hand activity! This time it is a fire in a tenement block which has wiped out eight lives and resulted in injuries to many others. A tenant in the block had received threatening letters for months past, warning him that unless he paid blackmail money, he would suffer. He did not pay, and he has suffered with many others. Not a week passes but New York has like experiences, and, in all probability, all

of them are not recorded. No one can tell how many such blackmail schemes are successful. It would seem that New York is reaping the fruit of crooked politics in its police department and other municipal departments. With things as they ought to be, both makers and bomb throwers should have slight shrill in New York or other American city. The entire country watches New York with amazement.

Usually in war reports as in other press despatches, tragedies are over-exaggerated. In the case of Belgian distress, however, there has been more understatement than overstatement. Recent reports from Ypres prove the height of the German guns and the determination of the Germans to reach the northern coast at any cost. Too bad, though, that the proclivity of German marksmanship and the persistence of German attack has been proved at the expense of Belgium.

Even in the event of irregularities in the recent elections, the possibility of

SEEN AND HEARD

It is a good plan to advertise. But that is no reason why a girl should scream when she is being kissed.

The fellow who leaves his wife very often when he is away seldom leaves her much when he does.

More people would go fishing if things were arranged so that the fish would dig the worms for the anglers.

They say the women have no sense of humor. Just take a walk and see the kind of men they cop out for husbands.

The old-fashioned boy who was taught to respect old age now has a son who believes that there is no fool like an old fool.

The Naturalists have discovered a new fact for the sparrow. This leaves the Red Bird a show for himself as a consumer who never produces.

Some people are born with too much push and too little ambition. That's the reason why there are so many wheelbarrow chauffeurs in the world.

A dog can wag his tail pretty fast when he is pleased. But he can't wag it as fast as a woman can wag her tongue when she is displeased.

There are a whole lot of 10-cent men in the world who have grown rounder shouldered from carrying a \$10,000 life insurance policy.

The dear girl enjoys a hearty laugh when they see a lot of men in a sack race. But this is because the girls can't see themselves when they are chasing a car and wearing a tight skirt.

The Habbit doesn't know anything about Human Nature. If he would roar when he sees back on his hind legs, the hunters would run and let him alone.

AWAITING SQUARE MEAL. Two men were surprised to find a cup of tea and a biscuit given them free by an up-to-date Broadway motion picture theatre at 4 o'clock. Half an hour later one of them broke the silence.

"We've seen the pictures now, John." "I said, 'We may as well go out.' After a minute's thought John replied: "You can go if you want to. Ah'm stayin' to dinner."—Musical Trades.

DODGING THE BEATEN PATH. Congressman Robert L. Doughty of North Carolina smiled when the conversation turned to revealing the order of things. He said he was reminded of the case of Bowers. Bowers made a blundering party on a railroad train.

As to Buying Furniture in Boston

A young couple came into our store a few days ago and wanted to know our terms on about \$60 worth of furniture. We told them. He said he had bought \$71 worth in Boston for less down. We told him that they charge so much more in Boston that they could do so. But that we sold practically on a cash basis, and to prove it that without knowing what he got for his \$71 we would agree in writing to duplicate all he got for \$71.90 in Boston for \$55 and possibly \$50. After looking over goods over and getting our price. He said: Well we simply got robbed and I guess you could agree to duplicate our \$71 worth for less than \$50. Why, that National Spring you sell for \$3.50, they charged me \$7.00 for the same thing in Boston. This is the second instance lately of people buying in Boston and then coming in for a few things they had forgotten to buy and finding they had paid about 40 per cent more in Boston. Moral, look around Lowell before you leap to Boston. Buy the few "bits" they offer in their flaring advertisements. Take the bait, but don't get the hook. Buy your furniture in Lowell.

BUY IT AT

A. E. O'Heir & Co.

ON HURD ST.

Where their is no bait or hook.

Where you get used fair and square the year round.

an investigation by the district attorney does not bring home the significance of former years. Our experience in that direction has been rather disappointing. Possibly things would be different now, however. Let's hope so.

The person who shovels the snow shortly after it has fallen is wise. To leave it on the sidewalk for a day or two is to invite trouble and make it very unpleasant for all who pass. In this, leastest carries prompt punishment.

Both parties claim victory in Belgium and Russia. This cannot go on forever as either victory or claim of victory is the result of some degree of loss for both sides. Victories must be won by men and soldiers, not by press dispatches.

Lowell reads are "Made in U. S. A." Why not Lowell, U. S. A.?

Don't you feel thankful?

A THANKSGIVING PLAIN

Let's year it to Thanksgiving day. My grandma for Thanksgiving day. An' I watched her thanksgiving lady come. An' I take my place on plate away. An' I thought I'd like to explain to me. (A Thanksgiving day, like you and me.) How sometimes Little Boys' brown eyes

Will bigger than their stomach grow.

"Oh, no," I decided in my head. An' I will begin with straight away. An' I have a little bit of place. For new Thanksgiving day. But pretty soon it got to be. Our "saucers" an' "parcels" time. An' Little Boys can't say no room. Until—well, mebbe, by-an-bye.

"Nen Christmas came with stockings all. Chock full of candy you must eat. An' Sunday-schools wants Little Boys To "predict their ice-cream treat." Nen I went visitin' up where Greenlock trees an' white snow stay. An' rosy cheeks an' appetites. Go walkin' round with you all day. An' folks will gingham aprons 'bieve. It's best to "fill up growin' boys." Cause they must' when an' kick it out.

"Nen summer was when all outdoors Turns right into good things to eat—An' I had first-class strawberries. Fore Robin Redbreast says, "Tweet, tweet!" In Grandma's cherry tree—an' nen I'll prickly red berry. Nen I'll reach out big handfuls to you. Nen Little Boys they feel "jus' fine." An' I'll give you all your teeth. An' I'll like the taste of corn. An' I'll like pink watermelon juice. You glad it is that you are born.

"Nen Thanksgiving-time. S'w'y I think that I won't eat. A single thing—'till the whole long day." Nen all of the folks they shake their heads. "That's natural—the child ain't right." Nen I makes a deliverance. To try an' tempt his appetite.

An' Pa's Aunt Abigail Ann That sets all her candy on the table. She sposes as how he's just a young To be "in love" an' "pin" way. But Grampa he will comfort me. He says it's all the same to me. Why he can't eat a single bit. Of anything more than his can!

Not even if the Mars can pile Round dollars clear up in the sky—He feels jus' same as Little Boys. That wants more mince an' punkin Weekly.

ORIGIN OF ELKS. In an attractive souvenir which will be distributed at the Elks' carnival in Lowell this week, appears an interesting historical opinion of the Benevolent and Protective Order of Elks and of Lawrence Lodge, No. 65. The origin of the order and its influential order occurred in the fall of 1857 with the arrival in New York of Charles Allen, the son of an English clergyman who had just a comic singer in England. Vivian in company with others connected with theatrical profession and several musicians were engaged to meet on Sundays in their boarding house parlors on Elm street, New York, for the purpose of spending the time in social intercourse. The first meeting was held on Sunday, Feb. 16, 1858, the name of Elks was adopted and launched on the sea of popular celebrity. Charley, the noblest of all virtues is practiced in our organizations method to the extent of \$500,000 annually by the order of Elks. The first Elks lodge of the order, the first amount expended by any similar organization in the world. One of the many distributors of this vast sum in Lawrence Lodge No. 65, in 1857, by members of Lawrence Lodge, No. 14. The ceremony, long to be remembered, occurred in Old Fellows hall. A. B. Brown was chosen as the first elected ruler, Richard J. Shea, secretary. Meetings were held frequently in the hall of the Elks, but the Elks were scattered and scattered. Ambition directed us on this occasion to secure funds for the erection of a structure on Broadway, where a site is located and standing in our name. Our membership has steadily increased to the number of about 55, consisting of some of the noblest of the business, professional, political and educational life of our city, whose sole object is to perpetuate for all time peace and good fellowship among our brothers and spread the gospel of love and humanity among our fellow men, so that the future historians, writing of the influence that have in the past produced a grander civilization, may give our brotherhood an honored place as their reward.

The first hall in 12 years. It will be some affair. The Women's Ball.

EDITORIAL COMMENT

NEW PRISON WARDEN

The name of Sing Sing has been

synonymous with scandal for years.

Wardens have come and gone and

investigations have been conducted, but

the root of the evil appeared to re-

main always on the job. Another ward-

en has been removed this month be-

cause he permitted a banker-convi-

to ride about in an automobile and

transact private business as though

he were an honored citizen and not a

convicted rascal. It would appear

now, however, that the right man for

the place had been selected in the

person of Thomas Mott Osborne of Au-

burne, N. Y.—Wall River Herald.

SAVE THE BABIES

A state may be judged somewhat

by the care and thought it gives to its

mothers and babies. In centuries past,

the greatest of human waste was at

this point. Vast improvement has been

made, but even yet we are far from

perfect. There is not a city or town

in the or effect which much could not

be done which is now undone if the

people who should be interested were

alive. Ignorance exacts a fearful toll

of the children of human waste must

come that ignorance for its own sake

and for the sake of its mothers and

babies.—Newburyport News.

OUR WAR RISKS

Our two great risks of war are well

set forth by the New York Sun when

it says the United States "has chal-

lenged policies to uphold and racial

exclusiveness to defend." It might be

well to think of this when extremes

interpretations of the Monroe doctrine

and new measures of humiliating the

Asiatic are under debate in the halls

of legislation.—Boston Herald.

DEMOCRACY GONE MAD?

A couple, or three, years ago prop-

osals for direct legislation, includ-

ing the initiative and referendum and

recall, were ripe in every section of

the country. Nothing during the in-

tervening period has been more abun-

dant than the steady diminution of

such demand. Today one hears but

little on this once much-bruited sub-

ject, and that little is usually unfa-

vorable. The reason for this state of

affairs is not difficult to discover. It

has been the almost uniform bad

results which have followed the adop-

tion and actual exercise of these in-

novations.—Manchester Leader.

STRANGE DISAPPEARANCE

Marlboro Case Veiled in Mystery
—Case of Man Who Lived 56 Days Without Food Recalled

(Special Dispatch to The Sun)
MARLBORO, Nov. 24.—The sudden disappearance of Mrs. Walter C. Springer, wife of a prominent business man here, from her home last Tuesday and the absolute veil of mystery which surrounds her leaving which has baffled solution for a week, despite the efforts of the entire police and fire departments and more than a thousand citizens of this city and nearby towns, who have searched the countryside in vain, recalls one of the strangest cases of a disappearance ever known in this country. Marlboro in the last dozen years has known a number of similar cases and in every instance in the past the missing party has eventually been discovered.

The central figure in one of these incidents of the past is now a well known business man here, enjoying normal health, notwithstanding that he went through an experience, in two

months of wandering, so extraordinary as to be almost unbelievable. The man is William D. Hanley, 25 years old, who is employed in the hardware store of his brother, John J. Hanley, at 137 Main street.

On April 20, 1911, with a year after his marriage, William D. Hanley, one of the most popular young men of Marlboro, dropped from sight as if swallowed up by the earth, leaving behind him no intimation of the reason for his disappearance, or no clue on which his friends and relatives could base a theory for his going. The whole city and eastern part of the state were aroused as they are now over the disappearance of Mrs. Springer. Searching parties were organized, lakes and ponds were dragged and the whole countryside searched without a single trace of the missing man being found.

Finally the search was given up and the gossip evolved a theory of family troubles to explain Hanley's dis-

HOW PARIS STYLES MAKE MUCH HAIR FROM LITTLE

You have noticed the prevailing styles, which are Parisian make it impossible to use false hair because of the simple lines which conform to the natural shape of the head. It therefore becomes necessary to make your own hair look as heavy as possible. This is not a difficult task if you are careful to keep it perfectly clean. In washing the hair it is not advisable to use a make-shift, but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it is known much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth. Adv't.

appearance and soon apparently authentic reports of his being seen in several cities in the west were received and Marlboro finally became convinced that Hanley had run away to escape scandal or trouble.

56 Days Without Food

The incident was nearly forgotten, when on June 15, 1914, two employees of the Metropolitan water system while walking through the woods about five miles south of Marlboro, discovered something that resembled a man's body lying on a couch of pine needles beneath a tree in a secluded part of the woods. Assuming that the man was dead the two men bent over him to make an examination and were astonished to see that the supposed corpse was breathing. Aid was quickly summoned and some of those present were able to identify the disheveled and emaciated form beneath the tree as William D. Hanley. He was taken to the Marlboro hospital and after four months of treatment and rest fully recovered his faculties and health although at the time he was found he was crazed, apparently blind, and weighed only 56 pounds.

There is no question but that Hanley's mind was a complete blank during all of the 56 days that he was missing and since he recovered his health he has never mentioned the experience as far as is known.

The most remarkable part of the whole affair is the fact that there is every reason to believe that Hanley never tasted food during the entire 56 days he spent in the woods. The place where he was found lying was absolutely free from any evidence that would show that the man had eaten while there, although it was apparent from the condition of the couch on which he was lying that he had been in that spot during practically all the time he had been missing. The outline of the man's form where it had pressed into the pine needles and earth could be plainly seen and the roof of a tree on which his head rested was worn off as if smoothed with sand paper.

Lived in One Spot
From the couch beneath the tree to a small brook twenty feet away a path had been worn down through the

leaves and moss to the earth where Hanley had travelled back and forth for a drink of water. His clothing was moss-grown and falling from his body when found.

The spot where he was found was visited by hundreds who are ready to vouch for all the facts as told above. Many physicians examined the man while he was in the hospital and practically all agreed that Hanley had absolutely nothing to eat during his 56 days of exile. Many theories to account for the man being found alive have been advanced, but the most tenable is that he was stricken with fever and wandered into the woods while in a sort of delirium. The excess temperature created by the fever, it is thought, supplied a sort of nourishment and stimulation to his body and prevented him from dying from cold and exposure.

No definite explanation of how he managed to exist for such a long period in the open will ever be attained as there is no similar case on record in medical annals.

There have been many other mysterious disappearances in Marlboro, but the Hanley case is considered by those familiar with it as being the most unusual case of its kind ever known.

BARRETT AHEAD IN RECOUNT

His Lead Increased by Three Votes Over Donnelly

Inaccuracies Shown and Evidence of Tampering With Ballots

The recount of the aldermanic vote as petitioned for by Commissioner James E. Donnelly was concluded last night, shortly after nine o'clock, and the result showed that Mr. Barrett had increased his lead over Mr. Donnelly by three votes. The original count gave Mr. Barrett a lead of 9 over Mr. Donnelly and the recount increased Mr. Barrett's lead to twelve. The final standing was as follows: Barrett, 215; Donnelly, 213. Both candidates lost votes by the recount, Donnelly losing 5 and Barrett 5, the original figures given out on the night of the preliminary election being, Barrett 215; Donnelly 219.

The recount, of course, was general and included all of the ballots cast for aldermen at the primaries. There were many minor changes in the lineup of the candidates but the recount did not change their positions at all. The comparative figures of the first eight candidates, the first four of whom are nominated, are as follows:

	Orig.	Recount	Gain
Pulnam	2593	2594	L 1
Duncan	2508	2525	G 20
Miskella	2424	2402	L 15
Barrett	2153	2153	L 0
Donnelly	2132	2131	L 1
Campbell	1836	1834	L 2
Ricard	1551	1568	G 14
Brown	1738	1721	L 7

The counting seemed to be quite reliable and inaccurate as will be seen from the changes indicated above showing that Duncan gained 20. Miskella lost 15 and Ricard gained 14. The recount revealed what appeared to be a very palpable attempt to change votes from one candidate to another, the crosses opposite the name of a certain candidate and crosses made by the same hand marked opposite the name of another candidate. It was a matter that should not be allowed to pass unnoticed if there is actual evidence of fraud.

A RARE MUSICAL TREAT

GERMAINE SCHNITZER, VIENNESE ARTIST, GIVES CONCERT AT MIDDLESEX WOMEN'S CLUB

The piano recital given yesterday afternoon before the Middlesex Women's club, by Germaine Schnitzer, the young Viennese artist, was one of the most delightful musical treats ever given in this city. Charming sentiment and subtle sensibility were blended with technical perfection to such a degree that one did not know whether to admire most the skill of the interpretation or the soul of the music. Possessed of a youthful, abundant temperament, Miss Schnitzer proved herself an accomplished musician in the real meaning of the abused phrase. Under her vigorous treatment the full tones of the sonorous passages were given forcibly and again the delicate undercurrent of a trickling melody ran on like a little woodland stream in June. Those who heard the fine artist yesterday took away from a repetition of the concert, or one akin, as to an anticipated delight.

Made from fine nainsooks and crepes, trimmed with new laces and embroideries, high or low neck with short sleeves.
Made of fine quality nainsook, trimmed with heading, ribbon embroidery or lace.
Drawers and skirt combination, made in a fine grade of nainsook and seersucker, trimmed most attractively.

39c to \$1.25 SKIRTS, AT 69c
A most unusual collection of long white skirts, extra fine quality long cloth, trimmed with hampburg embroidery and beautiful shadow laces.

These undermuslins go on sale today and you ought to be one of the first to receive your share of these exceptional values.

BASEMENT BARGAIN DEPARTMENT

particular revealing delicacy of treatment and fantastic tracery. The Tocata of Saint-Saens was given with a dash and abandon that spoke of almost absolute mastery of the instrument. In a little piece of Staub and in the Liszt number at the close Miss Schnitzer gave a graceful and artistic interpretation, working her audience up to a rare degree of enthusiasm. Being recalled, she added another splendid number to the program. It was an afternoon of music calculated to please and elevate the most fastidious and the Middlesex Women's club may well strive to bring the charming interpreter here again.

SPANISH WAR VETERANS

The members of Gen. Adelbert Ames camp, Spanish War Veterans, held a largely attended meeting last night in the Memorial building with Commander Gilbert W. Hunt in the chair. Among the business transacted was the appointment of a committee to work in conjunction with the Grand Army committee relative to investigating the alleged use of the naval veterans' rooms by outside parties. One application for membership was received and the nomination of officers was held with the following result:

For commander, Gilbert W. Hunt and Alexander D. Mitchell; for senior vice commander, Fred L. Hunt, unopposed; junior vice commander, Thos. Muldon and George Everett; officer of the day, Brother Lambert, unopposed; officer of the guard, B. E. Richardson, unopposed; trustee, Frank Dodge, unopposed; delegates, P. H. Driscoll, John McBride and Bert Chandler. The election will be held on Dec. 14.

Auxiliary
While the meeting of the Spanish War Veterans was being held in the upper hall, the members of the Edith Walcott auxiliary conducted their regular meeting in the lower hall with

THE WAR ON 'TURKEY' STARTS THANKSGIVING

Be dressed your best on Thanksgiving Day and you'll surely enjoy the "bird" better. For the right clothes at the right prices---"Renew in a P&Q."

On the overcoat question we're neutral because we've so many "Jim-Dandy" styles that are crowded with "Ginger" and "Pep." To begin with—there's those

Sweepy-Skirted Balmacaans
Wide-Lapel Single-Breasteds
"Kozilyte" Belted-Backs
Tip-Top Silk-Lined Topcoats
Tightish Double-Breasteds
Army-Collar Ulsterettes

In suits we set the pace! Fresh reinforcements are constantly arriving from the wholesale P&Q Tailor or Shops. Rich Tartans, blending Two-Tones, nobby Needle Stripes, Double-Twist Worsteds, "Tru-Blu" Serges and Glen Urquhardt Checks.

There's no "percentage" in paying \$20-to-\$25 for your clothes. The difference in price goes to the middlemen who must get "theirs!" You side-step these extras here.

Fabric for fabric--tailoring for tailoring --and style for style--P&Q Suits and Overcoats at, always, \$10-&\$15, are "doubles to the dot" of those sold elsewhere at \$20-to-\$25. And that's saying a mouthful! You'll realize it as soon as you lay eyes on them.

AUTOMOBILE NEWS

IMPROVEMENT OF ROADS

Federal Co-operation to Assist Several States in Construction of Main Highways Favored

That exactly the same reason does not exist in the several states for the improvement of their roads was set forth in the unanimously adopted report of the resolutions committee of the American Road Congress just held in Atlantic City, with the largest attendance ever attracted to a highway meeting.

With reference to all over the country it was pointed out that Federal aid in road building has been given in the deliberations of the Congress, supported by the fact that the American Automobile Association cooperated with the American Highway Association in the conduct of the notable gathering.

Chairman W. T. Wynn of the resolutions committee presented this report to the "Federal Cooperation" RESOLUTION, that the American Road Congress emphatically endorses the principle of federal cooperation toward the construction of main highways, and thus assist the several states to build the main trunk roads in the one-half of the country which is devoted to agriculture and to build through main roads in the one-half of the country which is not predominantly agricultural, but whose prosperity depends upon raising, the raising of live stock, and the presence of the health service and tourist.

Congressman W. P. Borah made the principal address at the "Federal Aid" session, presided over by Chairman G. G. Dyer of the A. A. A. Good Roads board, and the Missouri representative thus summed up the situation: "It is easy enough to shout 'good roads' and to convey the impression on the minds of every hill farmer that he will have the road pass his place; but when we get down to practical business we will find that only a very limited percentage can ever be improved to a high condition and that these roads must be the ones which will serve the greatest number of people. It is very easy to defeat the whole plan by appeals to the prejudices of those voters who would be led to believe that they will get no direct benefit from the roads. It is possible even to influence the people to believe that the roads will be built for the benefit of the people whom they think will be benefited.

In today's issue the Hub Garage, 629 Middlesex street, announces that they are able to take all orders on any kind of auto repairing, also that they sell a full line of auto supplies. The garage, recently opened, employs only skilled workmen who have had much experience in automobile repairing. They specialize on Maxwell cars.

The Donovan Harness Co. make a timely announcement today when they advertise chain shoes which are so indispensable during the winter months when the icy roads make the horses slip. The Kernell never slip chain shoes prevent such a catastrophe and make the horse's feet sure. They can be obtained in all sizes at the Donovan Harness company.

Joe McGarry reports an excellent sale during the past three days, of Weeds and Ribbed-knit elastic and P. Co. The sale, that he telephoned to Boston twice during the last week for

who are offering a reliable means of reaching better ground in winter where there is the minimum of snow.

PLAN WINTER ENTERTAINMENTS

With the arrival of winter many of the automobile clubs of the northern states are planning indoor amusements to keep up their interest during the season when it is too cold to make touring enjoyable. The first of a series of such events planned by the Bay City (Mich.) Automobile Club was a Halloween party in connection with which they held a miniature county fair. The club is also arranging parties for Thanksgiving and Christmas.

CLIMBS AT TOM

On a three-speed motorcycle, M. R. Grayson, of Holyoke, Mass., recently climbed to the top of Mount Tom, 1,200 feet above the sea level. This is said to be the first time that the summit of this mountain has ever been reached by a motor propelled vehicle.

NEW MEMBERS

During October, there were 318 motorcycle riders joined the Federation of American Motorcyclists. Of these, 149 were affiliated with local F. A. M. clubs. There were 235 renewals during the month, 149 leading the other states, with 52 New York state brought in the greatest number of new members, 51.

MORE MAIL MOTORCYCLES

A motorcycle corps is to be added to the United States troops now stationed at Fort Sam Houston, Texas. Motorcycles have already proved their worth in carrying dispatches along the Mexican border, and officers believe that a motorcycle squad should be made a permanent part of the army.

MOTORCYCLE NOTES

January 2 to 3 is the date set for the automobile and motorcycle show in New York City. The exhibit will be held at the Grand Central Palace.

Inquiries are being made concerning the price on 1915 motorcycle sidecars, which are said to be for use in the European war.

A motorcycle trip to the Ozark Mountains is the way Jesse M. Amick, of Little Rock, spent his vacation this summer.

Up to the first of November, 20,595 motorcycles have been registered in Ohio since the first of the year.

BEST VERMONT TURKEYS

These "Vermonters" will be the highest priced as well as the choicest and meatiest turkeys that we will have in our market for Thanksgiving. Of a special order, placed sometime ago, and knowing the attention and care given to the "birds" on the farm from which they came, we can guarantee them to be solid and sweet clear through to the bony framework of the body. We recommend the purchase of one or more of these to the women who have the purchasing of the dinner for exacting people. These turkeys will be all priced 25 cents; more in this lot will be sold for a lower price. They are of all sizes.

25c

Vermont Turkeys, 8 to 10 lbs. 22c

Owing to their size, and as they come from a farm other than the one we receive our "special order" from, we have marked them a little lower than the others. Nevertheless, they are plump, good eating and meaty birds.

Turkeys, Our Cheapest 18c

While these are our lowest priced turkeys, the difference in price doesn't signify the same difference in the quality of the meat carried on them over our other turkeys. If you want a good turkey at a low price, look these over.

Chickens from Nearby Farms 25c

These "broilers" average from 5 to 7 lbs. in weight, and certainly compose one of the best stocks of chickens that we have ever handled, and at that, we have always specialized in native chickens. Come and examine these. You can not do any better in either the quality of the bird or the price elsewhere. They are of the fancy roasting variety.

Vermont Geese 22 Cts

If your liking is towards geese, don't neglect looking over our stock. These are beauties and their wholesomeness predicts an enjoyable dinner for the purchaser.

Vermont Ducks 22 Cts

"Just go the limit on these ducks," said the man we purchased them from. They are all first quality birds and we know that they will be good eating. Roast Duck is New England's own Thanksgiving dinner; you know.

FOWLS, Good in Quality But Cheap in Price

15c to 20c

For the people who cannot afford to pay the fancy prices that Vermont Turkeys, or ducks, or chickens, must bring, we have purchased an excellent lot of fowl that will make a dinner that is as enjoyable as a much higher priced turkey. The lot is quite large and contains some good specimens of fowl.

Cranberries, qt. 5c
Others, smaller than the above, 3 quarts for 10c
Florida Oranges, large and juicy, doz. 20c
Sweet Potatoes. 13 lbs. 25c

Large Spring Lamb, lb. . . . 12 1-2c
Roast Pork, lb. 14c
Sugar, lb. 5 1-2c
Pascal Celery, big bunch. . . 15c
Boston Market Celery. . . . 10c

New Mixed Nuts. 2 lbs. 25c
Fancy Apples, pk. 20c
Fresh Pig Hams, lb. 15c
Potatoes, pk. 16c
Onions, pk. 15c

SPECIAL-FLYNN'S THANKSGIVING BASKETS. \$2.00

Believing that we can better serve the people who cannot afford to spend the money that is involved in the selecting of Thanksgiving Day's dinner, we have made up several baskets which we will sell for \$2.00 each. These contain every article of food necessary for a dinner for a family of 12 persons. The baskets have everything that will be needed. We invite you to inspect them before purchasing. They are easily worth much more than we are asking for them.

MATRIMONIAL

With the Rev. Dr. Daniel J. Keleher, pastor of the parish, as the officiating clergyman, Mr. Thomas J. Durkin of Lincoln street and Miss Katherine L. Morris, daughter of Mr. John Morris of Whipple street, were united in marriage at St. Peter's church this morning.

Attired in white crepe de chine and carrying a fragrant cluster of white roses, the bride looked loveliness itself; while the bridesmaid, her sister, Miss Ida Morris, also with a beautiful bouquet of white roses, was most attractive in her gown of blue crepe de chine. Mr. John Durkin, brother of the groom, was best man.

After the marriage ceremony, the wedding party returned to the home of the bride, where a wedding breakfast was served. This enjoyed, Mr. and Mrs. Durkin left on their wedding tour after having received innumerable congratulations and good wishes, which were laughingly augmented with showers of confetti. They will be at home after Jan. 1.

Many handsome and costly were the gifts showered upon the happy couple by their relatives and friends. For Mr. and Mrs. Durkin have an ever-enlarging circle of friendships among the young people of Lowell and surrounding cities. Not the least of these is that felt toward them by the newspaper staffs of the two dailies, where their marriage has created unwonted interest. After her graduation from the Lowell high school, Mrs. Durkin became a proofreader on the Courier-Citizen and several years ago came in The Sun office to take charge of its proof-reading department. In the performance of this duty, her pleasant disposition has won her many friends. Since his graduation, also, Mr. Durkin has been continuously employed upon The Sun, where he learned the printing business and became a valued member of the composing room staff.

DEATHS

JEFFREY

Died yesterday at his home in West Chelmsford, Robert E. Jeffrey, aged 61 years. He leaves his wife, Emma L., four brothers, John Henry of West Chelmsford, Charles E. of Bristol, N. H., Frank H. of Worcester, George L. of Lowell, and three sisters, Mrs. A. C. Morrison of Lawrence, Mrs. E. E. Mason of Lowell and Mrs. David L. Gage of Westford.

GOOD-BYE INDIGESTION!

Rheumatisms Brings Quick Relief

Indigestion is beaten! The misery of poor health due to poor digestion is over—for those who know Rheumal salts, the wonderful effectiveness drink.

No more sour stomach, griping pains, rumbling of bowels and trembling limbs—nothing but a desire to eat what you want when you want it—without any "kick back."

Your health depends largely upon what you eat and how it is digested. Undigested, fermenting, putrifying food is one of the greatest handicaps your body has. And it is all unnecessary, if you let Rheumal salts help you.

If you are bothered with indigestion, ask your druggist for about five ounces of Rheumal salts (one two teaspoonfuls in a glass of water before breakfast each morning and in a few days you will be able to digest your food in a perfect manner.

Rheumal salts is very inexpensive. It does not cause nausea. It is delicious to take and is delightfully effective. Rheumal salts is prepared by the famous Rheumal Company, Minneapolis, Minn.

FUNERALS

KINGSBURY

The funeral services of John Miller Kingsbury were held at his home, 1087 Bridge street, yesterday afternoon. Rev. Caleb E. Fisher, D. D., conducted the services. A delegation from the Central Unitarian Church, consisting of Mr. W. H. White, George Houle and Edmund Grompton, The Lowell Retail Grocers and Butchers Association was officially represented by President Edwin S. Fitzpatrick and Treasurer Edward M. Dowers. The many beautiful flowers testified to the esteem in which deceased was held. The bearers were: Frank H. Strout, Freeman M. Bill, Albion Sweet, George K. Palmer, Daniel P. Knowlton and William M. Sherwell. Burial was in the Edison cemetery, in charge of Undertaker John A. Weinbeck.

Fine prizes, No Chelms, Wed. eve.

FUNERAL NOTICE

BUTTERMORE

The funeral of Mrs. Hannah Buttermore will take place Wednesday morning (Nov. 25), from her late home, 173 Adams St., at 9 o'clock. High mass of requiem at St. Patrick's church at 9 o'clock. Interment will be in St. Patrick's cemetery. Undertaker Peter H. Savage. In charge of funeral arrangements.

BUTTERMORE

The funeral of Mrs. Hannah Buttermore will take place Wednesday morning, Nov. 25, from her late home, 173 Adams street, at 9 o'clock. A high mass of requiem will be sung at St. Patrick's church at 9 o'clock. Interment will take place in St. Patrick's cemetery under the direction of Undertaker Peter H. Savage.

Fancy costumes, No Chelms, Wed.

SALVATION ARMY DINNER

A Thanksgiving dinner, consisting of roast chicken and all its fixings, will be served to about 50 men at the Salvation Army Industrial home on Fletcher street, Thursday noon. No special collections are being made for this and it will be paid for out of the regular treasury of the organization. The bulk of the Salvation Army work comes at Christmas time when baskets of food and other useful things are distributed to the homes of the poor. However, Thanksgiving will not be passed by unnoticed and over 20 men who are unable to work or who have been unfortunate and have no homes to go to will receive a good meal at the Industrial home on that day.

If you want help at home or in your business, try The Sun "Want" column.

MEETING AT TEWKSBURY BRIEF MEETING

Appointed Mr. Rogers to Settle
With Street Railway Company
—\$100 for Police

Over 100 interested voters attended the special town meeting held in the town hall at Tewksbury Centre last night. The meeting had been called for the purpose of taking action on the offer made by the Bay State Street Railway Co. in reference to the lawsuit now pending at the jury waived session of the superior court. Some time ago the town, through its counsel, Melvin G. Rogers, brought suit against the railway company to recover on two \$5,000 bonds and recently the company made an offer of \$5,000 to drop the matter.

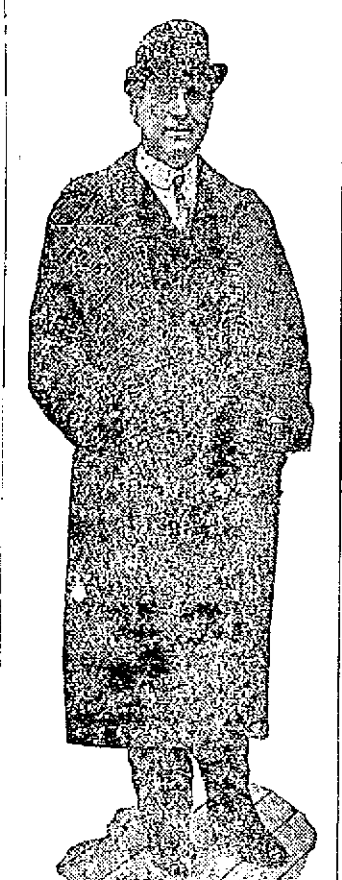

Henry M. Billings was elected moderator at last night's meeting and after considerable discussion the meeting voted in favor of Mr. Rogers to settle with the railway company as he saw fit. It is not known just how the counsel will proceed for he was non-committal on the matter.

THE B. & M. CAR SHOPS MAN WITH A MYSTERY

WILL SUSPEND FROM WEDNESDAY EVENING UNTIL NEXT MONDAY

In order that the New Hampshire employees of the Boston & Maine repair shops in Billerica, may spend Thanksgiving at their homes in Keene and Concord, the officials of the big plant have decided to suspend all operations from Wednesday evening until next Monday morning. This move was made as a result of a petition signed by a number of employees asking the B. & M. officials to allow them to have Friday of this week off and work some Saturday to make up for the loss of time. A number of the Granite State residents will go home Wednesday evening and return Sunday evening.

CHAS. M. SCHWAB, THE STEEL MAN, HAS BIG WAR SECRET HE CANNOT REVEAL

Charles M. Schwab, the Steel man, is now America's "man with a mystery." He recently came back from Europe with a secret, presumably about the war. This secret, he says, is so great that he doesn't dare divulge it at this time. He won't even hint at what it is. While his lips are sealed on this point, he talks freely on the business outlook for America. He declares this country will benefit greatly by the war. He thinks we are now beginning an era of business prosperity that will be felt for the next ten years.

GREAT FOREST FIRES

57 CONVICTS IN PERIL WHEN PLANT CAUGHT FIRE—RAINS CHECKED BLAZE

LITTLE ROCK, Ark., Nov. 24.—Rain that began falling in southwestern Arkansas, portions of Oklahoma and Kansas has checked the great forest fires that prevailed in those districts. Today it was believed that the greatest damage from the fires except around Little Rock was over. Here, however, the greatest apprehension for the safety of the city prevailed. The fires in this vicinity had approached to within four miles of the business district today. Citizens patrols covered the residence district, alert lest some wind-driven spark kindle a disastrous fire. River traffic at Helena still is endangered by the smoke which is overhanging the stream.

CAR OF COPPER LOST

FREIGHT CAR CONTAINING \$100,000 WORTH OF ANODE PLATES DISAPPEARED

DULUTH, Minn., Nov. 24.—On Nov. 4, 1913, a freight car containing more than \$100,000 worth of Montana anode plates disappeared in the Northern Pacific yards in Duluth. One day later the car reappeared with \$40,000 worth of the plates missing. Today the plates were located in the yard of a local scrap iron company. George Robinson, 30, and Joseph Repall, 26, switchmen for the Northern Pacific were arrested for the theft. The foreman of the scrap company says he bought 22 of the plates from the switchmen for \$300 without the knowledge of his employers. The shipment was from the Anacoda Mining Co. for Pittsburgh, Pa.

WIRELESS OPERATOR

BOSTON BOY ARRESTED FOR OPERATING A POWERFUL STATION WITHOUT A LICENSE

BOSTON, Nov. 24.—Lyman Sayward, 15 years old, was arrested today for operating a powerful wireless station without a license. According to the federal radio inspectors, Sayward has been hampering British merchant vessels by repeated calls. Had the station been a weak one the inspectors said that Sayward would not have been disturbed.

MERCHANT MARINE

WASHINGTON, Nov. 24.—President Wilson does not consider that enough ships have been taken out of American waters since the beginning of the war to interfere with his plan for a government-owned merchant marine. His report shows that foreign orders for cotton greatly exceed the number of ships available for carrying the cargo.

PROGRESSIVE STATE GRANGERS

WASHINGTON, Nov. 24.—State, rural and personal credit systems formed the topics of discussion at today's conference of the executive committee of progressive state grangers with representatives of farm organizations. Robert B. Van Cull, president of the New York state land mortgage banks and the Wisconsin system also was to be discussed. The program included discussion of the proposed plan of personal credit by R. C. Milliken and the various personal credit systems of Europe.

Municipal Council Was
One Hour Late in Convening

The meeting of the municipal council scheduled for 11 o'clock this forenoon was more than an hour late in starting and there were two absentees, Commissioners Brown and Morse.

The first business had to do with pole locations as petitioned for by the Lowell Electric Light corporation in Dalton and Methuen streets. There were no remonstrants to the Dalton street location, but the mayor read a communication from C. H. V. Smith, Jr., protesting very strenuously too, to the proposed location in Methuen street. Both petitions were referred to the commissioners of public property and licenses and the commissioner of streets and highways.

Petitions for garage and gasoline licenses were granted the following: Garage—Fred W. Jenner, Locke and Capals, James Bancroft, F. Leon Gage, M. D., Charles M. Bixby, Silvia et al., and Affie Saliba. Winlay Chisholm was granted both garage and gasoline licenses and Cameron Bros., D. M. Leary and Lucille Martel were granted gasoline licenses.

Petitions for garage and gasoline licenses were submitted by the following and were properly referred: Albert J. Brooks, W. B. Hatch, Roy F. Lovejoy and Marie L. S. Baron. The following petitioners for gasoline and garage licenses will be given a hearing on December 15. Coburn's Motor company, Moody Bridge, Joseph Z. Desrogers and Addie M. Merrill.

The following petitions were read and referred: P. N. Brunelle, to accept a concrete sidewalk at \$55.37 Moody street; Edward W. Trull, et al., that Homeward street be accepted, sidewalks and grass plot be built and street macadamized. Adelpard P. Demers, that the sidewalk on Gorbam st., between Glidden avenue and Stevens street, be accepted.

The order calling a meeting of the voters for the city election and declaring the results of preliminary elections was adopted.

Adjourned to meet next Tuesday at 11 o'clock.

FOUR MONTHS TO PRISON

SENTENCE OF MAN FOR ASSAULT AND ROBBERY—OTHER CASES IN POLICE COURT

For knocking a man down on a public street and the larceny of 53 cents, which he dropped out of his pocket, Powell Reay of this city was sentenced to four months in the house of correction by Judge Enright in the local police court this forenoon. Defendant was also charged with drunkenness, but this was placed on file after a plea of guilty had been entered.

The complainant was Costas Geanamaris, who claimed that he met the defendant in a Moody street liquor store. He said that Reay requested him to buy a drink several times, but each time he refused and finally walked out onto Moody street. When the pair were opposite Monument square, he is alleged, Reay struck Geanamaris several blows, knocking him to the sidewalk. He was then seen to pick up some change from the sidewalk and was in the act of making a getaway when stopped by Patrolman Tsafaris and placed under arrest. The complainant displayed an ugly gash over his eye which he claimed was sustained during the row.

Patrolman Tsafaris testified that he saw Reay strike Geanamaris and attempt to buy a drink from the sidewalk. The policeman then rushed to the rescue and placed the man under arrest. Fifty-nine cents were taken from him on the way to the police station.

Deputy Downey read off a long record against the defendant and it was agreed that he was on probation at the time of his arrest. He will spend the next four months at the house of correction in Cambridge.

Sewing Machine Case
Charged with concealing a sewing machine which had been leased from the Singer Sewing Machine Co., Frederick Redfern was arraigned in court today. Through his attorney, John J. McClure, he entered a plea of not guilty. John S. Harvey appeared for the prosecution.

It is claimed by the complainant that over two years ago the defendant agreed to purchase a machine on the installment plan. He made a few payments, but according to the evidence, he finally refused to pay any more and would not give any attention to the collectors who called at his home. Finally Sheriff Stiles went to the Redfern home with a writ in an attempt to recover the machine but, it is said, the defendant said that the machine was where it would not be removed for a time. Saturday afternoon Sergeant Giroux was called into the case and he attempted to have Mr. Redfern agree to return the machine but this could not be done and his arrest followed.

During the progress of the trial, Lawyer McClure said that the defendant was willing to return the sewing machine if the Singer Co. would stop all proceedings and this was agreeable to Lawyer Harvey and his client. Redfern was found guilty and the case was continued for sentence until the machine was returned.

Marital Infelicity
Married on the second day of October and never lived with her husband since that time was the story told by Mrs. Lena Westwood when her husband, Paul F., was charged with non-support. Paul admitted his guilt but said that he had been unfortunate in securing work so he was given one month to find some means of supporting his better-half.

Charles Miller got drunk yesterday and upon going home last evening drove his wife and children into the street, according to the testimony of Patrolman Lemay when the case was called for trial. It seems that Mrs. Miller and her children were suffering from the cold when the officer was called to quiet him. All were afraid of Miller, said the officer, and did not dare to go into the house. His case was continued until Saturday for sentence. Several other drunken offenders were disposed of while six were released by the probation officer.

PROMINENT MILL MAN DIES

FALL RIVER, Nov. 24.—James R. Cunniff, one of the best known mill men of the city, who has been a prominent factor here in manufacturing circles for nearly half a century, died today.

CITY OWES THE STATE CITY HALL NEWS WAR MEASURES

Balance of Accounts for Year
Shows That City Owes Fifty-eight Thousand Dollars

In the settlement of the annual financial accounts between the state and the city of Lowell a balance of practically \$58,000 is found in favor of the commonwealth by the state treasurer. One of the requirements of the accounting system installed by the state bureau of statistics is that in this settlement the state shall send the city a check and the city shall also send the state a check. The face that the city's check is the larger makes the actual balance in favor of the commonwealth.

In the statement of the account between the two bodies made public by the state treasurer the following items are displayed:

State Owes City

Auditing municipal accounts.....4,362.23
Total.....\$192,000.00

METCALF CASE THE SIEGEL CASE

Government Opens its Case Against Metcalf and De Kay

PROVIDENCE, R. I., Nov. 24.—Atlantic National bank transactions that resulted in criminal charges against Edward P. Metcalf, former president of the institution, and Henry E. De Kay, a New York broker, were not approved by the bank directors, the government contended in opening its case against Metcalf and De Kay today.

Drafts of the Massachusetts Chemical company and the Mexican National Packing company, limited, and a \$35,000 note of De Kay the government witness, Metcalf of misapplying funds of the bank and against De Kay of aiding and abetting Metcalf in the alleged misapplication.

R. L. Curtis, receiver of the institution, testified to finding the \$35,000 note among papers in the vault of the bank. He said Metcalf told him the papers belonged to Mrs. Metcalf. Since then, he added, he had received Mexican gold bonds as security for the payment of \$21,000 due on the note.

Before the presentation of evidence began, the court removed his default against De Kay's \$20,000 bail.

Dist. Atty. Pelletier Acts in Behalf of Boston Depositors

BOSTON, Nov. 24.—A letter suggesting that its restitution to depositors is to be made by Henry Siegel, the New York merchant convicted yesterday of obtaining credit on false financial statements, the depositors in Siegel's Boston store also should be considered, was sent by District Attorney Pelletier to District Attorney Whitman of New York today.

623 FRENCHMEN KILLED

LOSSES IN RECENT FIGHTING NEAR KENIFERA, MOROCCO, REPORTED FROM MADRID

BERLIN, Nov. 24.—The French losses in the recent fighting near Kenifera, Morocco, during the attack on an encampment of mountain tribes was given today in reports from Madrid, issued by the official press, as 23 officers and 600 men killed. The fighting resulted, according to these reports, in a defeat for the French who, it is said, lost two batteries.

CLOUGH WINS NOMINATION

MANCHESTER, N. H., Nov. 24.—At a caucus of ward 1 republicans last night Alderman Albert L. Clough won a re-nomination over Frank B. Stevens, 369 to 317.

Alleged Ballot Tampering May be Investigated—Other Items

The alleged tampering with ballots in precinct 2 of ward 1 was discovered by the recount of the aldermanic vote was the chief topic at city hall this forenoon.

"If those ballots were tampered with," said Commissioner Carmichael, "the matter should be brought to the attention of the district attorney. The intent or the will of the voter ought not to be thwarted in that manner. I do not know a greater offense than to deliberately change a man's vote."

George H. Brown, commissioner of finance, said: "I will take the matter up at once and if I deem it necessary to make a general change in precinct officers I will do so. I am going to bring the matter to the attention of the city solicitor today. I feel that as commissioner of finance it is my duty to investigate."

And so it goes. Another man, and one who has worked off and on in the registrars' office, declared that nobody now has the right to reopen the ballots except by an order of the court, and that if anything is done in the matter it would have to be done through the district attorney. "The commissioner of finance can do nothing about it," he said.

Pay Day Tomorrow

City hall's pay day will come in time to allow the employees who are paid by the week to get their envelope before Thanksgiving, although the city council is not to be thanked for the courtesy. The treasurer's office is responsible and the employees, also the precinct officers, will be paid tomorrow.

Preliminary Election Expenses

The following expenses in connection with the preliminary election have been filed with the city clerk: J. Eugene Mullin, defeated candidate for school board, \$8.75; William N. Fadden, another defeated candidate for the school board, "nothing." John C. Leggat, successful candidate for the school board, \$15.00. C. Harry Clapp, defeated candidate for alderman, \$108.25.

PRESIDENT TELLS STORY

WASHINGTON, Nov. 24.—President Wilson today illustrated to callers his state of mind on the question of attending executive sessions of the senate by telling the following story:

"A certain man was playing golf and after a few holes he turned to his caddy and said: 'Caddy, have you ever seen anyone play worse golf?' 'The caddy was silent. 'I say, did you ever see anyone play worse golf?' repeated the man, evidently thinking the caddy had not heard. 'I heard you the first time,' the caddy said. 'I was just trying to think.'"

Bundeazrath Fixes Price for Potatoes

BERLIN, Nov. 24 (via London).—The Bundeazrath today issued a decree fixing the price which growers are to charge for potatoes throughout the empire. For purposes of classification the country has been divided into four sections. The first consists apparently of the territory to the east of the Elbe and here the price is fixed at 2.15 marks (86 cents) per decaliter (3.08 quarts). The second section is the kingdom of Saxony and the district of Thuringia where the price is 2.55 marks, 68 1/2 cents, per decaliter. In the third section, which is northwestern Germany, the price is 2.35 marks (71 cents per decaliter), and the fourth section, comprising the western and southern portions of the empire, the price is 3.05 (73 cents) per decaliter. These prices are for the best qualities. For inferior qualities the price is 25 pfennings (six cents) less.

Another measure adopted by the Bundeazrath was to prolong by 30 days the time for the empire to pay above the change in Alsace-Lorraine, East Prussia and a few cities in West Prussia. The regular time of protest, taken with this extension, gives at present a protest period of 150 days.

The Bundeazrath decreed also that every attempt to buy or sell the gold coin of the empire at prices above their nominal value or the siding in such transactions would be punished by imprisonment for one year and a maximum fine of 5000 marks.

A decree has been issued by the city of Berlin and the province of Brandenburg, which sets forth that it is the duty of everybody to supervise with care the use of wheat flour. Bakeries, hotels and restaurants using wheat flour must finish their baking before 2 p. m. every day and they may not begin preparations for baking previous to 5 p. m. Wheat bread may not be placed freely at the disposal of guests in inns, cafes and restaurants.

NEUTRALITY OF CHILE

INVESTIGATIONS OF CHARGES THAT GERMANS HAVE ESTABLISHED BASE OF OPERATIONS

VALPARAISO, Chile, Nov. 24.—The Chilean training ship General Baquedano has been sent by the government to the Juan Fernandez Islands to make an investigation into the charges that the Germans have established a base of operations on the islands of Mas-a-Puera, one of this group.

The French consul here has lodged a protest with the Chilean government that the French bark Valentine was sunk by the Germans within the territorial waters of this island.

Furthermore, investigation is being made as to the statement that the American steamer Sacramento, formerly the German steamer Alexandria from San Francisco, Oct. 15, for Valparaiso, trans-shipped her full cargo of coal and provisions to a German vessel within the territorial waters of the island Mas-a-Puera.

EXPERT SAYS WEATHER FAVORS THE GERMANS

Russians Bring up Reinforcements in Poland—French and Indian Troops Suffer From Cold

BERLIN, Nov. 24.—The newspapers have comparatively little comment on the appearance of reinforcements in the battle of Poland, which the Russians as at Warsaw were able to bring up at an opportune moment.

Major Morant, the military critic of the Taneblatt says it was to be expected as large forces had been left behind to garrison the Vistula fortresses when the Russians advanced and these are now being hurried up in an endeavor to save the day.

There is no indication in the head-quarter bulletin that these fresh Russian troops have been thrown in but it is thought here that it was probably between Kutno and the Vistula, as early reports seem to indicate that the Russian corps defeated at Wloclawek have taken a south-westerly line of retreat away from the river.

Major Morant, in an article evidently drafted under the impressions he received from yesterday's report, doubts whether the Russian retreat north of the Vistula will be checked before Nowo Georgiewsk. These forces, he says, have ceased to be a danger to the left wing of the principal German army in the region north of Lodz.

The military critics are anxiously awaiting the possible effect of the cold weather on the opposing armies. Major Morant believes the weather

favors the Germans who for years have been trained for winter campaigns and are fully equipped for cold weather, while the Frenchmen from the south, the colonies and the Indian troops will suffer from winter conditions.

LAST NIGHT'S EUROPEAN WAR FEATURES IN BRIEF FORM

Great battle in Poland seems to be turning in favor of Russians. Official statement from Berlin says: Russian reinforcements have "postponed a decision" of the battle on the Warta.

German submarine U 15 rammed by British warship and sunk off Scotland.

German destroyer founders after collision with Danish steamers in the Sund.

Russians report von Hindenburg's march on Warsaw is checked, 12,000 taken prisoners.

Germany is preparing another great effort in the west, it is said.

British advance in Turkey rapid, invaders being 60 miles inland from Persian gulf.

German garrison in East Africa repulses attack by three British regiments.

Total failure attended recruiting rallies at Saturday's football games in England and the game has become an object of hatred.

THE SICKABED LADY

The nurse thinks eggs are invaluable for invalids. The white of an egg, she says, rubbed into the hair and rinsed out with warm water will clean the scalp and soothe the itching. For a full or partial cure of the scalp, cover with the white membrane of the egg. It will draw soreness out. White of an egg spread on the skin, where mustard draft is to be applied, will prevent the severe burning.

An egg well beaten, with sugar and two tablespoons of cold wine or two of brandy is strengthening for old or weak.

Nurse says alum is one of the best remedies known to stop bleeding. A heaping teaspoonful of powdered alum placed in a common towel in any orator will stop the flow of blood in water.

When a wound where a large artery has been severed, snuffing a solution of still stop bleeding of the nose. It will also cure painter's colic.

A wash made with a teaspoonful of alum and a quart of water will prevent offensive sweating.

Burnt alum will remove proud flesh in wounds and sores.

To relieve toothache, says nurse, rub baking soda round the tooth and rinse the mouth with hot water.

A half-teaspoonful of soda in a glass of hot water will relieve heartburn.

When preparing a drink of Jamaica ginger for a child, add one-half a teaspoonful of soda. This is most effective.

Cover a burn with soda, and the fire will quickly be drawn out.

Nurse says a family medicine chest should always be kept filled and in good order. Time after time little accidents occur which, given the necessary remedy, could have been prevented and effective treatment.

Brushes, cuts, sprains, and many household accidents with arnica, cold cream, boracic ointment, liniment for bandages, court plaster and other necessities.

Here is a list of things which should be found in every family medicine chest: Absorbent cotton and old linen that has been boiled for bandages, senna leaves and castor oil, boracic acid, smelling salts, liniment of cloves, liniment of iodine, essence of peppermint, and last, but not least, a measuring glass and a clinical thermometer.

Where there are children be sure to keep the medicine chest locked, for the little people cannot be trusted to play with its contents. There have been cases of children swallowing poisonous liniments before now through carelessness in leaving these dangerous remedies within their reach.

Nurse, when she is on a "case" makes a little dummy clock which is a great help in caring for her patients. Take a piece of cardboard 4 1/2 in. and with compass, or something with a smooth round edge to a small dish will do, draw a circle in its center. Mark inside of the circle with the numerals, as on a "clock-face."

Make two "hands" from heavy paper by cutting two strips half an inch wide and about two inches long, having the minute hand longer than the hour hand. Fasten these in the center of one circle with a skewer, which has been inserted through small holes in the hands and cardboard, and is held in place by a tooth-pick at the back.

If you fed the new baby at 7:10 and do not want to feed it again for two hours, just set your dummy clock at 9:10, and then don't worry about forgetting when you fed it last.

For tired eyes nurse says a solution of boracic acid is the best known remedy. Apply with eye-cup or dropper.

She also advises that borax used in water as a daily gargle, keeps the throat healthy. Used in water for cleaning the teeth it disinfects them and prevents their decaying.

A hiccup-cure that rarely fails is to have someone hold your ears closed.

SLEEPYTIME TALES

BY VIRGINIA VALE
FOR THE LITTLE READERS OF THE SUN

THE SHOPPING TRIP

Once upon a time Helen's mother told her that she could go up to the city with her to do some shopping. Helen was so pleased at going that she could hardly stand still long enough to get dressed.

Helen and her mother took the cars and went quickly through the towns and at last reached the big city. They went into a large store and Helen's mother told her to sit quietly on one side of the stools that were near. Helen thought it great fun to twirl around and around on the stool but at last she grew dizzy and nearly fell off and so she stopped and began to look around.

On the stool next to her was a little girl just about her own age, and, as Helen looked at her, the little girl smiled and said: "Do you like to come shopping with your mother? I do."

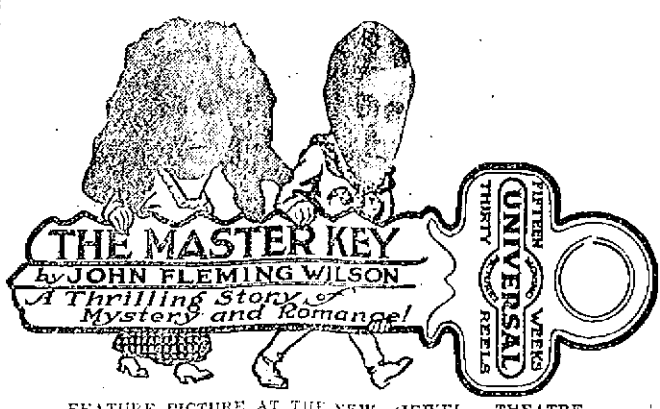

Helen said that she did and the little girls were soon telling each other about their dolls and each others names. Helen's mother was soon ready to leave the store and the children said good-bye.

Helen's mother took her to the milliner's and she bought her a pretty hat. Helen asked if she could not wear it and her mother said she could. Then her mother said: "I want to buy you a winter coat and then we will go and get some luncheon." Helen wanted to wear her new coat and her mother said: "I suppose you may as you have your new hat on."

Helen and her mother went to a restaurant and sat down at a very pleasant table and while her mother was ordering their luncheon Helen amused herself by looking around. "Oh look mother, there is the little girl I saw at the store. Can't I go and speak to her?"

Her mother said that she could and Helen went over to the table and said: "How do you do? Isn't it funny I should see you again?" For a minute the little girl looked at her and didn't speak and then she began to smile and said: "I didn't know you, for you have on a different hat and coat."

Helen told her that they were new and the little girl thought them very pretty and told Helen she would like a hat just like hers. They said good-bye to each other and Helen went back to her mother and found that her luncheon was all ready and that her mother had ordered ice cream for dessert. When they got back home Helen said she had had a nice trip and hoped she could go again.

FEATURE PICTURE AT THE NEW JEWEL THEATRE

while you drink a glass of water. So suggests, if you are alone, filling the mouth with water, then closing the lips and swallowing will do equally as well.

AMUSEMENT NOTES

OPERA HOUSE
With the Opera House filled to overflowing, the new program at the opera house last night went with a zest that all the other nearby theatres could not equal. The biggest feature of entertainment that had ever been handled for the money in the city, "The Five Million Dollar Mystery," with Wm. J. Burns was all that it is advertised to be and then some. All of the methods used by counterfeiter-George Felix in "The Boy Next Door" were vividly depicted in a piece of mechanical secrets by which they work, and shows for the first time in any of the theatres in Lowell.

The bill at Keith's theatre this week has the usual number of good features and is above the average in this respect. It is for this popular theatre, George Felix in "The Boy Next Door" provides what is undoubtedly the headliner of the various acts. Mr. Felix is the boy and he is ably assisted by the Barry sisters in producing a piece of the most delicious fun that has been seen at this theatre for a long time.

The Town Hall Minstrels, presented by George Harvey and his company, is a reminder of the old time blackface minstrel shows, the three men acting as intercomers, bones and tambura, while the other members appear in pictures only. The jokes and singing are good.

Burdella Patterson is a poseur, nothing more. She gives a great variety of pictures in which her graceful figure is cast upon the screen in varied hues, displaying the perfect woman in statuette.

Edna Eldrid, assisted by Edna Clark and Irma Eldrid, give a very funny three entitled "Won by a Leg." Eldrid plays the part of the youth who, when he has lost the love of his fiancee, wishes to win her sympathy by representing that he has lost a leg in a railroad accident. The funny situations resulting produce much laughter.

The Fonda troupe of jugglers presents an act as good as any of its kind. The Stuart brothers, Shavel and Shavel, show talent not only in music but in the dancers' art.

Monte and Dot, fun artists, complete the bill, which with the usual picture features, leave the audience well pleased.

Good seats for all performances may be obtained at advance prices. Seats should be made as soon as possible by all those who wish to get tickets for Thanksgiving day, as the sale is now open. Phone 25.

MERRIMACK SQUARE THEATRE
William R. Freeman, the biggest man in the Merrimack Square Stock company, occupied the largest part of the audience's attention and draws forth the fullest measure of applause in the course of the four acts of "Uncle Dave Holcomb," a drama of village life which will entertain Merrimack Square audiences Thanksgiving night.

In the characterization of one of these real country gentlemen, of that type that is willing to hunt for a lost cow, but for an elusive fox, there is a touch of the earth in his dialect, not too much of a laugh either, and from beginning to end his character, with the other qualities, with which old-fashioned farmers invariably have been clothed.

There is a home atmosphere to the show which strikes the right spot in the heart of the theatregoer during this Thanksgiving week. Evidently the Merrimack Square management appreciates the element of humor in the selection of its plays. For instance, during a week when mothers' and daughters' thoughts are running round the dining table, turkey, et al., the management of the popular playhouse takes a humorous, yet earnest, view of the problem, and presents a drama of life as it moves through a farmhouse "settling" room and before a family struggle.

Uncle Dave Holcomb, the friendly fellow upon the "picture" of Abraham Lincoln.

Mary is the heart throbs inspired by the play. There are generated by the play a stimulus of heart throbs, a mortgage. It appears that while Uncle Dave has one of these on his declining shoulders, he is a farmer; even he is a savvy seaman after season he plants his grain, sweats out harvest, it sells it and puts the money to lift the mortgage.

When the last curtain is dropped the mortgage money, somebody steals the \$1500. Without a dollar in his pocket, the day approaches when Uncle Dave is called upon by the bank to produce yet at the last moment—for this is a play on the stage—the \$1500 is returned and Uncle Dave Holcomb's farm is saved.

That farm, by the way, supports a most interesting family. There is good old Uncle Dave, honest, hard working, and almost childishly simple; his wife, who is a woman of the world, and his daughter, who is a girl, Lowell audiences already have formed a decided liking for this young actress, her work at all times being done in a convincing manner and her every effort put forth in a successful endeavor to give the patrons what they come to see, the best acting it is possible in this class of drama.

NEW JEWEL THEATRE
"The Master Key," a wonderful new serial play will begin at the New Jewel Theatre, corner of Merrimack and Tremont streets tomorrow and will be shown at this theatre Wednesday and Thursday. It is a remarkable picture, telling a strong

story and one that holds the interest throughout. The other fine pictures shown at The Jewel have aroused great interest and this one will be an even greater attraction. To appreciate the story one should start at the very beginning and see every reel of the entire picture. The opening reels will be shown tomorrow and Thursday. On Friday and Saturday another episode in "The Million Dollar Mystery" will be shown. This is another big feature at this theatre and draws many people each week. On Friday also will be seen Francis Ford and Grace Cunard in "The Mysterious Hand," a sensational mystery picture. There will be other good dramas and comedies each day and a special program for next Sunday.

THE OWL THEATRE
The return of the old policy of three weekly changes of program with another special Sunday program at the Owl, proves conclusively that variety is wanted by the picture-going public. The management is slow to please them. "The Slave" and five other brand new subjects are flashed on the flickerless screen.

Y. M. C. I. dancing party, Wed. eve.

HOME OF BANDITS
Boston Police May Close the Tunnel—Assaulted Man Dies

BOSTON, Nov. 24.—Assaults have occurred with such frequency in the tunnel beneath the elevated structure between Canal and Haverhill streets that the police now contemplate closing the tube to pedestrian traffic. Several times recently there have been robberies in the tunnel, the latest victim dying from the effects of the beating he received.

Adamo Leonard, who was found in the tunnel with his skull fractured, died yesterday at the Relief hospital, and on the police records there are several cases of assault reported from the same place. No police protection is afforded those who use the tube.

Within the past few weeks the assaults have been so bold that the police feel that the only solution is the closing of the tunnel.

On Nov. 7, James O'Neil, 59 years, of Reservoir street, Revere, was shot while passing through the tunnel to the South Church. He owes his life to the power-book he carried in a vest pocket, which deflected the bullet.

Only last week George Krause, of Williamsville was beaten and robbed of \$11 by three men, who were later arrested, and who are now in jail awaiting the action of the grand jury.

In the characterization of one of these real country gentlemen, of that type that is willing to hunt for a lost cow, but for an elusive fox, there is a touch of the earth in his dialect, not too much of a laugh either, and from beginning to end his character, with the other qualities, with which old-fashioned farmers invariably have been clothed.

GERMANS IN RETREAT AFTER RUSSIAN VICTORY

Gen. Von Hindenburg's Army Experienced Serious Reverses at Hands of Russians

LONDON, Nov. 24.—General Von Hindenburg's army which last week was sweeping toward Warsaw in its second advance through Russian Poland today is reported from Petrograd to be in retreat after having experienced serious reverses at the hands of the Russians who, having been reinforced by a brilliant stand between the Vistula and Warta rivers.

The same despatches that tell of General Von Hindenburg's reverses, however, say that German reinforcements were being brought up so that another great battle is likely to develop on a line nearer to the frontier of Russia where the Germans will have the same chance of renewing a vigorous offensive as had the Russians in the present instance.

General Von Hindenburg has about 400,000 men but if the Petrograd report can be accepted they have been separated, badly cut up and thousands taken prisoners so that they will require reformation and rest after the severe punishment inflicted upon them following their advance into the heart of Russian Poland.

In the western arena of the war the present line of battle seems to be frozen into position as if in conformity with the wintry weather conditions. Rheims, Soissons and Ypres continue to

LONDON ADMITS BRITISH DEFEATED IN EAST AFRICA

Desperate Assault on German Town Proved Disastrous — Casualties in Operation Were 795, Including 141 British Officers and Men

LONDON, Nov. 24.—The official press bureau makes public the following: "In East Africa it appears from the latest information that as an important German railroad terminus was reported weakly held a force was sent from British East Africa to seize it. On the evening of Nov. 2 one and one-half battalions landed within two miles of the place and became heavily engaged just outside the town. But as the enemy were in much superior strength this force was compelled to fall back and await reinforcements.

"At 11 a. m. on the 4th the attack was renewed. When within 300 yards of the position the troops engaged came under a heavy fire on their left flank. In spite of heavy casualties, the 101st Grenadiers actually entered the town and crossed bayonets with the enemy. The North Lancashire regiment and the Cashmere Rifles on the right pushed on in support under a heavy fire and also reached the town. They found themselves opposed by tiers of fire from the houses and were eventually compelled to fall back to cover 500 yards from the enemy's position.

"The losses were so heavy and the position so strong that it was considered useless to renew the attack and the force re-embarked to return to its base to prepare for future operations.

"From recent reports just received, the total casualties in this unsuccessful operation were 795, including 141 British officers and men. The wounded are mostly doing well. Many are convalescent.

"The official press bureau adds that the above casualties were included in the statement recently made by Lord Curzon in the house of lords.

GERMANY HAS NO DESIRE FOR PEACE

Berlin Paper Says Reports are Probably Inspired by British—Position of Germans Favorable

BERLIN, Nov. 24.—The Cologne Gazette declares that the reports of a German desire for peace which it says are probably inspired by the British belong to the region of higher political ideology.

The position of the Germans, neither in the east nor the west, it continues, is critical. The German military undertakings on all the battlefields are progressing favorably. Neither the military nor the political situation contain another reason which might make Germany desirous to conclude peace.

GERMANS PLACING ARMED MOTORCYCLES FOR USE ON BELGIAN CANAL

LONDON, Nov. 24.—The Times correspondent in Flanders says the Germans are placing in shape a large number of armed motorboats for use on the Belgian canal. They are, he says, high in engine power and are armed with quick fire.

THANKSGIVING DINNER

Where to Find the Bird and the "Fixin's"—Leading Markets are Well Supplied

Nearly everybody is busy buying its many customers. There is a competition between the clerks at this store in the sale of baking powder and this is exciting keen interest among the salesmen.

Advertisements of the market and provision men will be found in The Sun today and these should be read by all. These advertisements appear each week on The Sun's Market Day, which has been a successful feature. Market day has aided both retailer and consumer.

CLOTHING FOR BELGIANS

MIDDLESEX WOMEN'S CLUB OPENS ITS HEADQUARTERS TO AID WORTHY CAUSE

During the first three days of next week, the Middlesex Women's club has offered the use of its rooms and headquarters for the collection of clothing for the suffering Belgians. All kinds of underclothing for men, women and children are desired, and shawls and sweaters will be especially acceptable. If any donors prefer to have their gifts used by the needy of Lowell, all contributions so marked will be distributed to some of the worthy charities here. If not convenient to bring clothing to the club rooms, send them by mail to Colonial hall, Palmer street, or telephone 951 and the goods will be called for.

Undoubtedly in hundreds of Lowell homes are discarded garments which are useless to their owners but which would prove a veritable Godsend to some poor afflicted Belgian driven out of home and rendered penniless. Millions of men, women and children in that devastated country are absolutely dependent on charity, and without any great sacrifice, many Lowell people could aid them by answering the timely appeal of the Middlesex Women's club. It would be a pity if unused clothing should be permitted to hang in old closets or be hidden away in attics in this city when the need of the suffering Belgians is so urgent. The response will undoubtedly be as it should be—prompt and generous.

SCHOOL FOR OFFICERS

A school for the officers of the Second battalion of the Six Regiment was held at the armory last night in charge of Capt. Ralph McCoy, U. S. A. The inspector general's department, Massachusetts National Guard. The officers at the school were the captains and lieutenants of Companies C, G and K of this unit, and L of Boston. The session lasted until after 10 o'clock and was very successful. At the close of the session the officers held a brief meeting to discuss plans for the coming battalion night to be held at the armory some time in December.

GERMANS SURRENDER KILLED HIMSELF

Entire Regiment Surrendered to Russians — Petrograd Reports Russian Victories

PARIS, Nov. 24.—The correspondent at Petrograd of the Matin says: "The Russians after having checked the German offensive on the Plock-Leczyen front gained on that side a brilliant decisive victory. The enemy who had heavy losses is flying with all speed toward the German frontier. An entire German regiment surrendered to the victors.

"The Russians are energetically pursuing the enemy.

"The Russians also are vigorously attacking along the Czenstochowa-Cracow line. This day seems to mark one of the most important and perhaps decisive phases of the war."

REPORTS OF A RUSSIAN VICTORY OVER GERMANS ARE CONFIRMED

LONDON, Nov. 24.—The Times Petrograd correspondent in a despatch supplementing one declaring that private advice received in the Russian capital had confirmed the reports of a Russian victory over the Germans in Poland, says:

"According to unofficial information reaching here the German army of 600,000 which made an irruption between the Vistula and Warta rivers has been broken up into several parts, one of which was compelled to divert its course southward and another northward.

"Apparently in each case the Russian forces succeeded in getting behind these disorganized corps and inflicted upon them great losses.

"The Germans are believed to have suffered very heavy reverses at Berezynia and Tuszyn. It is impossible as yet to give even approximate figures."

GERMANS ARE BELIEVED TO HAVE SUFFERED VERY HEAVY REVERSES AT BEREZYNIA AND TUSZYN. IT IS IMPOSSIBLE AS YET TO GIVE EVEN APPROXIMATE FIGURES.

RUSSIAN CONTINUE TO DRIVE BACK GERMANS NEAR ERZERUM

LONDON, Nov. 24.—An official communication given out in Petrograd, according to an Exchange telegraph despatch, announces a German retreat in Poland. The statements follow:

Between the Vistula and the Warta the Germans have retreated from the line running from Strykow to Zgorze, Szadek, Zauska, Wala and Wozniki.

RUSSIAN CONTINUE TO DRIVE BACK GERMANS NEAR ERZERUM

PETROGRAD, Nov. 24.—An official communication issued by the general staff of the Russian army in Caucasus under date of Nov. 22 says:

"At the direction of the Russian army continued to drive back the enemy, after having thrown into disorder a

Turkish column during which an ammunition train was captured.

"From Karaklis to Alashgerdvaly some engagements took place with results favorable to us. In the Persian province of Azerbaijan, the Turks were defeated in the region of Khansur pass and also in the passes leading from Dihnan in the direction of Ketur. In these engagements the Russian troops captured some Turkish artillery."

\$75,000 FOR SAVING GIRL

MONTVILLE, Conn., Nov. 24.—A bequest of \$75,000 is the reward given Henry A. Bolles of this place for saving a little girl from drowning in the Thames river 25 years ago. The girl was the daughter of a Mr. Trumbull of New York city and had fallen overboard from her father's yacht.

Mr. Bolles, who was a boatman at that time, said yesterday he remembered the father asking him his name, but he had heard nothing more from him.

Mr. Trumbull died within the past two weeks and Mr. Bolles has just been notified of the bequest by the executors of the Trumbull estate.

FORMER BOATMAN REWARDED AFTER 25 YEARS BY GIRL'S FATHER

SOCIAL AND FRATERNAL

Protection lodge, American Benevolent society, met in special session at Odd Fellows building, Middlesex street, last evening for the purpose of obligating a large class of new members. Past President Dr. Wesley Sawyer presided. This evening the members of the local lodge will visit the Lawrence lodge.

ORDER OF MOOSE

A large class of new members was initiated at the regular meeting of Lowell lodge, 618, Lowell order of Moose lodge, evening in its hall in the Howe building. Six applications for membership were received. The two new members were initiated into the order. Arrangements are being made for the annual dance of the division which will be held in the near future.

If your teeth trouble you, see Dr. Gagnon, 466 Merrimack street.

P. H. Nolan Was to Have Testified in Court Today

ST. LOUIS, Nov. 24.—P. H. Nolan, promoter of New York, Pittsburgh, Philadelphia, Milwaukee and St. Louis, shot and killed himself in the offices of the Mutual Brewing Co. here last night.

This afternoon he was to have testified in an involuntary bankruptcy proceeding against the brewery company of which he was chief organizer, vice-president and general manager.

Nolan had organized mutual brewing companies in New York and Pittsburgh. He was editor of the Liquor Trades Gazette, published at New York. The recent partial loss of his eyesight, friends say, caused a decline in his business ability and thereby led to the financial troubles on account of which, they believe, he ended his life.

Good old music at the Firemen's Ball, Armory, Thanksgiving eve.

MIND BLANK TWO WEEKS

ANDREW W. ASHLEY REGAINS HIS MEMORY AT MARLBORO HOSPITAL

MARLBORO, Nov. 24.—His mind a blank for nearly two weeks, Andrew W. Ashley of Boston, nephew of Mayor Ashley of New Bedford, now finds his memory of past events fast returning.

Mr. Ashley, who became a patient at the Marlboro hospital ten days ago, came to himself yesterday afternoon. He recognized all around him, especially John Cummings of Boston, a friend who saw a picture in the paper that resulted in identifying the patient after he was taken to the hospital.

Dr. C. W. Smith, Mr. Ashley's physician, thinks it is only a question of time when he will be as well as ever. The doctor believes Mr. Ashley's business affairs had such an effect on his mind as to cause a lapse of memory. It was in that condition that Mr. Ashley appeared in Marlboro 12 days ago. How he got here, or what caused him to come, he does not know. He told the hospital authorities that he left his lodgings on Beacon street, Boston, to keep an engagement with a man of his acquaintance. He remembers nothing more until he walked into Dr. Smith's office.

He could not tell his name or where he belonged. Until last Tuesday nothing could be learned of his identity. He did not know his name, nor could he tell the names of any friends or relatives. He knew the seriousness of his condition, but was powerless to remedy it.

He was identified last Tuesday by his wife and Mr. Cummings. Mayor Ashley visited his nephew the following day.

While the patient was aware of the identity of his relatives and friends, he had no recollection of the past. For a time there appeared no change in his condition, and it seemed as if he might continue in the state in which he came here. Suddenly, however, he brightened up perceptibly, until today he appeared to have a clear knowledge of past events. He said that he has been manager of theatres in New Bedford, Haverhill, Boston and Lynn.

During the time he has been at the Marlboro hospital he has had a fairly good appetite. He says his weight during that time has dropped from 155 pounds to 136.

Attendants at the hospital are of the opinion that identification of the patient was the principal influence that brought about a return of memory.

RECORDED AT HARVARD

CAMBRIDGE, Nov. 24.—Two shocks were recorded on the seismograph at Harvard college today, the first at 7:41 o'clock and the second at 7:47. The distance to the origin of the earthquake was estimated at 2470 miles from Cambridge. The distance curve situated the coast of southwestern California and passed through the bay of Panama, according to Prof. J. B. Woodworth of the seismograph station.
